

Mobile Apps Factory

A complete approach to adopting SAP enterprise mobility

SAP, Done Better. #SAPbyHCLTech

Why SAP Mobile Services is key to your mobility strategy

A well-executed mobility strategy can be a competitive advantage, with optimized processes resulting in more productive and satisfied employees, quicker access to data and faster response times, better and more efficient communications, and revenue growth.

SAP's Mobile Services bring additional benefits to enterprise users. Business processes can be optimally enhanced with intelligent features enabled through SAP Mobile Services, and mobile application development, configuration, and management is greatly simplified- reducing development time and cost.

SAP Mobile Services also features

- Integration with heterogeneous landscapes and newer technologies, enabling continuous innovation and adoption of new features found in advanced niche technologies
- Enhanced security standards, providing secure access to sensitive enterprise data
- SAP's no-code platform, allowing citizen developers to build quick mobile apps to enhance a business process
- A wide range of technical options, so you can choose what is best suited for the use case
- Allows you to harnesses the power of native features from mobile devices

The result? Adopting SAP enterprise mobility increases productivity, with operational cost reduction and better collaboration.

Key benefits at a glance

No-code development

Ensures better collaboration

Unified UX for branding

Leverages native features

Enhanced productivity

Enables efficient communication

Secured data access

Intelligent technologies

Reduces operational cost

Our flexible, guided approach to mobility adoption

Our five-step approach provides the flexibility needed to move forward with SAP Mobile Services

Step 1

Educate- We start with a workshop to help key stakeholders understand the advantages of mobility adoption, raising awareness of key features and business outcomes.

Step 2

Assess- A complete assessment of your landscape follows. SMEs share prerequisites, best practices, and the preferred landscape, and identify potential mobility use cases.

Step 3

Pilot- We plan and execute a four-week pilot utilizing an identified use case, employing low/no-code tools to help business users recognize the benefits of mobility.

Step 4

Scale- Scale up with further mobilization of business processes, or a migration of apps from on-premises to cloud or moving web to hybrid.

Step 5

Innovate- By choosing a longer-term partnership with HCL, a dedicated offshore team will work alongside your team, providing ongoing knowledge transfer and insight into new innovations and technology trends.

Educate to Prepare

Educate to prepare

A day long workshop to explain SAP Mobile Services, its capabilities, and HCL's experience with realized customer benefits and value creation.

Assess to align

Assess the customer landscape and prepare the mobility roadmap, strategy, and prerequisites with best practices to adopt SAP Mobility.

Assess to Align

Pilot to reduce risk

Identify a concise and relevant business scenario for pilot to realize the benefits of Mobility with business value adds.

Pilot to Reduce Risk

Scale to transform

After pilot, move forward with mobile enablement to transform additional business processes and maximize the benefits.

Scale to Transform

Innovate to sustain

Continue to innovate your services by adopting BTP intelligent technologies to sustain and expand your mobile capabilities.

Innovate to Sustain

Our flexible pricing catalog

HCL's flexible pricing catalog makes adoption easy. We offer four plans suited to different organizational needs, outlined below:

- Starter offers a basic awareness program with detailed assessment and SAP Mobile Start recommendations.
- Advanced provides strategic roadmap definition and SAP Mobile Start configuration for quick onboarding to SAP mobility with existing applications. It also includes a quick pilot to realize the benefits of SAP mobility.
- Pro scales the mobile footprint across the organization, offering multiple mobile app delivery.
- Ultimate is a long-term partnership engagement aimed at helping you develop, migrate, and maintain applications. We provide your team with further training and mentoring so they gain a deeper understanding of the technologies and continued integration with intelligent technologies in SAP BTP.
