

PRESS RELEASE

HCL AXON Announces Successful “Go Live” of SAP ECC for Tianjin Tasly Sants Pharmaceutical Co. Ltd

Shanghai, China / Noida, India February 8, 2010 – HCL AXON, a division of HCL Technologies, the world’s largest services provider dedicated to SAP® solutions, today announced a successful “go live” of SAP ECC for Tianjin Tasly Sants Pharmaceuticals Co. Ltd, one of China’s largest pharmaceutical companies.

HCL’s SAP ECC deployment has helped Tianjin Tasly Sants enhance the time-to-value, improve project management and production planning, streamline their financial systems and increase transparency across their purchasing process. This robust solution framework designed to optimize Tianjin Tasly Sants’ business processes was localized in Chinese and implemented in an aggressive timeframe of seven months against the tightly regulated pharmaceutical environment in China which adheres to FDA, MHRA and global GMP standards for pharmaceutical manufacturing.

“As Tasly Sants needs to distribute its products to highly regulated markets, complete implementation of computer validation lifecycle becomes very important. This SAP implementation project could not have been successful without experienced professionals from HCL AXON and Tasly Sants working closely with each other from blueprint to go-live.” cited Belinda Chen, General Manager of Tianjin Tasly Sants Pharmaceutical Co., Ltd.

HCL’s SAP ECC system for Tasly includes modules in Finance and Control, Material Management, Sales and Distribution, Production Planning (Process Industries), Quality Management and Warehouse Management.

“This is truly an exciting and challenging engagement and we look forward to continuing our successful relationship with Tianjin Tasly Sants. The project is a testimonial of the growing advantages that companies can realize by leveraging SAP’s leading-edge pharmaceutical best practices. Strengthened by its domain experience in life science, HCL is committed to offer competitive integrated technology platform to help organizations optimize their business processes and achieve long-term growth goals.” said Richard Gu, Head of HCL Greater China, HCL Technologies.

HCL AXON guarantees timely realization of benefits to organizations implementing SAP through a proven Business Benefit Realization methodology. From monitoring and tracking the programme, it allows organizations to measure "Return on Investment", a key factor in justifying the business case.

Forward-looking Statements

Certain statements in this release are forward-looking statements, which involve a number of risks, uncertainties, assumptions and other factors that could cause actual results to differ materially from those in such forward-looking statements. All statements, other than statements of historical fact are statements that could be deemed forward looking statements, including but not limited to the statements containing the words 'planned', 'expects', 'believes', 'strategy', 'opportunity', 'anticipates', 'hopes' or other similar words. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding impact of pending regulatory proceedings, fluctuations in earnings, our ability to manage growth, intense competition in IT services, Business Process Outsourcing and consulting services including those factors which may affect our cost advantage, wage increases in India, customer acceptances of our services, products and fee structures, our ability to attract and retain highly skilled professionals, our ability to integrate acquired assets in a cost effective and timely manner, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, the success of our brand development efforts, liability for damages on our service contracts, the success of the companies / entities in which we have made strategic investments, withdrawal of governmental fiscal incentives, political instability, legal restrictions on raising capital or acquiring

companies outside India, and unauthorized use of our intellectual property, other risks, uncertainties and general economic conditions affecting our industry. There can be no assurance that the forward looking statements made herein will prove to be accurate, and issuance of such forward looking statements should not be regarded as a representation by the Company, or any other person, that the objective and plans of the Company will be achieved. All forward looking statements made herein are based on information presently available to the management of the Company and the Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.

SAP Forward Looking Statements

SAP Forward-looking Statement Any statements contained in this document that are not historical facts are forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. Words such as "anticipate," "believe," "estimate," "expect," "forecast," "intend," "may," "plan," "project," "predict," "should" and "will" and similar expressions as they relate to SAP are intended to identify such forward-looking statements. SAP undertakes no obligation to publicly update or revise any forward-looking statements. All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. The factors that could affect SAP's future financial results are discussed more fully in SAP's filings with the U.S. Securities and Exchange Commission ("SEC"), including SAP's most recent Annual Report on Form 20-F filed with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates.
