HCL's S/4HANA Factory+

Accelerate your SAP S/4HANA conversion

Do you need a cost-effective, low-risk way to start your SAP S/4HANA journey?

When it comes to ERP, organizations today are presented with multiple challenges and opportunities.

Many companies have made significant investments in implementing and rolling out SAP ECC-based solutions globally with harmonized and integrated processes. While still an important prerequisite, SAP tools alone are no longer enough to maintain a competitive advantage. **Today's businesses need the agility, scale, access to real-time analytics, and innovation that digital platforms can bring, to become intelligent enterprises.**

Converting your ECC system to SAP S/4HANA presents new opportunities to re-architect your solution landscape, transform your Core ERP to a future-ready digital platform, and gain the infrastructure agility that comes with a move to cloud.

But if your organization is facing shrinking IT and ERP budgets, how can you make the move at the lowest cost and risk, with rapid speed and minimal disruption to business operations?

SAP® Qualified
Partner-Packaged Solution

HCL's S/4HANA Factory⁺

Quickly lay the foundation for future innovation

HCL's S/4HANA Factory+ incorporates building blocks across people, process, and technology to provide an industrialized and accelerated approach for your migration to SAP S/4HANA- laying the foundation for further agile business transformation.

We provide:

- Simplification experts
- Automated code remediation
- Automated data transformation

on premises or on a cloud platform — in a single step. The result is a "lights out" SAP S/4HANA move, a cost-optimized, reduced-risk migration using a combination of automation and highly qualified resources who engage when needed.

The base offering can also be supplemented with additional services based on your needs, for example, services in business partner conversion, prerequisite upgrades, additional Fiori activations, or integration with other applications.

HCL's BRIDGES4HANA S/4HANA Factory⁺ toolchain

HCL has also built a set of SAP S/4HANA move tools, BRIDGES4HANA, that extend the standard SAP toolsets by filling in white spaces— but do not directly replace the standard SAP tooling.
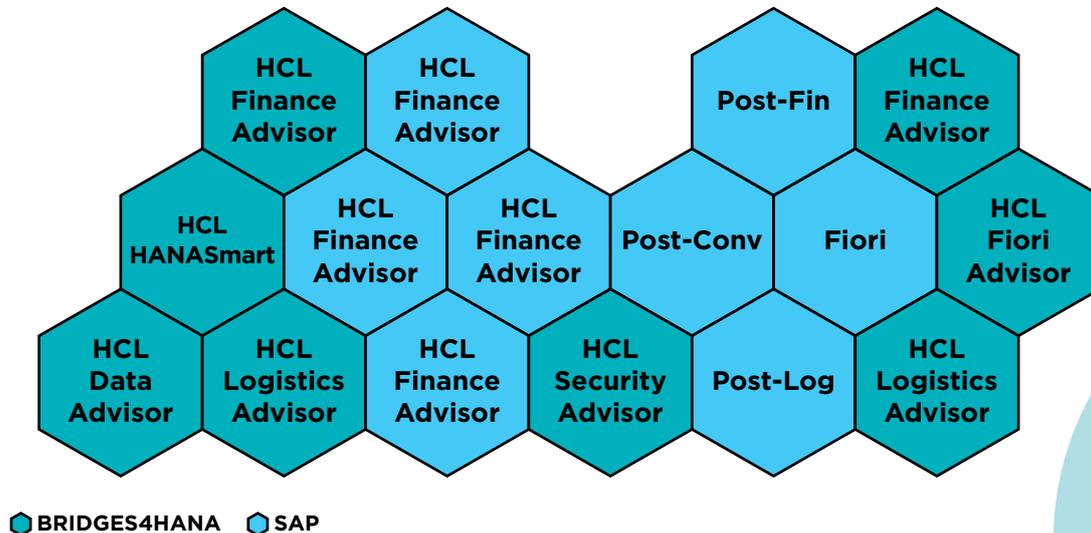

The following image provides a view of how we use a combination of SAP and HCL's BRIDGES4HANA tooling to support the factory conversion.

Why HCL?

- **Global presence and investment in factory infrastructure** - HCL is a global organization with significant experience of delivering over 1500+ SAP projects. Our S/4HANA conversion factory is based in Noida and Lucknow in India and is supported by local project teams. This provides the best resource mix to deliver low-risk accelerated migrations at optimal cost.

- **BRIDGE S4HANA Factory Model Toolchain**- We leverage our automated tools and other accelerators to deliver accelerated conversions. Our tooling includes:

  - HCL **HANASmart™** for custom code analysis and disposition

  - HCL **Conversion Cockpit**, a Fiori-based application, which provides a single central cockpit to perform the conversion

  - HCL **Advisors** in Fiori, Data, ABAP, and functional areas like logistics/finance, is a central, automated tool for performing manual conversion tasks within those respective areas of operations

  - **Factory Management Tools** – Factory Operations Control Center, Progress Monitoring, and Workforce Management using Jira.

- **Packaged offering tailored to your needs-** We provide pre-defined packages as a starting point for our offering, and tailor the relevant package to our customer's needs. For example, we often include additional projects such as Business Partner Conversion or activation of new transformation projects as part of an S/4HANA conversion. We will work with you to plan your S/4HANA journey at your pace.

S/4HANA Factory⁺ conversion packages

Predefined scope, tailored to needs

HCL's pre-packaged Factory+ offering can be tailored to your organization's needs. Our team will work with you to determine the solution that best fits your needs.

Each of our base conversion packages comes with the following pre-packaged scope items:

- Readiness Check execution and evaluation, including mandatory conversion OSS notes installations
- Customer Vendor Integration (CVI) without Business Partner redesign

- Mandatory Universal Journal, Material Ledger conversions
- Custom code remediation (number of objects varies based on package size)
- Core modules (see below table for details)
- Activation of standard S/4HANA Fiori apps (number varies by Package size)
- All mandatory configuration for pre- and post-conversion activities

S/4HANA Conversion Packages - Flexible T-Shirt Packages			
Package Value (USD)	**275K**	**750K**	**1300K**

Transformation projects can be added to the base factory scope at additional pricing.

HCL's S/4HANA Factory⁺
- Delivered benefits

➔ **An optimized digital platform** - For a Global IT services provider, the migration led to the optimization of their project profitability solution. Performing real-time analytics on transaction data has led to a 25-40% reduction in processing time and a 50% reduction in global payroll processing time.

➔ **Increased speed** - For a chemicals manufacturing customer, the migration led to a significant increase in transaction performance, including a 55% faster release of the monthly forecast because of an improved financial closure and a 33% improved performance of MRP.
