

## HCL'S "INSURANCE-IN-A-BOX" CLOUD OFFERING

Cloud is the future. Discover a new way to deliver faster results with minimal upfront investment and IT infrastructure.

### WHY HCL'S 'INSURANCE-IN-A-BOX' SHOULD BE AT THE CORE OF YOUR TRANSFORMATION INITIATIVE?

HCL's "Insurance in a box" leverages state-of-the-art software as a service (SaaS) technology to provide the following benefits:

- Allows you to focus on your core business. HCL will provide and manage the technology infrastructure and application management
- Reduced Total cost of ownership through flexible pricing models including 'pay as you go'
- Enables faster time to market by eliminating the lead time for infrastructure procurement and setup
- Increased agility to adapt to changing business requirements
- Enhanced scalability leading to easy expansion into new lines of business or geographies

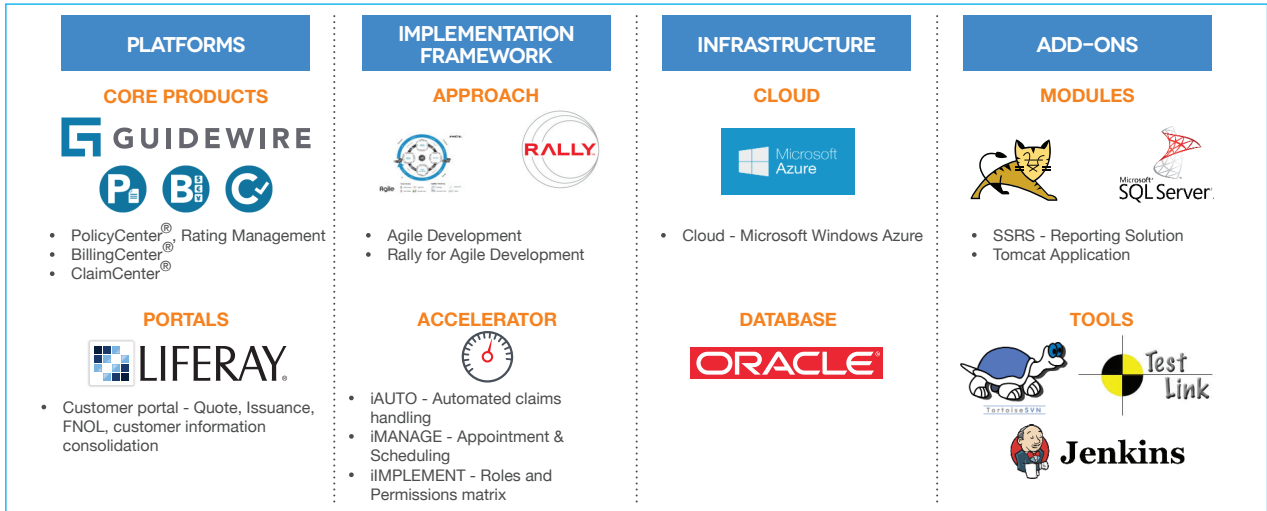

### WHAT IS HCL'S "INSURANCE-IN-A-BOX"?

HCL's "Insurance in a box" offering is a cloud-based solution that leverages modern, proven IT solutions, including the Guidewire product portfolio.

The core components of our solution include:

- State-of-the-art Microsoft Azure private cloud
- Hosted access to the Guidewire InsuranceSuite™ - ClaimCenter®, PolicyCenter® and BillingCenter®.
- Out-of-the-box customer portal providing mobile as well as desktop access for your clients
- Microsoft SSRS based reporting services for reporting from Guidewire (this can also utilize Guidewire DataHub™ and Guidewire InfoCenter™ solutions)

# HCL'S INSURANCE-IN-A-BOX FRAMEWORK

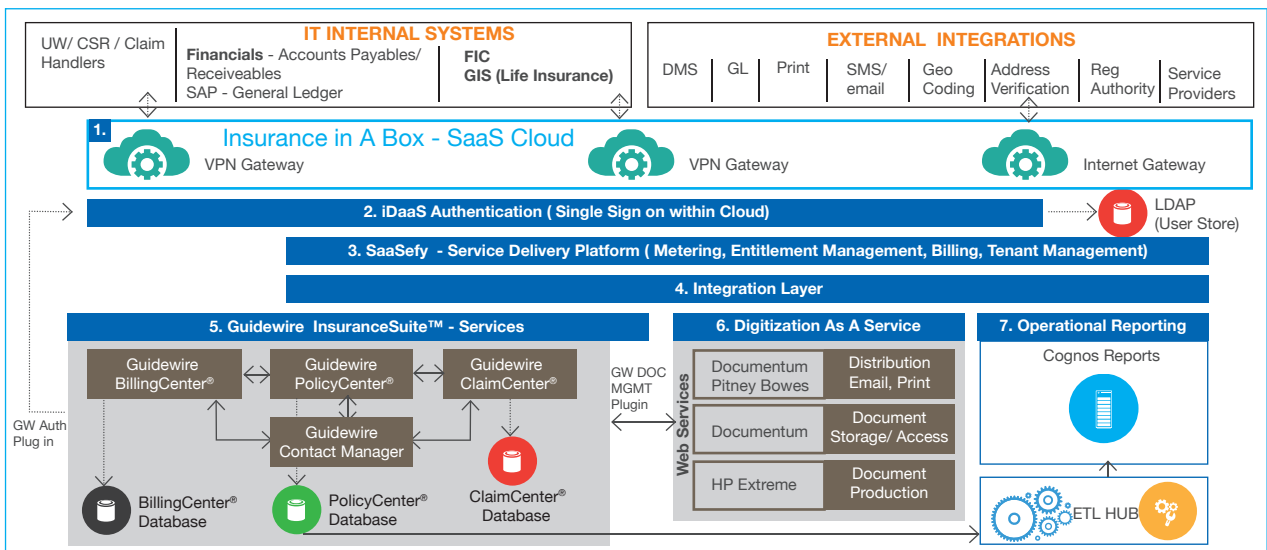

The core infrastructure services are hosted on Microsoft Azure private cloud. This platform provides the following benefits:

- high availability clusters
- phased and flexible provisioning
- increased network speed through 'local' country hosting
- increased data security through isolated instances and private cloud structure

Our framework provides proven accelerators and add-ons that provide additional value-add to our clients

## HOW WOULD A TYPICAL IMPLEMENTATION LOOK?

The bulk of the Guidewire services and add-ons would be provided by our “Insurance in a Box” solution. All integrations with internal IT systems and external services would occur via internet gateways.
