

Automate tax process with Client Tax Reporting

Comprehensive and fully integrated offshore tax reporting product for Avaloq banks

CONFINALE
Part of HCLTech

Developed in partnership with PwC and Avaloq, Client Tax Reporting enables Avaloq banks to automatically generate high quality country-specific tax statements for its offshore clients. The automatically generated tax statements contain all relevant information, such as income, profits and losses and asset holdings, in the appropriate format, which greatly simplifies the transfer of the information into the tax return.

Client Tax Reporting features
