

HCLTech | Supercharging
Progress™

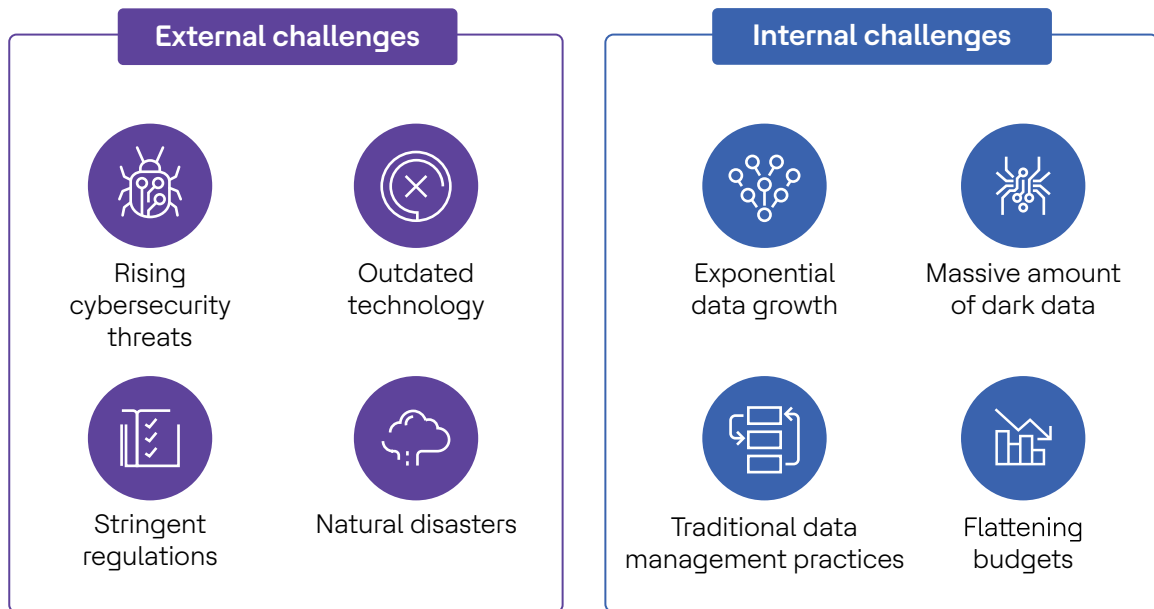

Infonomics

Enable a seamless and smart cloud data management, adoption and governance

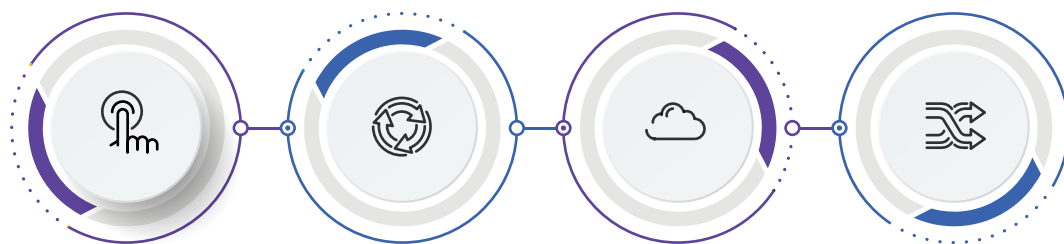

Overview

In the age of digitalization, organizations face the challenge of managing unprecedented data growth, both in terms of value and volume. Yet, creating customer value depends on how effectively organizations adopt smart data management practices.

