

“The Client Provides on-site management services at multi-levels and surface parking facilities for all major markets of the parking industry; Manages parking facilities containing more than one million parking spaces in hundreds of cities across the United States and Canada”

Key Drivers

- ✍ Business systems were on an AS400-based platform- in use for more than 17 years
- ✍ Need for unique contractual, pricing and billing requirements in each facility, as the client manages parking facilities owned by different parties

Solution Highlights

- ✍ Implementation of Oracle Financials, Oracle Service Contracts, Oracle Advanced Procurement
- ✍ Automation of Procure-to-Pay process
- ✍ New electronic billing and payment methods for monthly parking customers (annually 1,2 million bills)
- ✍ Streamlined business processes around customer data maintenance, complex contract management, billing and invoice print queues and inventory maintenance

Benefits

- ✍ Reduced paper consumption by 400 to 800 tons of paper annually
- ✍ Green environment:
 - ✍ Reduced the company's yearly consumption by up to 312 tons of paper
 - ✍ Saved 624 trees
 - ✍ Saved 5.1 million gallons of water
 - ✍ Reduced over 600,000 pounds of solid waste
 - ✍ Reduced 19,000 pounds of carbon emissions
