

Experience AWS Outposts with **EdgeLITy**

Today's digital and business objectives need a robust, simplified and seamless hybrid cloud environment. Such a coherent cloud-like experience at the edge eases and streamlines operational activities and integrates well with AWS cloud native services, allowing the customer to reap the benefits effectively. With AWS Outposts, organizations also enjoy unified control, centralized visibility and agile deployments in their journey toward digital transformation.

Step-up your digital journey with **EdgeLITy**

EdgeLITy is an end-to-end offering by HCL Technologies that simplifies an enterprise's transition to edge-based architectures. It offers a single point-of-contact for consultation, assessment, creation, deployment and continued management of an edge computing solution, on-the-go and on-demand.

The EdgeLITy framework is uniquely designed to support enterprises that need a smart, flexible and agile solution. It enables seamless adoption to the edge in a phased approach, thus avoiding disruption of business-critical services.

Key features

True cloud native
full stack solution at
the edge

Supports key AWS
services on-premise
to quicken the pace of
the innovation engine

Integrated Ops
via HCL IIOps

Best-in-class hybrid
cloud framework
supporting 230+
compliance, security and
governance
requirements

Buy v/s Build
options

Supports a variety of
distributed enterprise
workload along with
next-gen technologies
such as AR/VR, IoT,
5G, etc

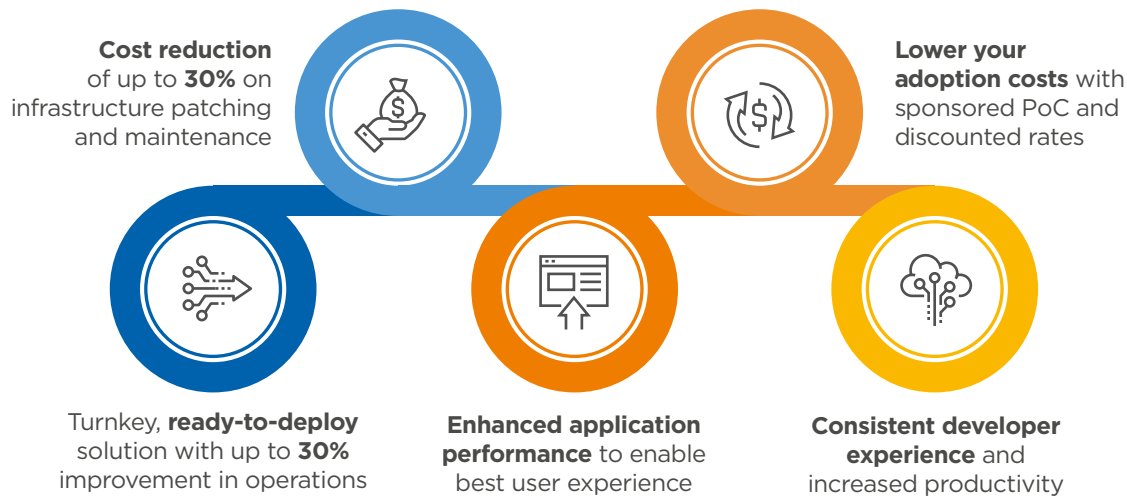

Ideal for low latency
workloads and data
residency use cases

Wider support for
compliance
certifications such as
PCI, DSS, HIPPA, SOC,
ISO, FeDRAMP, etc

Benefits

Why HCL

- ▶ AWS IoT core partner helping customers build local edge device intelligence
- ▶ Leader in Everest Group System Integrator (SI) Capabilities for AWS, 2021
- ▶ AWS launch partner for Containerized Workloads with EKS-A on Outposts
- ▶ Rated as one of the top global ERS players for Edge-based cloud services
- ▶ Expertise in deploying and managing core IoT workloads powered by IoT WoRKS™
- ▶ Dedicated CoE to conceive, design and validate customized edge solutions
- ▶ Leader in all analyst reports for Cloud (Gartner, IDC, Everest Group, ISG, Avasant)

HCL

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on December 31, 2021, HCL has a consolidated revenue of US \$ 11.48 billion and its 208,000 ideapreneurs operate out of 52 countries.
