

Press Release

HCL Technologies Ranked # 1 in traditional IT Outsourcing Space by Datamonitor's The Black Book of Outsourcing 2009-10

- **HCLT is also ranked #1 in the RIMO (Remote Infrastructure Management Outsourcing) space**
- **Scores highest in 18 significant ITO criteria and 13 significant RIMO criteria surveyed**

NOIDA, INDIA- MAY 13, 2010 –HCL Technologies has been ranked # 1 in both Tier 1 Traditional IT Infrastructure Outsourcing and Remote Infrastructure Management Outsourcing (RIMO) space in the 2009-10 survey conducted by Datamonitor. The survey covers over 700 contracts held by 3,100 of the top ITO spending corporations and organizations globally and shares results across tier 1 and mid-tier companies. HCL Technologies has won the top slot because of its focus on innovation, training and building long lasting client relationships by ensuring great customer experience.

The survey positions HCL on the top slot in category of mid-market enterprise wide traditional IT Infrastructure Outsourcing (ITO). In addition, HCL was ranked No. 1 vendor (Tier 1) by its client's size across varied verticals, namely Automotive; Financial & Banking Services; Media, Publishing & Entertainment; Retail & Consumer Packaged Goods; Telecommunications; and Utilities. The survey has also ranked HCL Technologies in the top position in the data center management services in the tier 1 category and in applications monitoring services.

"While we are a world leader in the RIMO space, it gives us immense pleasure to be ranked #1 in the ITO space by Datamonitor's Black Book of Outsourcing. We are focusing on end-to-end infrastructure management and our global distribution model has played a critical role in helping us diversify and sell this proposition in emerging markets. This award is a testimonial of the fact that our customers are recognizing the true business value of IT Infrastructure outsourcing. Our strategic partnership with our clients helps us create a win-win proposition. Trust, transparency and flexibility have proved to be great differentiators for HCL and we truly live that in all our customer engagements. I would like to thank our customers for continuously reposing faith on us and helping us deliver innovative solutions and services," said, **Anant Gupta, President, HCL Technologies Infrastructure Service Division.**

Added **Anant**, "Innovation in business model, is what makes HCL different from its peers. Our unique 4 step strategy of IT Infrastructure management that includes transformation, consolidation, virtualization, leading to the enablement of a private cloud is being appreciated by customers across the globe today. We aim to offer advanced technologies to our customers in the future as well and attain greater heights in the IT infrastructure space."

"HCL has continued to rank competitively among outsourcing vendors, particularly in the Remote Infrastructure Management (RIM) and ITO sectors, which clearly demonstrates the strength of the company's client relationships and reputation in the fast growth IT sector for consistently providing results that deliver measurable value to clients," said **Doug Brown, Co-author, Datamonitor's The Black Book of Outsourcing.**

"The impact of client satisfaction on successful outsourcing relationships continues to manifest as the industry evolves, and HCL's ranking as the highest rated outsourcing vendor globally for 2009 is a testament to the firm's excellence for superior client service delivery regardless of product, service, or location of service delivery," added **Mr. Brown.**

HCL has recently been rated positive in Gartner Market Scope for Data Center Outsourcing, North America. Recently, TPI names HCL among the top 10 Infrastructure Outsourcing vendors. HCL currently manages over 1 million devices and the IT Infrastructure needs of over 1 million end users. The company leverages its extensive global offshore and near shore global delivery locations to provide multi-service delivery in key industries verticals.

The Survey Methodology: Datamonitor's The Black Book of Outsourcing Survey 2009-10 results are generated post a detailed three-step process that collects candid performance data. First, the research team collects a series of direct evaluations covering 26 performance areas on leadership and senior management, which comprise of the scored ranking of the "Black Book 50 Best Managed Vendors". Then, the team collects ballot results on 18 performance areas of operational excellence to rank vendors by outsourced service lines. The gathered data is then subjected to an internal and external audit to verify completeness and accuracy. During the audit, each data set is reviewed by a Brown-Wilson executive and at least two other people. The 18 criteria on operational excellence are subdivided by the client's industry, market size, geography and function outsourced and reported accordingly. Lastly, situational studies are conducted on areas of high interest such as Green Outsourcers, Educational Providers in Outsourcing, Outsourcing Benchmarkers and Boutique Advisors. These specific survey areas range from four to twenty questions or criteria each.
