Overview

When HCL began its Transformation journey in 2005, it spotted an early inflection point in the industry to focus on value as opposed to volume. The first phase of our Transformation journey, centred around **Employee First, Multi-Service offerings** and **Outcome based pricing** led us to be recognised as a thought leader and enabled us to win large transformational deals. We are now into the second phase of this journey and this quarter marks the establishment of the strong foundation of **Collaborative Transformation** as a way of business. We believe that this collaborative approach with customers and partners will create a deeper and more sustained impact, expand and create new markets.

“HCL pioneered modern computing three decades ago, and has continued to be a Thought Leader by gauging inflection points early and changing the paradigm in a dynamic market scenario. In our Transformation journey, we are now focused on co-creating value through strategic partnerships that we believe will become yet another industry trend in the coming years”, said **Shiv Nadar, Chairman and Chief Strategy Officer, HCL Technologies**.

“Our **Blue Ocean approach** to business continues to pay rich dividends and we are proud to be **ranked No. 1** ahead of all global players in Remote Infrastructure Management (RIM) by the Black Book of Outsourcing and awarded the Highly Commended Vendor title by the National Outsourcing Association in Europe. Our commitment to Trust and Transparency in every aspect of business has helped us be voted as the **best company for Investor Relations** in India by Asiamoney. All these are proof points that our Transformation journey is on the right track.” said **Vineet Nayar, CEO, HCL Technologies**.

“This quarter, HCL BPO witnessed a 31.9% YoY increase in revenue and 76.8% EBIT. Despite the rise in rupee against the dollar, HCL BPO's EBITDA is maintained at 26.0%. Further endorsing our strength is the National Outsourcing Association that honoured HCL BPO with the Special Award for consistent excellence in outsourcing practices across all disciplines.” said **Ranjit Narasimhan, President & CEO, HCL Technologies-BPO Services**.
