We have audited the accompanying financial statements of PT HCL Technologies Indonesia, which comprise the statement of financial position as of March 31, 2019, and the statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on such financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

PT HCL TECHNOLOGIES INDONESIA
NOTES TO THE FINANCIAL STATEMENTS
As of March 31, 2019 and for the year then ended
(Expressed in Rupiah, unless otherwise stated)

1. GENERAL

PT HCL Technologies Indonesia (the "Company") established based on the Notarial Deed of Humbert Lie S.H., S.E., Mkn. No 205 dated July 28, 2010. The Company's articles of incorporation were approved by the Minister of Justice and Human Rights of the Republic of Indonesia in his Decision Letter No. AHU-10.AH.02.02-Tahun 2010 dated February 9, 2010.

The Company's articles of incorporation amendment was made based upon Notarial Deed No. 10 dated November 22, 2011 of Ety Roswitha Moelia S.H., Notary in Jakarta, concerning the increase in authorized capital and changes of the Company's financial year from January 1 up to December 31 into July 1 up to June 30, which has been approved by the Minister of Justice and Human Rights of the Republic of Indonesia in his Decision Letter No. AHU-00993.AH.01.02.Tahun 2012 dated January 6, 2012. The Company has obtained approval from the Director General of Taxes to changes its financial year/fiscal year from January 1 up to December 31, into July 1 up to June 30, in its decision letter No. KEP-00003/THBK/WPJ.04/KP.0403/2012 dated December 5, 2012. The change is effective starting from financial year/fiscal year 2012.

On April 14, 2016, the Company has obtained approval from the Director General of Taxes to change its financial year/fiscal year from July 1 up to June 30, into April 1 to March 30, in its decision letter No. KEP-377/WPJ.30/2016. The change is effective from the financial year/fiscal year 2016.

The Company is domiciled at One Pacific Place Building 15th floor SCBD, Jl. Jend. Sudirman Kav. 52-53, South Jakarta. The Company commenced its commercial operation in June 2011.

In accordance with Article 3 of the articles of incorporation, the Company is engaged in software and business process outsourcing services. Total employees as of March 31, 2019 and 2018 are 34 and 20 people, respectively (unaudited).

Based on the Extraordinary General Shareholders' Meeting notarized by Notary Public Ny. Ety Roswitha Moelia, S.H. under the deed No. 6 dated February 26, 2014, the Company's shareholders approved the change of the Company's Commissioners and Directors. The change has been approved by the Minister of Justice and Human Rights of the Republic of Indonesia in his Decision Letter No. AHU-AH.01.10-11400 dated March 17, 2014.

The members of the Company's Board of Commissioner and Board of Directors as of March 31, 2019 and 2018 are as follows:

Commissioner	: Mr. Sundharam Sridharan
President Director	: Mr. Prahlad Rai Bansal
Directors	: Mr. Manish Anand
	: Mr. Nalin Mittal

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies adopted by the Company, which affects the determination of its financial position and results of its operations, is presented below.

a. Basis Preparation of the Financial Statements

The Company's financial statements have been prepared in accordance with Indonesian Financial Accounting Standards. The financial statements have been prepared under the historical cost concept and using the accrual basis, unless otherwise stated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

a. Basis Preparation of the Financial Statements (continued)

The statement of cash flows is prepared based on the indirect method by classifying cash flows on the basis of operating, investing and financing activities. For the purpose of the cash flow statement, cash and cash equivalents include cash in banks and time deposits with a maturity period of 3 months or less, as long as these time deposits are not pledged as collateral for borrowings nor restricted.

Except as described below, the accounting policies applied are consistent with those of the annual financial statements as of March 31, 2018, which conform to the Indonesian Financial Accounting Standards.

In order to provide further understanding of the financial performance of the Company, due to the significance of their nature or amount, several items of income or expense have been shown separately.

The preparation of financial statements in conformity with Indonesian Financial Accounting Standards requires the use of certain critical accounting estimate. It also requires management to exercises its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2n.

