## **HCL Technologies France S.A.S.**

Registered office: 22, rue de Caumartin - 75009 Paris

### **Statutory auditor's report on the financial statements**

For the year ended 31 March 2022

Dear Shareholder,

#### **Opinion**

In compliance with the engagement that you have entrusted with, we have audited the accompanying financial statements of HCL Technologies France S.A.S for the year ended 31<sup>st</sup> of March 2022.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the Company as at 31<sup>st</sup> of March 2022 and of the results of its operations for the year then ended in accordance with French accounting principles.

#### **Basis for Opinion**

##### ***Audit Framework***

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Statutory Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

### **Independence**

We conducted our audit engagement in compliance with independence requirements of the French Commercial Code (code de commerce) and the French Code of Ethics (code de déontologie) for statutory auditors for the period from 1<sup>st</sup> April 2021 to the date of our report.

### **Justification of Assessments**

Due to the global crisis related to the Covid-19 pandemic, the financial statements of this period have been prepared and audited under specific conditions. Indeed, this crisis and the exceptional measures taken in the context of the state of sanitary emergency have had numerous consequences for companies, particularly on their operations and their financing, and have led to greater uncertainties on their future prospects. Those measures, such as travel restrictions and remote working, have also had an impact on the companies' internal organization and the performance of the audits.

In accordance with the requirements of Articles L.823-9 and R.823-7 of the French Commercial Code (code de commerce) relating to the justification of our assessments, we inform you that the most important assessments made by us according to our professional judgement focused on the appropriateness of the accounting principles used, the reasonableness of significant estimates and the presentation of financial statements taken as a whole.

These assessments were made in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on specific items of the financial statements.

### **Specific Verifications**

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by laws and regulations.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report of the President and in the other documents with respect to the financial position and the financial statements provided to Shareholder.

We attest the fair presentation and the consistency with the financial statements of the information relating to payment deadlines mentioned in Article D.441-6 of the French Commercial Code (*Code de commerce*).

## **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with French accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The financial statements were approved by the President.

## **Statutory Auditor's Responsibilities for the Audit of the Financial Statements**

Our role is to issue a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L.823-10-1 of the French Commercial Code (code de commerce), our statutory audit does not include assurance on the viability of the Company or the quality of management of the affairs of the Company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit and furthermore:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements.
- Assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to

events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of his audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in the financial statements or, if such disclosures are not provided or inadequate, to modify the opinion expressed therein.

- Evaluates the overall presentation of the financial statements and assesses whether these statements represent the underlying transactions and events in a manner that achieves fair presentation.

Paris La Défense, on the 22nd of July 2022

The statutory auditor

## Significant events

### **Other significant items**

---

The event Covid-19 did not have a significant impact on the assets, financial situation and results of the company. Nevertheless, as it was still in progress at the date of preparation of the annual accounts, the company is unable to assess the precise consequences for future years.

At the date of closing the accounts, the company cannot yet measure the effects of the conflict in Ukraine at the end of February 2022. This applies in particular to the evolution of raw material costs and the impact of economic developments on the company's 2023 results.

## Accounting policies

Company name: SAS HCL TECHNOLOGIES FRANCE

Notes to the balance sheet before allocation for the financial year ended 31/03/2022, totalling 84 108 610 euros and to the income statement for the financial year, presented as a list, showing a profit of 4 069 836 euros.

The financial year is of 12 months, covering the period 01/04/2021 to 31/03/2022.

The notes and tables below are an integral part of the financial statements.

The financial statements have been prepared by the management of the entity.

### Accounting policies

---

The financial statements for the year ended 31/03/2022 have been prepared in accordance with the regulations of the French Accounting Standards Authority no. 2016-07 dated 26 December 2016 , and updated by subsequent rules.

The financial statements have been prepared in line with the principle of prudence and in compliance with the basis assumptions:

- going concern,
- consistency of accounting methods from one year to the next,
- independence of financial years.

and in accordance with the general rules for the preparation and presentation of the financial statements.

The valuation method used is the historical costs method.

Only material information is presented. Amounts are in euros unless otherwise indicated.

### Tangible and intangible assets

---

Tangible and intangible assets have been evaluated at their acquisition cost for assets which have been purchased, at their production cost for assets produced by the company, and at their market value for assets which have been traded or given for free.

The cost of a fixed asset consists of its purchase price, including customs duties and non-refundable taxes, after deduction of discounts, commercial rebates and cash discounts, including all directly attributable costs incurred in the installation and commissioning of the asset in accordance with its intended use. Transfer duties, fees or commissions and legal expenses related to the acquisition, are not included in the acquisition cost. The costs that are not included in the fixed asset acquisition price and installation costs are recognised as expenses.

### Depreciation

Depreciation charges are calculated on a straight-line basis over the expected life of the asset.

