HCL Technologies Honors Global Goodwill Champions at the 2020 World Economic Forum in Davos

Wave Maker Awards commend leaders in diversity, education,
environment and innovation

Davos, Switzerland & Noida, India, January 24, 2020 - HCL Technologies (HCL), a leading global technology company, today presented its Wave Maker Awards 2020, commemorating global goodwill champions from around the world. The award ceremony, which was held at the HCL Pavilion in Davos, celebrated organizations and individuals passionately committed to such noble causes as diversity & inclusion, education & community upliftment, environment & sustainability, and technology for change. Special guest at the awards was Australian cricket legend Glenn McGrath, who is also founder of the McGrath Foundation, which provides support for Australian women diagnosed with breast cancer and their families.

The award recipients were; Lois Auta, Founder and Executive Director of Cedar Seed Foundation, which supports persons with disabilities to participate in all aspects of life; Chido Govera, Founder and Director of The Future of Hope Foundation (TFoHF), which supports marginal and vulnerable members of society through entrepreneurial and self-development initiatives; Mariana Luz, CEO of Maria Cecilia Souto Vidigal Foundation, which advocates for development and education opportunities for children in Brazil; Martin Burt, Founder and CEO of Fundación Paraguaya, a social enterprise that seeks to reduce poverty and unemployment throughout the world; Lauren Woodman, Chief Executive Officer of NetHope, which empowers committed organizations to change the world through the power of technology; Njideka U. Harry, President and CEO of Youth for Technology Foundation, an international education technology nonprofit; Asha de Vos, Founder and Executive Director of Oceanswell, which works to improve the health of the world's oceans through marine conservation research and advocacy; Kerstin Forsberg, Founder and Director of Planeta Océano, which works to conserve and restore coastal and marine environments; and Caroline Casey, Founder and Director of The Valuable 500, a global movement putting disability on the business leadership agenda.

Each award recipient was evaluated through the lens of HCL's values and chosen based on the positive influence and unique transformation made in their communities over the past year. In addition, the recipients were commended for bringing a level of entrepreneurship to their endeavors.

"HCL is committed to developing a better world for the future and advancing the ways that organizations harness innovation to improve lives and experiences for global citizens," said C. Vijayakumar, President & CEO, HCL Technologies. "This goal can best be achieved through lasting relationships and partnerships between like-minded organizations and visionary global leaders. Those recognized by our Wave Maker Awards are fantastic examples of the positive impact that goodwill champions are having on delivering the change that the world needs, and it is our great honor to recognize their achievements."

The awards fit into HCL's history of philanthropic endeavors and commitment to its core belief in touching lives in a positive way. In addition, the awards reflect the overarching theme of the HCL programs at WEF, which address how business leaders can support global, regional and national initiatives that generate positive environmental, social and economic impacts for all. HCL's 2030 Ecosystem Platform is enabling discussions between leading innovators and future leaders, around the convergence of innovation, human ingenuity and critical thinking to create sustainable, inclusive business models.

About HCL Technologies

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three business units - IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations and next generational digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering. Under P&P, HCL provides modernized software products to global clients for their technology and industry-specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences & Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability and education initiatives. As of 12 months ended December 31, 2019, HCL has a consolidated revenue of US\$ 9.7 billion and its 149,000 ideapreneurs operate out of 45 countries. For more information, visit www.hcltech.com

Forward-looking Statements

Certain statements in this release are forward-looking statements, which involve a number of risks, uncertainties, assumptions and other factors that could cause actual results to differ materially from those in such forward-looking statements. All statements, other than statements of historical fact are statements that could be deemed forward-looking statements, including but not limited to the statements containing the words 'planned', 'expects', 'believes', 'strategy', 'opportunity', 'anticipates', 'hopes' or other similar words. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding impact of pending regulatory proceedings, fluctuations in earnings, our ability to manage growth, intense competition in IT services, business process outsourcing and consulting services including those factors which may affect our cost advantage, wage increases in India, customer acceptances of our services, products and fee structures, our ability to attract and retain highly skilled professionals, our ability to integrate acquired assets in a cost-effective and timely manner, time and cost overruns on fixed-price, fixed-timeframe contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, the success of our brand development efforts, liability for damages on our service contracts, the success of the companies /entities in which we have made strategic investments, withdrawal of governmental fiscal incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property, other risks, uncertainties and general economic conditions affecting our industry. There can be no assurance that the forward-looking statements made herein will prove to be accurate, and issuance of such forward-looking statements should not be regarded as a representation by the Company, or any other person, that the objective and plans of the Company will be achieved. All forward-looking statements made herein are based on information presently available to the Management of the Company and the Company does not undertake to update any forward-looking statement that may be made from time to time by or on behalf of the Company.