Changes to the Statements of Financial Accounting Standards and Interpretations of Statement of Financial Accounting Standards

The adoption of these new amended standards and interpretations that are effective beginning January 1, 2018 did not result in substantial changes to the Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

- Amendment to PSAK No. 2: Statement of Cash Flow - Disclosures Initiative;
- Amendment to PSAK No. 46: Income Taxes - Recognition of Deferred Tax Assets for Unrealized Loss

New standards and interpretations issued and effective for the financial year beginning on or after January 1, 2018 are as follows:

- Amendment to PSAK No.13: Investment Property – Transfers of Investment Property;
- Amendment to PSAK No. 24: Employee Benefit;
- Amendment to PSAK No. 53: Classification and Measurement of Share-based Payment Transactions;
- Amendment and Improvement to PSAK No 15: Investment in Associates and Joint Ventures;
- Improvement to PSAK No. 67: Disclosure of Interests in Other Entities;

New standards, amendments and interpretations issued but effective for the financial year beginning January 1, 2019 are as follows :

- ISAK No. 33: Foreign Currency Transaction and Advance Consideration;
- ISAK No. 34: Uncertainty Over Income Tax Treatments

New standards and amendment effective for the financial year beginning January 1, 2020 are as follows:

- Amendment to PSAK No. 71: Financial Instruments;
- PSAK No. 72: Revenue from Contracts with Customers;
- PSAK No. 73: Leases

As at the authorization date of these financial statements, the Company is still evaluating the potential impact of these new and revised standards.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Foreign Currency Transactions and Balances

(i) Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the entity operates (the "functional currencies").

The financial statements are presented in Rupiah, which is the functional and presentation currency of the Company.

(ii) Transaction and balances

Foreign currency transactions are translated into Rupiah using the exchange rates prevailing at the dates of the transactions. At each reporting date, monetary assets and liabilities denominated in foreign currencies are translated into Rupiah using the management closing exchange rate. Exchange rate used as benchmark is the rate which is issued by the group of the Company. Foreign exchange gain and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in statement of profit or loss and other comprehensive income.

c. Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposit held on call with banks and other short-term highly liquid investments with original maturities of three months or less.

d. Trade Receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment. A provision for impairment of trade receivables are established when there is objective evidence that the Company will not be able to collect all amounts due according to the original term of the receivables. Significant financial difficulties of the debtor, the probability that the debtor will enter bankruptcy of financial reorganization, and default or delinquency is impaired.

The amount of the provision is the differences between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an income.

When trade receivables are uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against the statement of profit or loss and other comprehensive income.

e. Inventories

Inventories are valued at the lower of the cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Cost procured for specific projects is assigned by specific identification of individual costs of each item. Cost is determined using the weighted average cost formula.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e. Inventories (continued)

Provision for obsolete and slow moving inventory is determined on the basis of estimated future usage or sale of individual inventory items.

f. Fixed Assets

The cost of an asset comprises its purchase price and any cost directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent expenditures such as replacement and major inspection are added to the carrying amount of the asset when it is probable that future economic benefits will flow to the Company and the cost of the item can be measured reliably. The carrying amount of those parts that are replaced or any remaining carrying amounts of the cost of the previous inspection is derecognized. The costs of day-to-day servicing of an asset are recognized as an expense in the period in which they are incurred.

Depreciation is recognized on a straight-line basis to write down the depreciable amount of fixed asset to reduce value of depreciated fixed assets. The estimated useful lives of the assets, are as follows:

	Year
Plant and machinery	10
Office equipment	5
Computer	4 and 5
Laptop	3 and 4

The residual values, useful lives and depreciation method are reviewed at each financial position date to ensure that such residual values, useful lives and depreciation method are consistent with the expected pattern of economic benefits from those assets.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

When an asset is disposed of or when no future economic benefits are expected from its use or disposal, the cost and accumulated depreciation and accumulated impairment losses, if any, are removed from the accounts. Any resulting gain or loss from de-recognition of an item of fixed asset is included in the statement of profit or loss and other comprehensive income.

The Company chose to adopt the cost model; accordingly, the Company's fixed asset, are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

g. Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost. Any difference between the proceeds (net of transaction cost) and the redemption value is recognized in the statement of profit or loss and other comprehensive income over the period of the borrowings using the effective interest rate method.

Borrowings are classified as current liabilities unless the Company has unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

h. Revenue and Expense Recognition

The Company adopted PSAK No. 23 (Improvement 2014), "Revenue". This PSAK identifies the circumstances in which the criteria on revenue recognition will be met and, therefore revenue may be recognized, and prescribes the accounting treatment of revenue arising from certain types of transactions and events, and also provides practical guidance on the application of the criteria on revenue recognition.

Revenue from material contracts is recognized as related services are performed.

Revenue from fixed price and fixed time frame contracts is recognized in accordance with the percentage of completion method under which the sales value of performance.

Revenue from sale of licenses for the use of software applications is recognized when title in the user license are transfer.

Revenue from annual technical service contracts is recognized on a pro rata basis over the period in which such services are rendered.

Income from revenue sharing agreements is recognized when the right to receive is established.

