

Mosaic

FinOps tool for SAP Cloud Journey,
leveraging SAP BTP and AWS native services

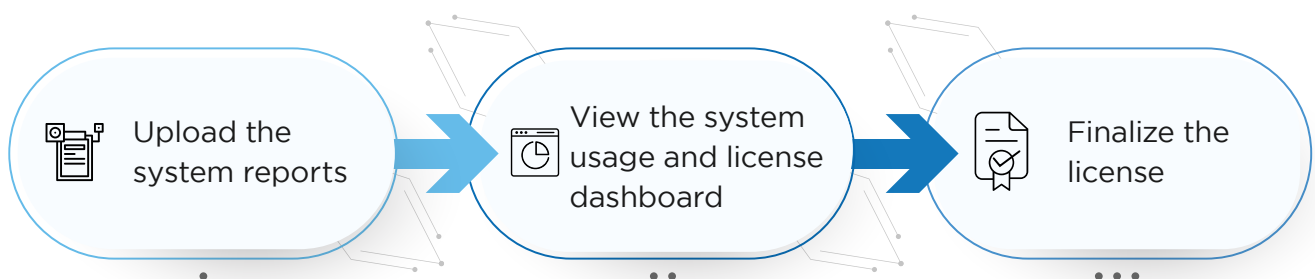

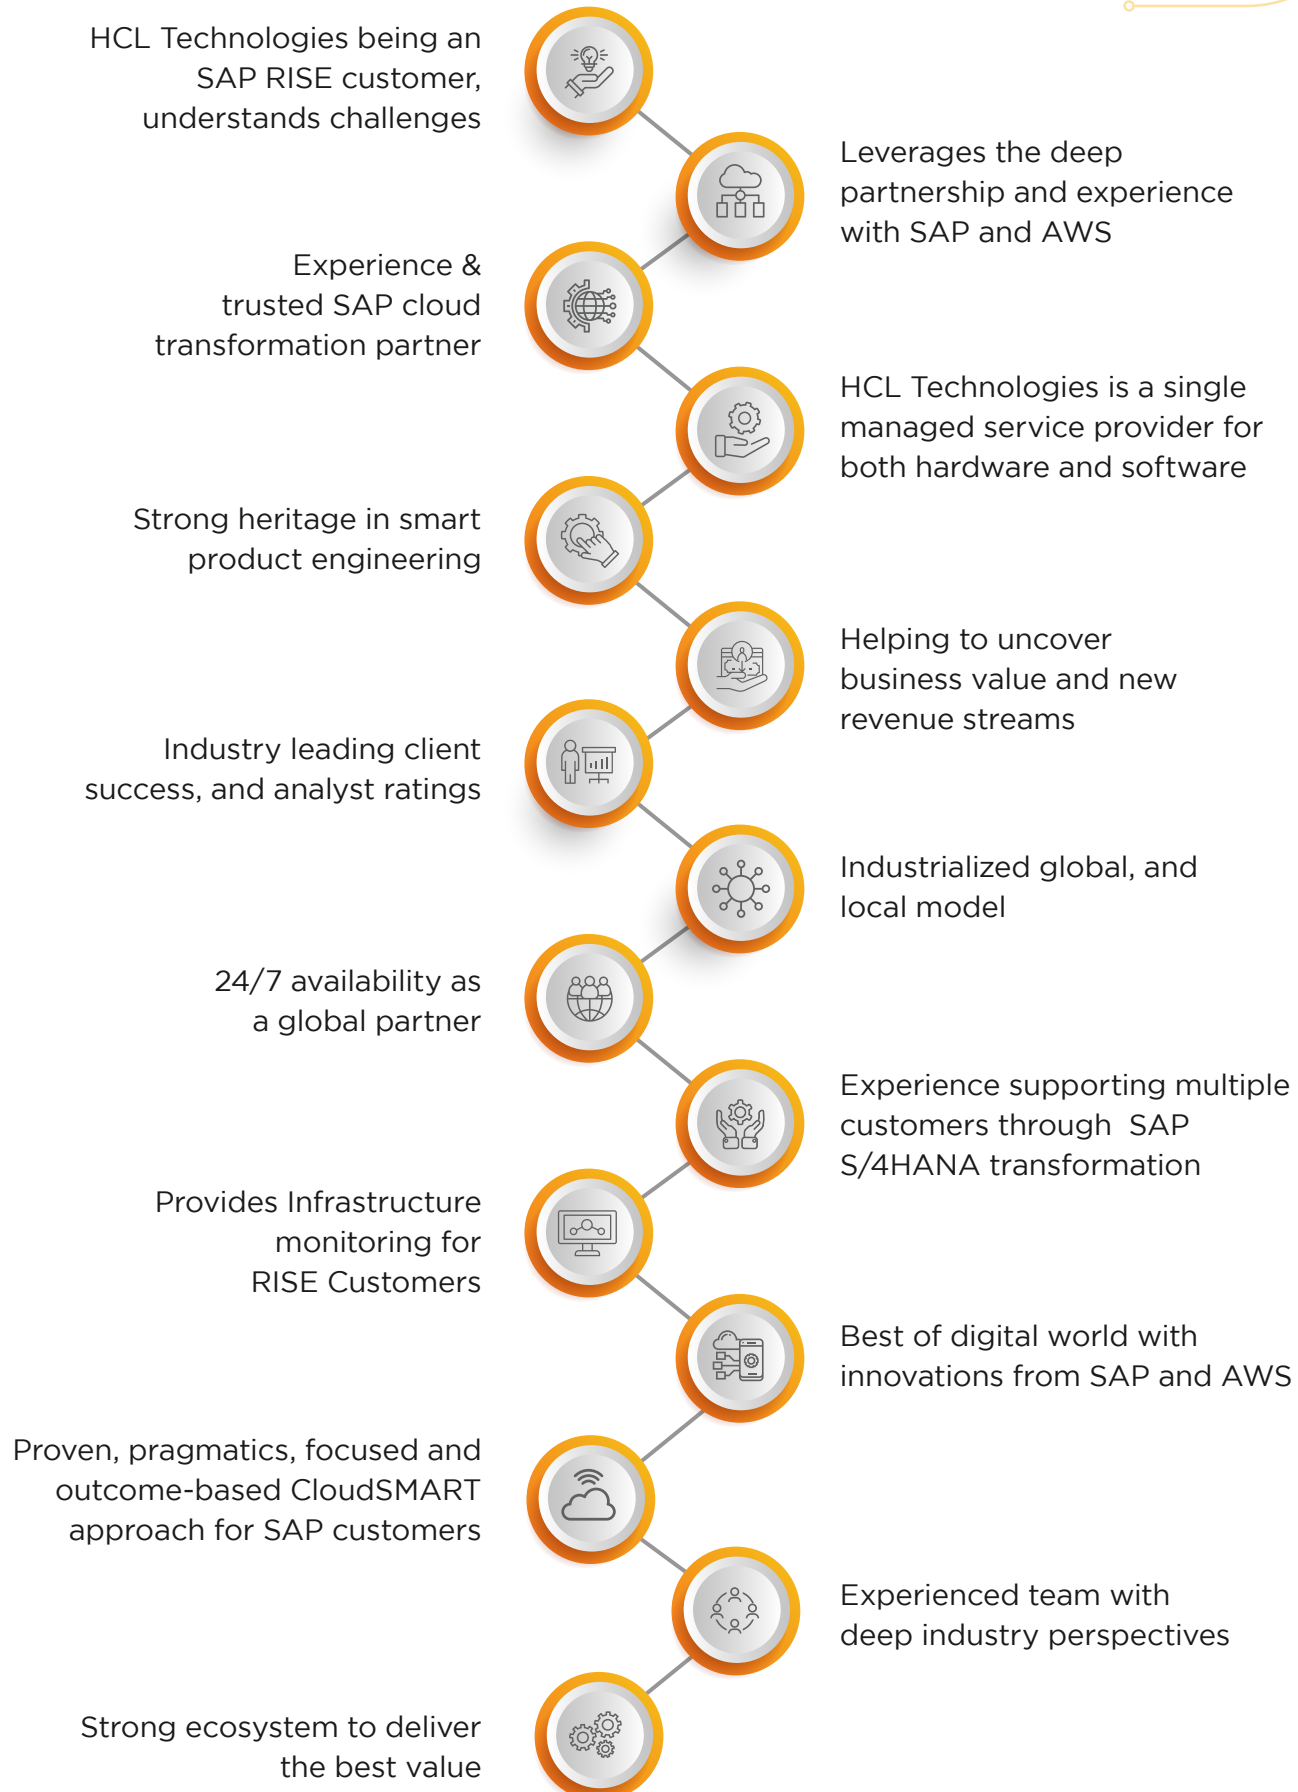

HCL Technologies Mosaic supports customers embarking SAP Cloud journey by demystifying their Total Cost of Ownership (TCO) enabling easy decision making. The wholistic approach includes evaluating customers' current licenses along with system consumption (apps & infra) and providing a simplistic view of their expected Year-on-Year TCO. The solution also systematically tracks, evaluates, and manages the software licenses, compliance, and optimization to aid ongoing monitoring capabilities for existing SAP customers.

