

Envision a cyber-resilient enterprise with **VaultNext**

The cyber threat landscape has become more sophisticated than ever. Ransomware attacks, the most common form of cyber threats, are threatening even the biggest organizations.

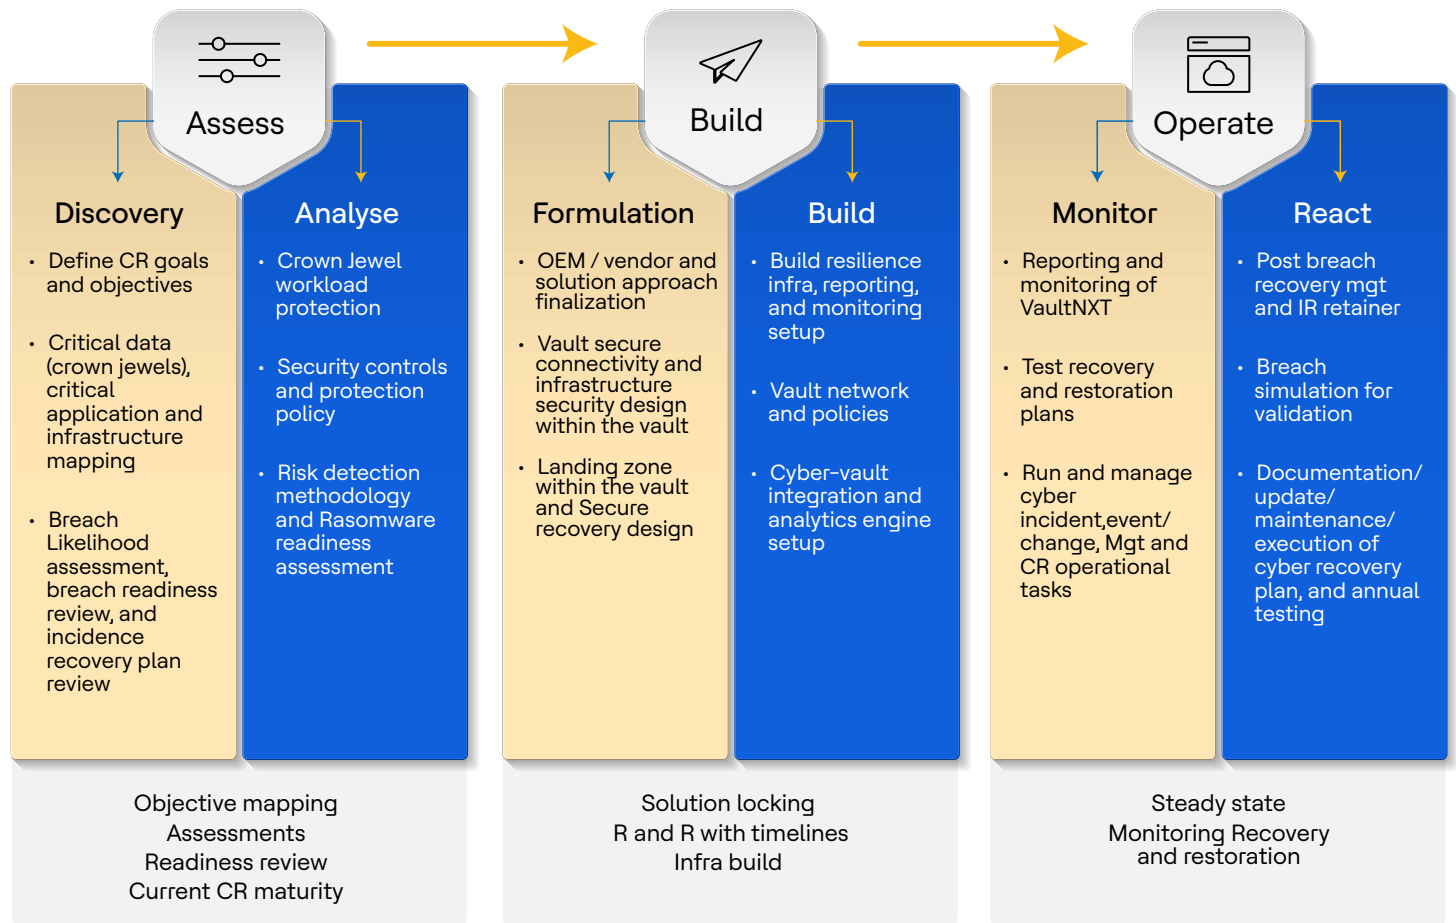

On an average, it costs businesses \$1.85 million to recover from ransomware attacks

VaultNxt: Eliminate the threat of ransomware attacks

HCL Technologies' VaultNxt enables organizations to make the leap from threat prevention to a holistic cyber security strategy that ensures end-to-end protection. The solution counters ransomware attacks by using a multi-layered approach, mitigating damage while protecting critical data and enabling recovery with assured data integrity.

Offering overview

Key features

-  Vendor neutral approach for identifying the best fit tool
-  Crown jewel data identification
-  Airgap isolation
-  CR incidence response strategy
-  Scalable security controls
-  AI/ML-based risk detection
-  Proactive golden copy validation
-  Hybrid deployment model
-  End-to-end managed service delivery and flexible pricing model

Key benefits

-  Proactive identification, actionable recommendations and threat detection using AI/ML
-  Stringent recovery process even in situations where cyber ransomware compromises backup data
-  Secured and validated data for ensuring recoverability
-  Identifying and mitigating risk of evolving cyberattacks

Success stories

Leading European insurance company

Designed a simple, secured and scalable solution for cyber ransomware protection, resulting in transparent reporting, faster backups and near-zero RTO

Britain-based pharmaceutical company

Complete backup transformation, with integrated ransomware protection, reduced effort to almost 80%

Why HCLTech

- ▶ Leader in all analyst reports for cloud (IDC, Everest Group, ISG, Avasant and Gartner)
- ▶ Extensive experience in infrastructure security, governance, risk and compliance
- ▶ Provides a dynamic security framework offering a full spectrum of services
- ▶ A large pool of trained and certified resources in cyber recovery implementation and delivery
