

Infrastructure modernization solution

An agile approach to modernization

IT infrastructure is a key pillar of any customer's business. And today, applications and data need to be hosted and made available in more agile, secure and smarter ways. Customers can modernize infrastructure using open, trusted and collaborative cloud solutions and achieve up to ~40% efficiency at scale with HCLTech tools, accelerators and our cloud modernization factory. At HCLTech, we partner with Google Cloud to supercharge customer journeys to transform their applications and data environments, enabling businesses to scale and modernize their landscape.

Legacy platform challenges

- Less scalable and non-agile platform
- Decentralized operation and management
- Higher capex requirements
- Higher energy and real estate costs
- Complying with privacy regulations
- Meeting ever-changing customer, market and business demands

Our solution portfolio

CloudSMART

Strategic cloud consulting and integrated value stream-based assessments with **CloudSMART** to prioritize business benefits and TCO for customers

OneClick Foundation

Fully automated enterprise-grade landing zone for different types of app and data workloads with **OneClick Foundation**

OneClick Migration

Robust migration for re-host and re-platform workloads using automated CI/CD approach enabled by **OneClick Migrate** tool

Cloud Migration Factory

Industry proven Cloud Migration framework and methodology to **migrate** from traditional VMs to modernized compute platform on cloud with built-in resiliency and scalability

DR on Cloud

Optimal DR strategy that provides "on-demand DR" through **Google Cloud** to meet your different RPO and RTO for various applications

Modernize Databases

Database modernization framework to help customers move away from legacy to **open-source databases** and achieve significant cost savings

AIOps powered Cloud Operation enabled by Agile DevOps practices and SRE principles. Best practices focusing on Cloud Governance, security and compliance

Key differentiators

Dedicated Google Cloud ecosystem with Google 1st Motion and priority within HCLTech

70+ IPs, accelerators, frameworks and multiple templates for speedy migration delivery and modernization at scale

Center of excellence with dedicated solution architects for Infra, Data, App, AI, SAP, Workspace and Security

Cloud native labs in three regions for quick experimentation, proof of concept and solution validation

Ready-to-use patterns and commercially packaged models

Global scale factory delivery model for Cloud migration and modernization

Strong OEM partnerships with VMWare, NetApp and Intel

Launch partner for multiple Google services

Customer success stories across industry verticals

Why use HCLTech?

100%

Dedicated business units (Google Cloud Breakthrough Partner of the Year - 2019 and 2021)

18K+

Trained Google Cloud consultants

6.5K+

Certified Google Cloud consultants

100%

Expertise and specialization