In a nutshell, this cloud native solution provides customers with effective utilization of purchased licenses/ IT assets, balance the software spend and usage, and always keep you future ready.

Understand your license requirement with three simple steps:

Why HCL Technologies ?

Our offerings

License and system monitoring

HCL Technologies Mosaic collect the data from the SAP system and showcase the system consumption about effective utilization of purchased licenses and other IT assets.

License optimization

HCL Technologies Mosaic understands the current system consumption, suggest the different license type such as user, infrastructure, digital access etc. and support to understand the total cost of ownership.

Lower risk of software license audit and penalties

HCL Technologies Mosaic helps to understand the compliance by providing information on over-usage, renewals, etc. of the licenses.

Key benefits

Robust and scalable platform

Scalable BTP leveraging AWS EC2 services with deepest compute platform for extensibility and performance.

Supervision

Understand and optimize the current system consumption to adjust the license spend.

Future readiness

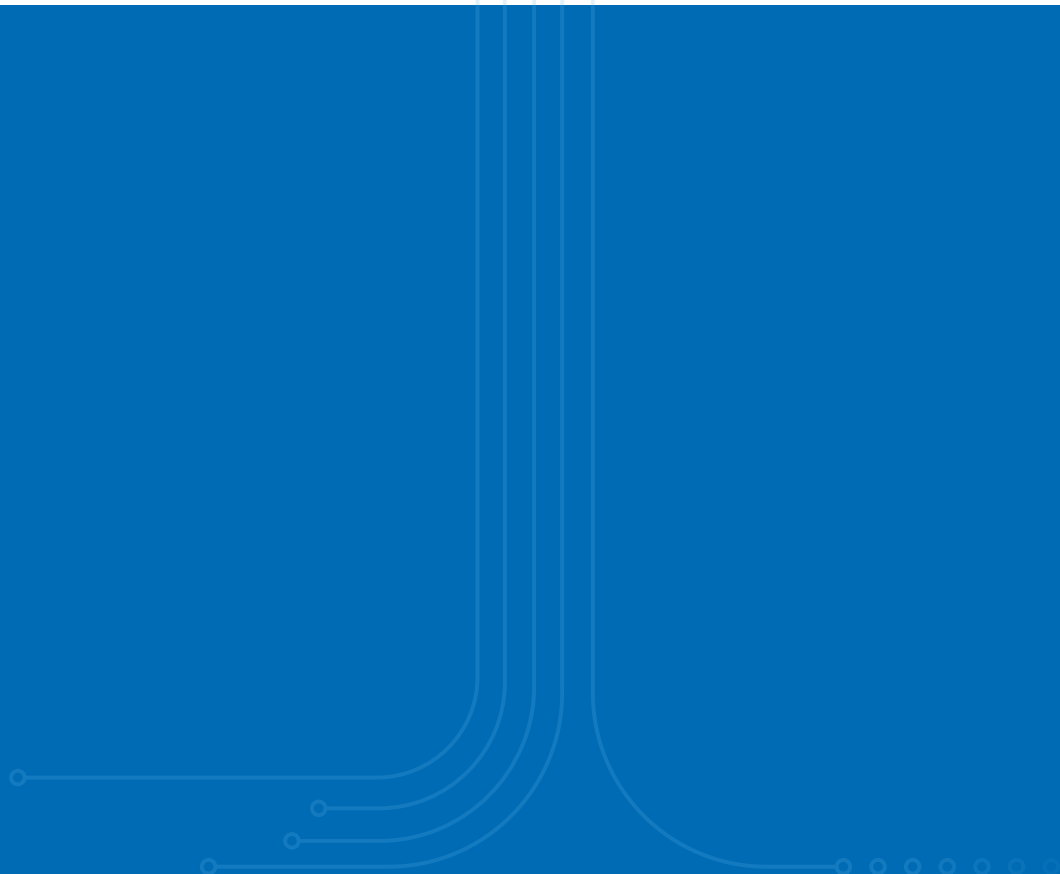

Never get penalty levied and always remain compliant to licenses.

Cost savings

Balance the software spend with the usage (identify usage patterns, denials, and waste), optimize, and adjust the license spend.
