

VMware Cloud

Scale digitally with VMware Cloud on AWS
Powered by VelocITy

Introduction

To thrive in today's complex business environment, global organizations are fast adopting hybrid cloud model. Enterprise customers are constantly looking for agile methodologies, outcome-oriented and experience-centric services to stay ahead of the technology curve, and hybrid cloud adoption is becoming the de facto norm.

HCLTech brings core capabilities for hybrid cloud implementation with an ecosystem of partners, standardized and validated blueprint-based offerings and hybrid cloud adoption solutions to enable business with agility through its managed services and established processes. VMware Cloud on AWS offers customers a unified environment to migrate, extend and manage their on-premises vSphere-based workloads to the public cloud rapidly and seamlessly.

Our solution

HCLTech VelocITy is an integrated hybrid cloud offering that helps enterprises to extend their on-premises environment to the public cloud. It delivers extensively tested software-driven data center-level blueprints for successful hybrid cloud deployments leveraging AWS, catering operational consistency and efficiency.

Features

VMC on AWS allows businesses to run their application workloads across VMware-based hybrid cloud infrastructure, extending optimized access to the comprehensive native AWS services while addressing data and cloud security, compliance and other challenges.

Simplified management

Seamless migration

DRaaS:
Robust disaster protection

Modernize applications using native AWS services

Auto scalability

Benefits

VMC on AWS offers a plethora of compelling business benefits for a customer to choose from:

Lean operations with seamless access to native AWS services

Leverage existing investments on skillsets and expertise of familiar VMware tools and technology

Business continuity with accelerated speed of DR operations

Ease of workload portability with enterprise-grade support

On-demand host capacity and flexible consumption

Success Stories

Migration to VMware Cloud on AWS for a leading American multinational cooperation

Migration to VMware Cloud on AWS (Oracle workloads) for a leading financial services company
