

IDC MarketScape Recognizes HCL as a Leader for Worldwide Big Data Consulting and Systems Integration Services

Noida, India: 1st June 2016 – [HCL Technologies](#) (HCL), a leading global IT services company, has been recognized as a Leader for Worldwide Big Data Consulting and Systems Integration Services by IDC MarketScape in its report, [“IDC MarketScape: Worldwide Big Data Consulting and Systems Integration Services”](#). According to the report, buyers rate HCL highly for helping achieve desired business outcomes, handling changes in project scope, and offering flexible pricing models.

The report evaluated 13 Big Data C&SI services providers with broad portfolios spanning IDC's research coverage and mapped them against characteristics of each firm — as opposed to size or breadth of services. This evaluation is based on a comprehensive framework and set of parameters expected to be most conducive to success in providing Big Data C&SI services in both the short term and the long term. A significant component of this evaluation is the perception of Big Data C&SI services buyers, related to both key characteristics as well as capabilities of these providers. IDC MarketScape's criteria selection and weightings, represent well-researched IDC judgments about the market and vendors through structured discussions, surveys and interviews with market leaders, participant service providers and end users.

“HCL showcases great ability to understand clients' pain points and recommend and build suitable big data solutions to help achieve the desired business goals for its customers,” said **Ali Zaidi, Research Director for IT Consulting and Systems Integration Services at IDC.**

“This recognition further solidifies HCL's leadership in the Business Analytics, Systems Integration and Digital Transformation space. The comprehensive [Big Data Lake framework](#), a key element of the [21st Century Enterprise](#) architecture, drives business outcomes through innovation and rapid change. HCL provides end-to-end advisory, architecture, implementation, governance and support to modernize the applications and data fabrics of enterprises,” said **Vikram Duvvuri, Chief Technologist and Corporate Vice President, HCL Technologies.**

[HCL's business analytics services](#) provide a full-lifecycle big data framework, agile analytics methodology and digital transformation models to help clients realize business value and drive innovation. The framework incorporates comprehensive insights from various sources, including social media, [internet of things \(IoT\)](#) and machine-to-machine (M2M), to drive business outcomes.

About IDC MarketScape

IDC MarketScape vendor analysis model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position

within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360 degree assessment of the strengths and weaknesses of current and prospective vendors.
