Fonterra Co-operative selects HCL Technologies for IT Infrastructure Transformation

HCL to bring together Fonterra's IT infrastructure services under one umbrella

Auckland, New Zealand and Noida, India – Feb 18, 2020 - Global technology company HCL Technologies (HCL), today announced a new large contract with New Zealand dairy co-operative Fonterra to modernise and manage the entire technology infrastructure Fonterra employees around the world use every day.

The multi-year partnership with HCL Technologies will consolidate Fonterra's technology suppliers and bring together the Co-op's IT infrastructure services under one umbrella. The technology edge services provided by HCL will enhance Fonterra's employee experience, to navigate through their business operations.

This partnership will also extend HCL's New Zealand presence to three offices within the country and will bring around 60 new jobs to the Waikato region, as the local support services for Fonterra employees will be based at its Hamilton Delivery centre.

The partnership will reinforce HCL's focus in supporting the local New Zealand IT ecosystem by investing in local skills and partnering with regional companies and tertiary education groups to develop the local expertise to fill these roles over the coming years.

Michael Horton, Executive Vice President & Country Manager, Australia & New Zealand, HCL Technologies, says "We have been supporting Fonterra for over a decade by managing its IT application support and maintenance portfolio including SAP. We are delighted to expand our partnership with Fonterra to modernize and manage the entire technology infrastructure. This will enable us to further support both Fonterra's business strategy as well as the agri-tech sector overall in the region."

Piers Shore, Fonterra Chief Information Officer, says "Fonterra is pleased to be able to draw on HCL's global scale and efficiency.

"Fonterra employees have said there is room for us to improve the tools and technologies we use on a daily basis at work and this partnership with HCL will allow us to make major improvements for our employees in terms of end-user experience and provide the digital foundation to our transformation initiatives.

"Additionally, this partnership will enable us to improve our cyber security framework and strengthen our critical IT foundation. Through our partnership with HCL, we are consolidating our external IT suppliers and through this we expect to make significant savings relative to our existing infrastructure IT spend over the next five years."

About Fonterra

We're a global dairy nutrition company owned by 10,000 farmers and their families. We've built our expertise on the legacy of the thousands of farmers who've made New Zealand a world leader in dairy. With a can-do attitude and a collaborative spirit, we're a world leading dairy exporter. Our 22,000 people share the goodness of dairy nutrition with the world through our innovative consumer, foodservice and ingredient solutions brands, and our farming and processing operations across four continents.

About HCL Technologies

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three business units - IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations and next generational digital transformation solutions. ERS offers engineering services and

solutions in all aspects of product development and platform engineering. Under P&P, HCL provides modernized software products to global clients for their technology and industry-specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences & Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability and education initiatives. As of 12 months ended December 31, 2019, HCL has a consolidated revenue of US\$ 9.7 billion and its 149,000 ideapreneurs operate out of 45 countries. For more information, visit www.hcltech.com

Forward-looking Statements
