Notes to financial statements for the year ended 31 December 2022 (All amounts in hundreds except share data and as stated otherwise)

Corporate information

Brilliant Data LLC was incorporated on 22 August 2016 in USA. It is currently the fully owned subsidiary of Starschema INC US and ultimately controlled by HCL Technologies Limited, which is incorporated in India. Brilliant Data was acquired by the Starschema Group in November 2018. Brilliant Data supports (together with Starschema INC US) the North American expansion of the Starschema Group.

Brilliant Data and Starschema INC US are registered under one the same tax number at the Internal Revenue Service of the United States federal government.

Brilliant Data provides similar services as Starschema Inc.

1 Summary of significant accounting policies

a) Basis of preparation

The financial report has been prepared in accordance with IND AS format with reduced Disclosure Requirements

The financial report has been prepared on an accrual basis of accounting including the historical cost convention and the going concern assumption.

b) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank

c) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less an allowance for impairment. Trade receivables are non-interest bearing and are generally due for settlement in range from 30 to 120 days.

d) Revenue recognition

Revenue from contracts with customers is recognised when the control of goods or services is transferred to the customers, at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to be that which the Company will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

e) Trade and other payables

Trade and other payables are carried at amortized cost and due to their short-term nature they are not discounted. They represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. These amounts are unsecured and non-interest bearing and are generally paid for settlement in range from 30 to 120 days.

Notes to financial statements for the year ended 31 December 2022 (All amounts in hundreds except share data and as stated otherwise)

f) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

Notes to financial statements for the year ended 31 December 2022 (All amounts in hundreds except share data and as stated otherwise)
