## **HCL Technologies Unveils New Global Delivery Center in Vancouver**

*New Center provides customers with next-generation products and solutions*

**VANCOUVER, CANADA and NOIDA, INDIA, June 23, 2022** – HCL Technologies (HCL), a leading global technology company, today announced the opening of its new delivery center in Vancouver, Canada. The new center will significantly expand its presence in the country to serve clients primarily in the HiTech industry. The new, nearly 9,000-square-foot facility will be a state-of-the-art center enabling faster and streamlined delivery of innovative technology services.

This announcement follows a broader wave of momentum in Canada for HCL Technologies as the company has opened new delivery centers in New Brunswick, Mississauga and Edmonton, and also welcomed its first cohort of the HCL Technologies Apprenticeship Program in Vancouver. The program, part of the company's early career and training program, gives high school graduates who do not have a formal college degree the ability to pursue a career in a fast-growing industry, with focus areas in software development and testing, digital and cloud services, infrastructure delivery and engineering.

HCL Technologies employs more than 2,000 people in Canada and is growing at a rapid pace. The new center will also feature a Customer Experience Center focused on the development of futuristic digital technologies and next-generation products and solutions for HCL Technologies' global customers, including full-stack engineering solutions, customer experience and R&D services across different industries.

"Vancouver has a long-standing culture of innovation in technology and we're excited to expand our presence and help bring new technologies into the region," said Joellen Jose, EVP & Country Head, Canada, HCL Technologies. "With this launch, HCL Technologies is further cementing itself as a local employer, and as a leader in emerging technologies building a strong foundation for the future."

"With this advanced facility, we will leverage our industry-leading digital engineering technology services and R&D capabilities to develop and deliver next-generation products and platforms for global customers," said Vijay Anand Guntur, President, Engineering and R&D Services, HCL Technologies. This facility will also foster better collaboration across the Vancouver technology and education ecosystem."

"This city has a reputation for major technological innovation and a highly sought-after talent pool feeding the broader tech industry," said Kennedy Stewart, Mayor, City of Vancouver. "We're incredibly proud to see industry leaders like HCL Technologies taking steps to further investment, foster innovation and unlock all the great potential that Vancouver has to offer businesses in the tech industry."

## About HCL Technologies

*HCL Technologies (HCL) empowers global enterprises with technology for the next decade, today. HCL's Mode 1-2-3 strategy, based on its deep-domain industry expertise, customer-centricity and entrepreneurial culture of Ideapreneurship™, enables businesses to transform into next-gen enterprises.*

*HCL offers its services and products through three business units: IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in the areas of applications, infrastructure, digital process operations and next generational digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering. P&P provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, categorized as Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences & Healthcare and Public Services.*

*As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability and education initiatives. For the 12 months ended March 31, 2022, HCL had consolidated revenue of US\$11.48 billion. Its nearly 209,000 ideapreneurs operate out of 52 countries.*
