

HCL

Mosaic

License analyzer and
predictability tool for
RISE with SAP

SAP, Done Better.

#SAPbyHCLTech

Mosaic demystifies licensing needs for customers embarking on an SAP RISE journey. It is a cloud-native solution that enhances utilization of purchased licenses and IT assets, balances software spend, and keeps the system future-ready.

By evaluating current licenses along with system consumption (apps and infrastructure), Mosaic provides a simplified view of your total cost of ownership and enables a structured and data-centric decision-making process. The solution systematically tracks, evaluates, and manages software licenses, compliance, and optimization to aid ongoing monitoring capabilities for existing SAP customers.

Understand your licensing needs with three simple steps

Execute license analysis reports in the system and upload into the tool

View license inventory and usage in an AI/ML assisted dashboard

Finalize the license requirements, cost, and estimated TCO

Our offerings

License and system monitoring

Mosaic collects and showcases system data consumption, so you can better understand use of purchased licenses and other IT assets.

License optimization

Mosaic interprets the current system consumption and suggests license type, such as user, infrastructure, digital access, and support to help you better understand the total cost of ownership.

Lower risk of software license audit and penalties

Mosaic simplifies compliance efforts by providing information on over-usage, renewals, etc. of the licenses.

Key benefits

Supervision

Understand and optimize the current system consumption to adjust the license spend

Cost savings

Balance software spend with usage patterns, reducing waste, and optimizing license spend

Future readiness

Avoid penalties and remain compliant to licenses

Why HCL Technologies?

Experienced SAP S/4HANA digital transformation partner

- Proven ability to identify and capture business value and new revenue streams
- Experienced team with deep industry perspectives
- Strong heritage in smart product engineering
- Industry-leading client success and analyst ratings

Deep partnerships and experience with SAP and cloud infrastructure

- Significant contribution to the creation of Mosaic
- Proven pragmatic and outcome-based Cloud Smart approach for SAP RISE customers
- SAP Cloud Application Services partner for global application-level support including all RISE/HEC products
- HCL Technologies is the SAP pre-sales support engine, working alongside SAP to drive RISE adoption at scale
- Provide infrastructure monitoring for RISE customers on chosen hyperscaler
- 24/7 availability as a global partner
- Single managed service provider for both hardware and software

About HCL Technologies SAP Practice

To get the best return on your digital investments, you need a partner that doesn't just do SAP right, but does it better. Our SAP practice works seamlessly with HCL's digital consulting, engineering services, IoT WoRKS™, and cloud infrastructure practices to design, implement, and support tomorrow's integrated, intelligent solutions today. As an SAP Global Strategic Services Partner, our 10,000+ consultant base leverages insights, advanced accelerators, and industry-acclaimed frameworks to deliver award-winning services from local offices across Europe, Africa, Asia, and the Americas.

SAP, Done Better.

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on December 31, 2021, HCL has a consolidated revenue of US\$ 11.18 billion and its 197,777 ideapreneurs operate out of 52 countries. For more information, visit www.hcltech.com