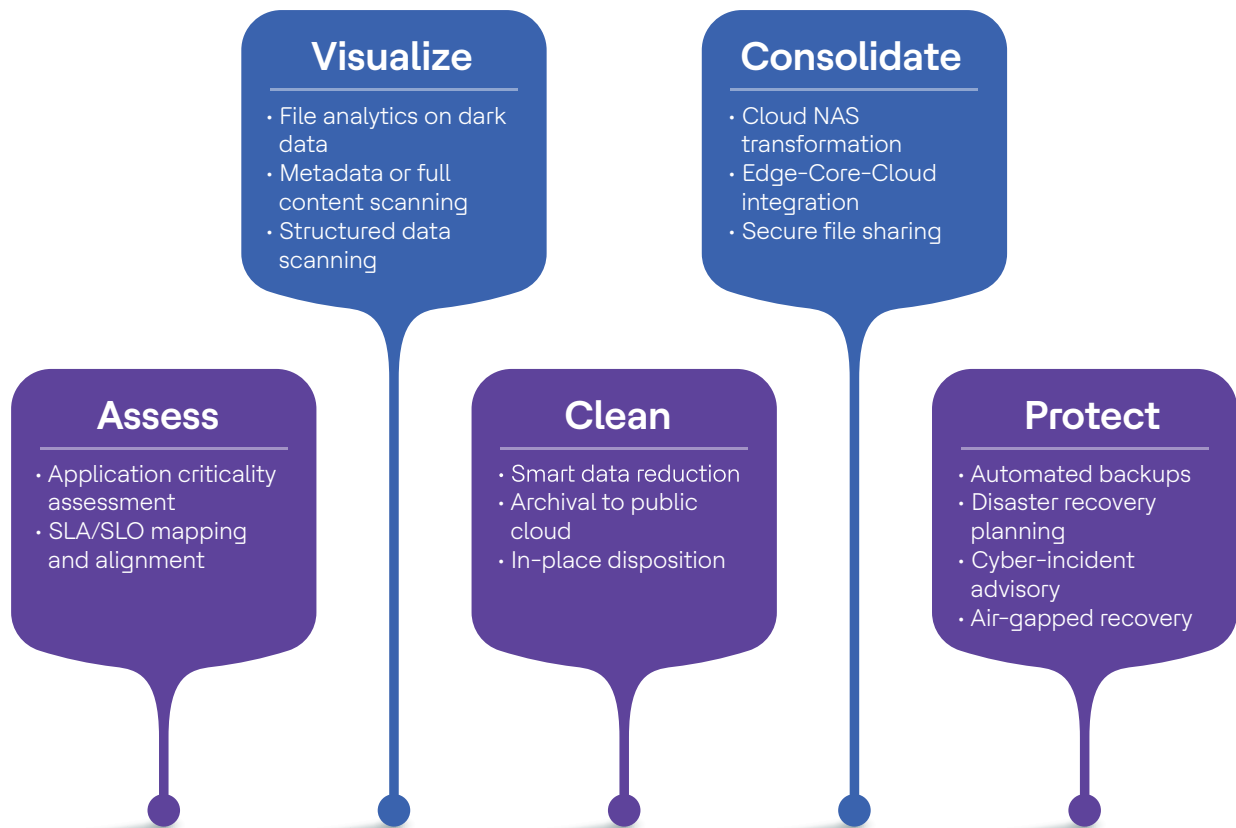

HCLTech Infonomics

Based on a Data Management-as-a-Service (DMaaS) model, HCLTech Infonomics offers an integrated information management approach to enterprises. **Some salient features include:**

The process

Infonomics offering suite

VisualizeNXT

Visualization-as-a-Service (VSaaS)

A service that offers rich insights into unstructured data with features such as:

- Dark data remediation
- File analytics support
- Integrated data classification
- Policy decision-making

BackupNXT

Backup-as-a-Service

A next-gen service for data protection across heterogeneous platforms hosted in datacenter, remote-sites, or cloud

- Workflow automation support
- Storage optimization levers
- WAN optimization
- Full-cloud integration
- Flexible consumption plans

ArchiveNXT

Archival-as-a-Service

A managed archival service powered by advanced file analytics which offers multitier data classification based on criticality and activity:

- File archival
- Database archival
- Application retirement

FileNXT

(Cloud File Storage-as-a-Service)

A next-gen enterprise cloud file services offering that caters to unstructured data consolidation leveraging public or private cloud:

- Traditional NAS replacement
- Public cloud file storage
- Multisite file sharing
- File locking

RecoverNXT

(Disaster Recovery-as-a-Service)

A fully automated DRaaS that supports near-zero data loss for workloads running on physical data centers or cloud

- DRaaS consulting
- Application-tiered data recovery
- DR in cloud
- DR automation

VaultNXT

(Cyber Recovery-as-a-Service)

A comprehensive consulting-led offering to proactively assess and remediate cyber-threats

- Cyber Recovery Vault-as-a-service
- AI/ML-based anomaly detection
- Immutable file system design
- Orchestrated recovery mechanism

Success stories

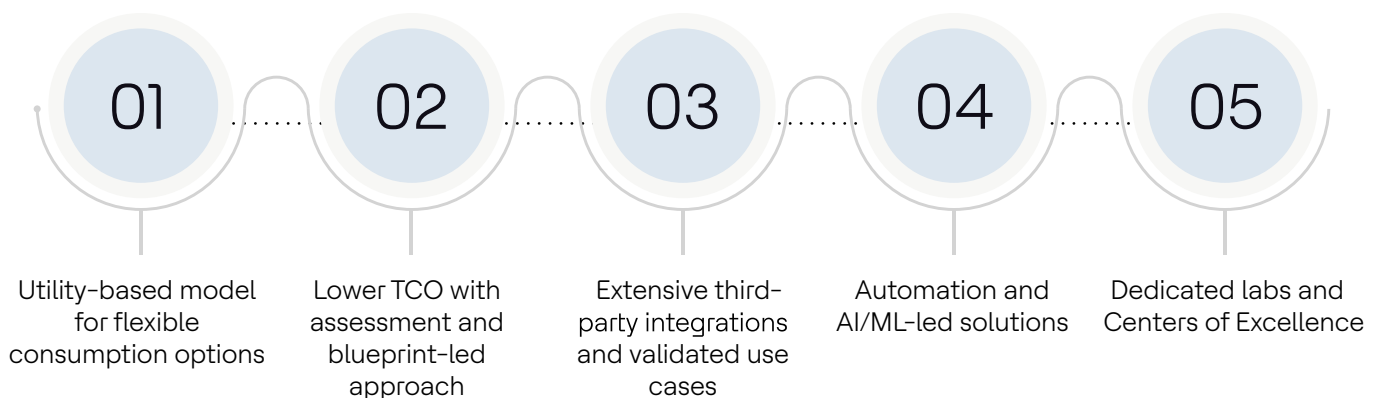

Case study 1: Impact delivered

- Reduced the total cost of ownership (TCO) by 35%
- Reduced the data center footprint per site by 40%
- Enabled the flexibility to scale up and ramp down

