

HCL

100 in 100 for Microsoft Azure

Accelerate your Azure migration with enterprise-scale standards and a commitment to success

www.hcltech.com

100 in 100 for Microsoft Azure is a unique offering that commits to delivering enterprise-scale end-to-end native forklift workload migration of 100 applications in 100 days. Our end-to-end Microsoft Azure migration service helps accelerate value - from foundation design to handover - provide a closure to the migration delivery, and ensure minimal disruption to your business.

100 in 100 leverages HCL's One-click migration approach, which provides zero-touch automation leveraging cloud-native tools, thereby reducing the foundation-phase time from weeks to minutes and accelerating the migration process by bringing standardization through a repeatable, tried and tested factory-based approach.

Common migration challenges

Most businesses face a few common challenges, when it comes to migrating workloads to the Azure Cloud:

- 1** Unpredictable migration timelines, resulting in deferred benefits and increased costs due to delays
- 2** Incomplete testing before handover to operations, resulting in expensive and time-consuming re-work
- 3** The time-consuming need to re-build or re-apply OS images and configurations following an image "lift and shift"
- 4** Delayed or compromised monitoring or patching of the target workloads in Azure following migration, increasing security risks
- 5** Insufficient time baked into the migration plan to address security measures

HCL's 100 in 100 approach mitigates these common issues

Foundation and build

Pre and post-migration checks

Migration execution

Post-migration testing

Handover

Hyper-care

What makes HCL's 100 in 100 for Microsoft Azure different?

Expertise

With over 8500 Certified Azure specialists and 50,000 Microsoft-trained consultants, HCL has the skills and the knowledge to ensure that your Azure “landing zone” environment is architected to receive the migrated workloads without compromising security.

Risk mitigation

We achieve reliable and predictable migration outcomes by addressing common migration and post-migration challenges as part of our automated approach. We understand that migration is not an end-state itself, but a transition stage to cloud-based operations. We design our approach with successful operations in-mind, right from the start.

Predictable pricing

Pre-defined catalog-based and standardized pricing, so that you can predict migration costs. Whether the migrations are in single or multiple phases, the costs are transparent.

Accelerated migration

Guaranteed Azure migration in 100 days without compromising on deliverables; otherwise, HCL will bear the cost of post-100-day over-runs.*

*Prerequisites, terms and conditions apply

100 in 100 for Microsoft Azure features

Aligned to CAF patterns and best practices

Use of pre-defined templates and cloud-native tools with no additional licensing costs

Built on DevOps framework leveraging cloud-native repos and pipelines

Aligned to a zero-trust security model

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on September 30, 2021, HCL has a consolidated revenue of US\$ 10.82 billion and its 187,634 ideapreneurs operate out of 50 countries.
