HCL Customer Standard Parking Wins Oracle's 'Empower the Green Enterprise' Award

Streamlined HCL Implementation Will Save 624 Tons of Trees, 5.1 Million Gallons of Water, 600,000 Pounds of Waste and Almost 19,000 Pounds of Air Emissions

Sunnyvale, CA – September 25, 2008: HCL Technologies Ltd., India's leading global IT services provider, today announced its customer, Standard Parking Corporation, was named a winner of Oracle's 'Empower the Green Enterprise' award during Oracle OpenWorld 2008 (September 21-25) in San Francisco.

"HCL Technologies is proud of Standard Parking for their significant achievement," said Shami Khorana, President, HCL America. "Our domain knowledge of Oracle® Applications, superior service, and experience in streamlining business processes for our customers to meet their environmental needs, are unmatched. We are pleased that Oracle chose to honor Standard Parking with their green enterprise award."

Oracle selected winners based on how they were increasing eco-efficiency, eco-innovation and eco-transparency. Standard Parking was recognized for its streamlined HCL implementation of Oracle Financial Management, Oracle Service Contracts and Oracle Advanced Procurement. When the new automated Procure-to-Pay process is rolled out in 2009, it is estimated that Standard Parking will reduce its consumption of paper by 200,000 to 400,000 pieces of paper a year. Similarly, when fully implemented the planned new electronic billing and payment methods for Standard Parking's monthly parking customers (approximately 1,200,000 bills annually) could reduce the company's yearly consumption by up to 312 tons of paper, saving 624 tons of trees, 5.1 million gallons of water, over 600,000 pounds of solid waste and almost 19,000 pounds of air emissions.

"We're committed to improving our business processes in as eco-friendly fashion as possible, and are pleased with the significant positive impact that these changes will have from an ecological standpoint," said Keith B. Evans, Standard Parking's Senior Vice President of Strategy, Information and Technology. "This is a win-win for both our company and the environment."

"As part of our ongoing commitment to developing practices and products that help protect the environment, we are pleased to recognize Standard Parking and its implementation partner HCL Technologies as a winner of the Oracle 'Empower the Green Enterprise' award," said Evelyn Neumayr, Vice President Marketing, Applications and Industries, Oracle. "This implementation is a prime example of how a company can dramatically reduce its carbon footprint, as well as gain efficiencies and reduce costs."

The award from Oracle is the latest in a growing dossier of awards and recognitions for HCL Technologies and its customers. This list includes the following for HCL:

- **BusinessWeek's InfoTech 100 2008**, a compilation of the best-performing tech companies in the world

- **2008 *Global Services* 100**, a list of the top global services providers across 17 countries cover a range of services across IT and BPO, including IT application services, infrastructure, FAO, HRO and contact centers

- **Top 10 Best Performing Infrastructure Service Provider** by *Global Services Magazine,* in recognition of HCL's industry-leading achievements in Remote Infrastructure Management (RIM)

- **The ComputerWorld Honors Program 2008** recognized two of HCL's customers for their outstanding IT innovation. Merck & Company and Teradyne Inc. were both named as Laureates, while Teradyne was also recognized as a Finalist in its award category.

About HCL Technologies

HCL Technologies is one of India's leading global IT Services companies, providing software-led IT solutions, remote infrastructure management services and BPO. Having made a foray into the global IT landscape in 1999 after its IPO, HCL Technologies focuses on Transformational Outsourcing, working with clients in areas that impact and re-define the core of their business. The company leverages an extensive global offshore infrastructure and its global network of offices in 16 countries to deliver solutions across select verticals including Financial Services, Retail & Consumer, Life Sciences Aerospace, Automotive, Semiconductors, Telecom and MPE (Media Publishing & Entertainment). For the year ended 30th June 2008, HCL Technologies, along with its subsidiaries had revenues of US$ 1.9 billion (Rs. 7,639crore) and employed 50,741 professionals. For more information, please visit
