

End-to-End Data and Analytics Solutions

Restructure data management to accelerate digital transformation

Enterprises are in critical need for data restructuring support as

- 75% believe digital transformation will be a core corporate strategy within two years
- 81% are in the dark regarding the data needed for AI
- 85% are on their way to commit to a multi-cloud architecture
- Their growth is inhibited by data volumes and diversity, burdensome regulations, and monolithic legacy systems

With HCL Data Transformation and AI Applications, organizations can implement

IBM data and analytics

Private cloud analytics

Integrated microservices on cloud

Analytics capable data governance

Collaborative communication within the enterprise

A data-driven organizational culture

HCL's Cloud Pak for Data kicks off an agile process framework

Cloud agility in firewall security

Prescriptive analytics information architecture

AI ready data platform

Reliable and scalable private cloud

Proven cloud adoption frameworks

Key Service Offerings

- Easily manage and govern all your data in a secure and seamless manner
- Integrate AI within your Information Architecture to enable self-service analytics
- Transition from monolithic legacy to microservices model for increased agility and efficiency
- Enable compliance readiness to meet any regulatory requirements like GDPR

Key Outcomes

Open & secure multi-cloud structure

Smart data storage and distribution

Agile and transparent data operations

Unified database with greater efficiency

Reduced ETL and duplication

Accelerate innovative-driven transformations