Expenses are recognized when they are incurred (accrual method).

i. Income Tax

The tax expense comprises current and deferred tax. Tax is recognized in the statement of profit or loss and other comprehensive income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the balance sheet approach method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates that have been enacted or substantially enacted as at reporting period and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that is probable that future taxable profit will be available against which the temporary differences can be utilised.

Amendments to tax obligations are recorded when an assessment is received or, if appealed against by the Company, when the result of the appeal is determined.

j. Transactions with Related Parties

The Company enter into transactions with related parties. In the financial statements, the term related parties are used as defined in the PSAK No. 7 (Improvement 2015) regarding with "Related Party Disclosures".

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Transactions with Related Parties (continued)

The nature of transactions and balances of accounts with related parties, whether or not transacted on normal terms and conditions similar to those with non-related parties, are disclosed in the notes to the financial statements.

k. Financial Assets and Liabilities

Financial Assets

The Company classifies its financial assets in the following categories: (i) financial assets at fair value through profit or loss, (ii) loans and receivables, (iii) held-to-maturity investments, or (iv) available-for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets classified as held for trading. A financial asset is classified as held for trading if it is acquired principally for the purpose of selling or repurchasing it in the near term and for which there is evidence of a recent actual pattern of short term profit taking.

As of March 31, 2019 and 2018, there are no financial assets categorized as held for trading.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are initially recognized at fair value plus transaction costs and subsequently measured at amortized cost using the effective interest rate method. The Company's loans and receivables comprise of cash and cash equivalents, trade receivables, unbilled receivables, other receivables, and security deposits in the statement of financial position.

(iii) Held to maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Management has the positive intention and ability to hold to maturity, other than:

- a) Those that the Company upon initial recognition designates as at fair value through profit or loss;
- b) Those that the Company designates as available for sale; and
- c) Those that meet the definition of loans and receivables.

As of March 31, 2019 and 2018, there are no financial assets categorized as held to maturity investments.

(iv) Available for sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of within 12 months of the end of the reporting period.

As of March 31, 2019 and 2018, there are no financial assets categorized as available-for-sale financial assets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

k. Financial Assets and Liabilities (continued)

Financial Liabilities

The Company classifies its financial liabilities into the following categories (i) financial liabilities at fair value through profit or loss and (ii) financial liabilities measured at amortized cost.

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss are financial liabilities classified as held for trading. A financial liability is classified as held for trading if it is acquired principally for the purpose of selling or repurchasing it in the near term and for which there is evidence of a recent actual pattern of short term profit taking.

As of March 31, 2019 and 2018, there are no financial liabilities categorized as held for trading.

(ii) Financial liabilities measured at amortized cost

Financial liabilities that are not classified as fair value through profit or loss fall into this category and are measured at amortized cost. Financial liabilities measured at amortized cost are trade and other payables, accrued expenses, and short term loans in the statement of financial position.

l. Post-Employment Benefit

The Company provides defined post-employment benefits to its employees in accordance with Labor Law No. 13 / 2003. No funding has been made to this defined benefit plan.

According to PSAK No. 24 (improvement 2016), the liability recognized in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets (if any). The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Government bond that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions charged or credited to equity in other comprehensive income in the period which they arise.

Past-service costs are recognized immediately in profit or loss.

Gains or losses on the curtailment or settlement of a defined benefit plan are recognized in profit or loss when the curtailment or settlement occurs.

m. Identification and Measurement of Impairment

Non-financial assets

PSAK No. 48 (Revised 2014), "Impairment of Assets" prescribes the procedures to be employed by an entity to ensure that its assets are carried at no more than the recoverable amount. An asset is carried at more than its recoverable amount if its carrying amount exceeds the amount to be recovered through use or sale of the asset. If this is the case, the asset is described as impaired and this PSAK requires the entity to recognize an impairment loss. This PSAK also specifies when an entity should reverse an impairment loss and prescribes disclosures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Identification and Measurement of Impairment (continued)

Non-financial assets (continued)

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. Recoverable amount is immediately recognized in profit or loss, but not in excess of any accumulated impairment loss previously recognized.

Financial assets

At each reporting date, the Company assesses whether there is objective evidence that the Company's financial assets are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the financial assets, and that the loss event has an impact on the future cash flows on the financial assets that can be estimated reliably.

n. Significant Accounting Judgements, Estimates and Assumptions

The preparation of financial statements requires the management to use estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions as they occur.

The following judgments, estimates and assumptions made by management in the process of applying the Company's accounting policies are those most likely to significant effects on the amounts recognized in the financial statements:

Liability for post-employment benefits

The determination of the Company's liabilities and cost for pension and employee benefits liabilities is dependent on its selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rates, annual salary increase rate, annual employee turn over rate, disability rate, retirement age and mortality rate.

