

## **HCL AXON Announced as Winner of 2012 SAP Run Prouder Partner Award for HCM**

HCL AXON has been awarded the 2012 SAP Run Prouder Partner Award HCM. In recognition of its partners' success and innovation, SAP announced the recipients of the 2012 SAP Run Prouder awards at a ceremony in London on 22<sup>nd</sup> May. The awards are new to the UK & Ireland marketplace for 2012 and were presented to partners to recognize the success not only of how they worked with SAP, but by working together, how they delivered success to their customers.

HCL AXON was instrumental in helping to close the largest SAP HR license sale in the UK for FY2011. As part of a wider transformation program, HCL AXON bid for and won a HR managed services contract for 67,000 employees in the Public Services market. The end-user client was DHSSPS (Department of Health Social Services and Public Safety), Northern Ireland. HCL AXON successfully positioned the SAP HR solution as the best technology platform to deliver the required services. This was an extremely competitive bid and an excellent example of collaboration with a strategic partner and the SAP Public Sector & Solution account teams.

### **HCL AXON's HCM Capabilities:**

HCL AXON offers a rich history of customer success stories through delivering SAP enabled HR transformation programmes that drive real value for our customers. We are a leader in delivering global HCM programmes and are renowned for our innovative solutions such as iCREW that meet our customers' needs effectively. These innovative solutions combined with rapid delivery (RapidHR) mean our customers can quickly start to realize benefit. We have successfully delivered over 150 SAP enabled HCM programmes around the globe. Our consultants are highly skilled, many with both professional HR and technology qualifications enabling us to deliver quality solutions. (e.g. 2011 - Royal Mail Group - Winner - SAP Gold Quality award)

We recognize that HR Executives today are under significant pressure to demonstrate both their contribution to their organisation's strategic goals whilst maximising efficiency within the HR function itself. There are many HRMS solutions in the market today, leaving HR Executives with difficult choices to make between, ERP, onPremise, Cloud, and Best of Breed. Our highly skilled team will evaluate both the technology and HR organisational options to recommend a solution that will best meet our customer need be it on Premise, Cloud or Hybrid, shared service, or outsourcing.
