Noida, India, 9th February 2016: [HCL Technologies](#), a leading global IT services provider, has won [Everest Group PEAK Matrix™ 'Service Provider of the Year Award 2016'](#) in two categories – 'Overall IT Services' and 'Banking, Financial Services and Insurance (BFSI) IT'. In both these categories, HCL has been recognized as 'Star Performer of the Year'.

Everest Group PEAK Matrix™ evaluations are a valuable source for IT services buyers to evaluate and compare key service providers in the global market. These assessments not only provide guidance to select a service provider, but also offer nuanced insights into the strategies pursued by providers for key business lines, geographies, and technologies. The awards recognize consistent top performers across 26 PEAK Matrix™ IT services evaluations featuring 59 providers, that were published in 2015.

"The global services industry is witnessing significant churn due to disruption in technology and sourcing models. The PEAK Matrix™ Star Performer ratings are indicative of a service provider's ability to successfully transform client environments, in an age where incumbents are getting increasingly challenged to retain market share. HCL has been awarded for securing the maximum number of 'Star Performer' ratings across 26 Everest Group PEAK Matrix™ Assessments" said CJ Sengupta, Vice President, Everest Group.

"Over the years, HCL has invested significantly in building its global leadership in transformational IT services space. As we prepare and position ourselves to meet the demands of 21st Century Enterprise through our differentiated propositions across Next-Gen IT Outsourcing, BEYONDigital and IoT Works, this recognition further underscores our leadership position and the trust that clients are placing in us," said Rahul Singh, President, Financial Services, HCL Technologies.
