

Vestas selects HCL Technologies as Strategic Partner

Multi-year engagement to provide application development services to
Renewable & Wind Energy leader

Noida, June 21st, 2013 – [HCL Technologies Ltd.](#) a leading global IT services company today announced it has entered into a multi-year engagement with Vestas Wind Systems A/S as their strategic partner. Vestas is a global leader in manufacturing, selling, installing, and servicing of wind turbine power-plants.

HCL will provide application development and management- and IT-consultancy services to applications run by Vestas as part of this engagement. The services will be delivered to Vestas primarily from India, but also from the Philippines and across locations in Denmark. Besides cost reduction, Vestas IT expects to gain increased flexibility in terms of skills, scale, knowledge and experience and achieve higher quality by using the HCL's best in class processes and services.

Torben Bonde, CIO, Vestas said, "We are pleased to partner with HCL which has shown passion and flexibility in their efforts to meet Vestas' requirements. I am looking very much forward to a partnership based upon HCL having the same goals and objectives as Vestas, by delivering value added services, best practices and innovation."

Commenting on the success, **Sanjeev Nikore, President, Consumer, Manufacturing and Public Services, HCL Technologies Ltd.** said, "HCL is committed to deliver innovation to its customers especially in these turbulent times by providing competence, flexibility and cost optimization. This is a significant engagement in renewable energy sector. It will reflect our commitment to the sustainability agenda besides showcasing our rapid growth in the Nordic region."

The milestone win for HCL comes on the back of its definite strength in the domain of application development, management- and IT-consultancy Services. Company's ADeX (Application Development Excellence) Framework along with its employee first driven approach will align HCL with Vestas business objectives delivering desired results through IT innovation.

About Vestas

Every single day, Vestas wind turbines deliver clean energy that supports the global fight against climate change. Wind power from Vestas' around 49,000 wind turbines currently reduces carbon emissions by over 60 million tons of CO2 every year, while at the same time building energy security and independence.

Today, Vestas has delivered wind energy in 73 countries, providing jobs for around 17,000 passionate people at its service and project sites, research facilities, factories and offices all over the world. With

62 per cent more megawatts installed than our closest competitor and more than 56 GW of cumulative installed capacity worldwide, Vestas is the world leader in wind energy.