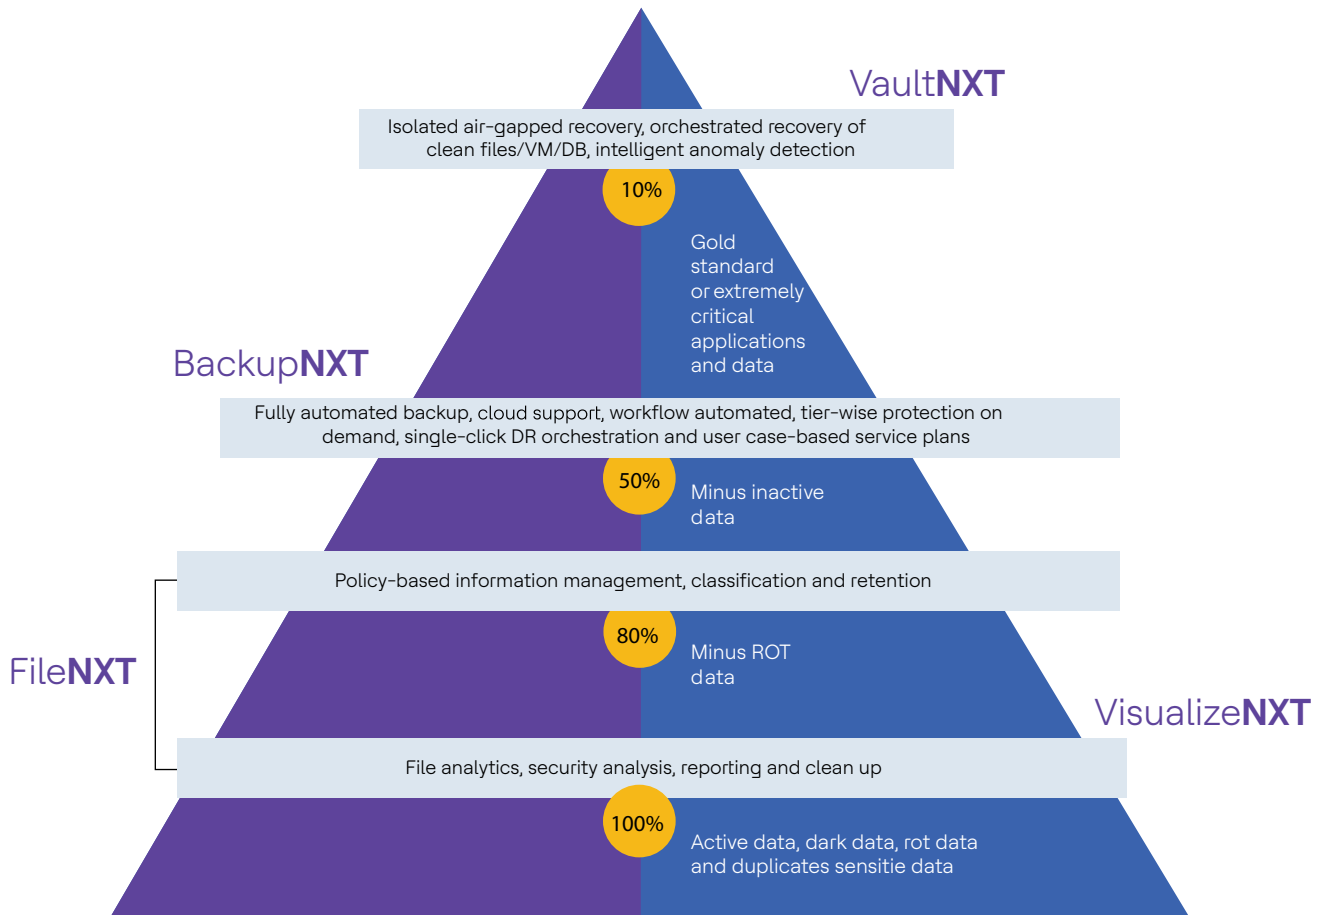

Case study 2: Impact delivered

- Enabled disk-based backup of up to 6x with inline deduplication
- Increased the virtualization for non-SAP workloads to 82%
- Enabled cross backup replication for high data protection and quicker data restoration

How are we different

The value proposition

Why HCLTech

- Extensive partnerships and coverage with market-leading OEMs and CSPs
- Leader in all analyst reports for Cloud (Forrester Wave, IDC, Everest Group, ISG, Avasant)
- Industry expertise in data management across verticals with over 5k+ trained and certified resources
- Offering across hybrid cloud and multicloud with inbuilt automation and analytics

Partner ecosystem
