HCL

Seamless Data Center and Cloud Migration Services to Azure Cloud

Microsoft Cloud Adoption Framework (CAF) aligned services for a robust and configurable cloud environment

Enterprises in their cloud migration journey often struggle to:

- Secure their cloud infrastructure and ensure critical data privacy
- Adopt IaaS with substantial cost optimization
- Trust vendors regarding service availability and delivery
- Achieve confidence in the shared infrastructure system

With HCL's OneClick Foundation and migration to Microsoft Azure, organizations can implement:

Automated landing zone deployment

Single-click migration with configured approvals

Multiple infrastructure test cases with an auto-trigger and integrated application test cases

Trigger multiple post-cloud-migration use cases

Implement cloud best practices

Phased migration of thousands of workloads to Azure cloud

HCL's expertise and experience in Azure Migration forms an ideal solution framework.

- HCL Cloud Native Application Services
- HCL's Certified Azure Cloud Experts
- HCL's Data Center Migration
- HCL's Near Zero-Touch Cloud Operations

Key Service Offerings

End-to-end lift and shift cloud migration to Azure cloud
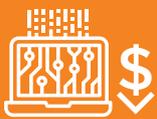

Migrate workloads to a multi-cloud environment

Configuration with competencies in DevOps

Modernize with competencies in PaaS and containers

Key Outcomes

Reduced IT costs

Enhanced system security

Rationalized IT landscape

Increased virtualization ratio

Simplified and automated management processes
