

PRESS RELEASE

## **HCL Technologies announces successful completion of end-to-end ERP implementation for Sharda University**

*Engagement marks one of the first ERP implementations for a Private University in the country*

**Noida, India – June 13, 2012–** [HCL Technologies](#), a leading global IT services provider, today announced that it has successfully implemented the first phase of Oracle's PeopleSoft solutions suite for Sharda University, India's leading educational institution. The end-to-end ERP implementation, one of the first for a private university in India, will help Sharda University automate all its back-end and front-end process to deliver a better user experience.

Under the terms of agreement, HCL is deploying PeopleSoft solution suite including modules like Campus Solutions, Finance and Supply Chain Management (FSCM), Human Capital Management (HCM) and Enterprise Portal. This will enable Sharda University to seamlessly manage the entire academic life-cycle of students and related administrative processes. The benefits include superior student/applicant experience like multiple enquiry channels across the globe, key real-time information dashboard for applicants, students and alumni through self-service portal; optimized faculty work allocation; and ability to handle domestic and international applications on a single platform.

The solution will therefore help Sharda University significantly improve operational efficiencies across its national and international offices and ensure compliance with regulatory norms.

"With the aim of providing a world-class learning experience to our students, we initiated the path-breaking program of redefining our processes and IT landscape in line with highest international standards. The PeopleSoft University Management System (ERP) is a part of this vision and catapults us to the league of select renowned international universities that run on an advanced solution like this." said **Mr. P K Gupta, Chairman, Sharda Group**. "In HCL, we found a partner who could support the strategic initiative of deploying the ERP solution suite across all our schools. We look forward to leveraging HCL's domain expertise to achieve continued operational efficiencies." added **Mr. Mudit Consul, EVP, Sharda Group**.

"Education is one of the sunrise sectors in India and a huge consumer of technology services. The successful implementation of the PeopleSoft solutions suite will help Sharda University reduce operational costs and transform the student experience by simplifying complex administrative processes." said **Pradeep Bindal, President, Asia Pacific, Middle East & Africa, HCL Technologies**. "We look forward to a mutually rewarding partnership with the university."

India is a significant growth market for HCL Technologies with 50 plus offices in the country, serving over 200 clients across sectors. HCL provides IT services to many premier educational institutions in the country both in private and public sectors.

### About HCL Technologies

HCL Technologies is a leading global IT services company, working with clients in the areas that impact and redefine the core of their businesses. Since its inception into the global landscape after its IPO in 1999, HCL focuses on 'transformational outsourcing', underlined by innovation and value creation, and offers integrated portfolio of services including software-led IT solutions, infrastructure management, engineering and R&D services and BPO. HCL leverages its extensive global offshore infrastructure and network of offices in 26 countries to provide holistic, multi-service delivery in key industry verticals including Financial Services, Manufacturing, Consumer Services, Public Services and Healthcare. HCL takes pride in its philosophy of 'Employees First, Customers Second' which empowers our 82,464 transformers to create a real value for the customers. HCL Technologies, along with its subsidiaries, has reported consolidated revenues of US\$ 4.0 billion (Rs 19,412 crores), as on 31 March 2012 (on LTMbasis).