- \* Concessions, software, and patents: 3 years linear
- \* General fixtures and fittings: 6 to 10 years
- \* Office equipment: 4 to 5 years
- \* IT equipment: 4 to 5 years
- \* Furniture: 7 years
- \* Air conditioner : 10 years
- \* Plant and Machinery : 10 years

For simplification, the depreciation period applied is the useful life for non-decomposable assets.

The company has estimated, at year closing, the existence of indicators showing that assets may have lost significant value, considering internal and external information available.

---

## Accounting policies

### Goodwill

---

Goodwill is composed of the acquisition of securities.

Goodwill is used for the maintenance and development of the company's potential activity. These funds are considered as unlimited in their duration of use. In accordance with regulation ANC N°2015-06, they are not amortized, however, depreciation tests are carried out on an annual basis.

An amortization of goodwill is performed as required, in order to bring the goodwill value in line with both the lowest carrying value and the fair value.

Given the existing synergies between the acquired assets and the company's initial activities and the fungible nature of the assets concerned, the valuation of the business assets is global at the level of HCL Technologies France.

The value in use of the goodwill was tested by comparing the company's capital employed with its estimated enterprise value based on discounted future cash flows.

### Inventory

---

The acquisition costs of inventories include the purchase price, customs duties, and other taxes, excluding recoverable taxes, as well as transport, handling, and other costs directly attributable to the production cost of raw materials, goods, work in progress and finished products. Commercial rebates, reductions, cash discounts and other similar items are deducted from the acquisition costs.

Inventories are valued using the method of first in, first out. For convenience and excepting significant disparity, the last known purchase price was used.

A provision for inventory depreciation is booked, equal to the difference between the gross value determined using the methods described above and the price on the day or the realisable value less the proportional sales costs, if this gross value is greater than the other amount

### Receivables

---

Receivables are measured at their nominal value. Loss in value allowance is applied if the net realizable value is less than the book value.

### Provisions

---

Provisions are booked for any current company obligations resulting from past events involving third parties that may be estimated on a sufficiently reliable basis and cover identified risks.

### Foreign currency transactions

---

If an asset is purchased in a foreign currency, the conversion rate used is the exchange rate on the entry date or, where appropriate, the hedge exchange rate if the hedge was entered into before the transaction. The expenses incurred to set up hedges are also included in the acquisition cost.

Payables, receivables, cash, and cash equivalents in foreign currencies are recorded in the balance sheet at their equivalent value at the year-end exchange rate. The difference resulting from the discounting accounts payable and receivable in foreign currencies at this exchange rate is recognised in the balance sheet as an unrealised foreign exchange gain or loss.

Unrealised foreign exchange losses that are not compensated are covered by a provision for risks, for the total amount, in accordance with French accounting rules.

## Accounting policies

### Retirement benefits

---

The collective bargaining agreement of the company provides for retirement indemnities. A special agreement was not signed.

The corresponding commitments are fully mentioned in this appendix.

The retirement indemnity benefit is determined by applying a method based on projected end-of career salaries at retirement, employee turnover rate, life expectancy, and discounting assumptions on the expected payments.

The following actuarial assumptions are made:

- Discount rate: AA RATING EUR REPS CREDIT CURVE
- Wage increase rate: 3,2 %
- Retirement age: between 65 and 67 years old, according to the starting date of first job
- Staff turnover rate: 8,28 %
- Mortality rate table: table INSEE TD 2017-2019
- Social charges rate: 47,93%

### Exchange profits and losses

---

The currency exchange income can be booked either in operational income or financial income depending on the operations which generated it. Thus, profits and losses on exchange rate variations of commercial receivables and liabilities will be booked as operational income. Exchange rate risk on these elements are in fact linked to operational activity in the same way as, for example, depreciations on commercial receivables already booked as operational income.

For this purpose, a sub-account of the 65 category "other daily management expenses" and its equivalent in the 75 category are created.

The items "profits and losses on exchange" appearing in financial income are dedicated to operations having financial characteristics (foreign currency loans, foreign currency cash ...).

Specificities related to the presentation of exchange profits and losses are mentioned in articles 946-65, 946-66, 947-75, 947-76 of the ANC rules n°2014-03.

	31/03/2022
Export	45 527 497
France	103 886 832
<b>TOTAL</b>	<b>149 414 329</b>

Turnover is recognized as follows:

- The provision of consulting and outsourcing services on the basis of "time and resources": projects invoiced on an hourly basis and the resources applied for carrying them out. Billing is based on hours reported by engineers assigned to the project.
- The provision of services on a "set price" basis: recognition of turnover based on contractually preestablished projects' steps. Client's confirmation leads to invoicing and to revenue recognition.

**Income and corporate income tax****Breakdown of income tax**

	Pre-tax income	Related tax	Income after tax
+ Recurring income	6 442 871	1 530 722	4 912 149