While the Company believes that its assumptions are reasonable and appropriate, significant differences in the Company's actual results or significant changes in the Company's assumptions may materially affect its employee benefit liability and expense.

The carrying amounts of the Company's estimated liabilities for employment benefits as of March 31, 2019 and 2018 are Rp 806,198,271 and Rp 466,525,993, respectively. Further details are discussed in Note 14.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Significant Accounting Judgements, Estimates and Assumptions (continued)

Determining the depreciation method and estimated useful lives of fixed assets

The costs of fixed assets is depreciated using the straight line method based on the estimation of the economic useful lives of the assets. Management estimates economic useful lives of fixed assets to be between 3 to 10 years. These are common lives expectancies applied in the industries where the Company conducts its business. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, and therefore future depreciation charge could be revised. Book value of the Company's fixed assets as of March 31, 2019 and 2018 are Rp 459,075,252 and Rp 615,628,721, respectively. Further details are disclosed in Note 8.

Income Tax

The Company has exposure to income taxes. Significant judgement is involved in determining the provision for income tax. There are certain transactions and computation for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for expected income tax issues based on estimates of whether additional income tax will be due.

Where the final tax outcome of these matters is different from the amounts that were initially recognized, such differences will impact the current income tax and deferred tax provisions in the period in which such determination is made.

Classification of financial assets and liabilities

The Company determines the classification of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Company's accounting policies as disclosed in Note 2k.

Determination of functional currency

The factors considered in determining the functional currency of the Company include, among others, the currency:

- that mainly influences sales prices for goods and services;
- of the country whose competitive forces and regulations mainly determine the sales prices of its goods and services;
- that mainly influences labor, material and other costs of providing goods or services;
- in which funds from financing activities are generated; and
- in which receipts from operating activities are usually retained.

3. CASH AND CASH EQUIVALENTS

	2019	2018
Cash in banks:		
Citibank Indonesia		
Rupiah	18,945,407,722	12,853,224,789
USD (US\$ 65,404 in 2019 and		
US\$ 20,749 in 2018)	931,545,896	284,836,369
PT Bank Mandiri (Persero), Tbk.		
Rupiah	1,334,835,288	8,210,936
Total	21,211,788,906	13,146,272,094

Cash in bank generally earn interest at rates based on daily bank deposit rates.

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Risk management is integral to the whole business of the Company. The Company has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company has exposure to the followong risks from its use of financial instruments:

Liquidity Risk

The Company monitors its liquidity risk and maintains a level of cash deemed adequate by management to finance the Company's operations and to mitigate the effects of fluctuations in cashflows.

The Company's trade and other payables, accrued expenses and short term loans are due within one year from the statement of financial position date.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Company has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Cash is placed with reputable banks. The maximum exposure to credit risk is represented by the carrying amount of each financial asset as indicated in the statement of financial position.

The maximum exposure to credit risk as of March 31, 2019 and 2018 are as follows:

	2019	2018
Cash and cash equivalents	21,211,788,906	13,146,272,094
Trade receivables	28,028,784,306	22,103,280,489
Unbilled receivables	5,858,430,796	252,417,957
Other receivables	729,072,293	542,249,865
Security deposits	61,921,816	90,007,376
Total	55,889,998,117	36,134,227,781

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties.

Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Foreign Exchange Risk

Risk of exchange rate against foreign currencies is a risk of fair value or future cash flows of financial instruments fluctuate due to changes in foreign currency exchange rates. Severity of risk is the risk tolerance value which is quite dominant.

At this risk, the Company does not manage the impact of risk. The Company is optimistic that domestic economic conditions will continue to improve to incline with appreciated Rupiah.

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Fair value risk

The fair value of the financial assets and liabilities are included at the amount at which instrument could be exchanged in a current transaction between willing parties, other than in a forced liquidation or sale. The carrying amounts of trade, unbilled and other receivables, cash and cash equivalents, security deposits, trade and other payables, accrued expenses and short term loans approximate their fair values due to their short-term nature.

Capital management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholders' value. The Company manages its capital structure and makes alignment to it, in light of changes in economic conditions. There were no changes in the Company's approach to capital management during the year.

24. NET DEBT RECONCILIATION

	2018	Cash flows	Non-cash transaction		2019
			Acquisition	Movement forex	
Short-term loans	11,668,800,000	(5,818,000,000)	-	558,550,000	6,409,350,000

25. PREPARATION AND COMPLETION OF THE FINANCIAL STATEMENTS

The Company's managements are responsible for the content and preparation of these financial statements that were completed and authorized to be issued by the Board of Director on June 27, 2019.
