

100 in 100

Accelerate your Cloud migration with enterprise-scale standards

The untold challenge

There are various unaddressed challenges in a typical re-host migration, that restrain businesses from adopting cloud transformation on time, and present difficulty in achieving the scale.

Unpredictable cloud migration timelines

Incomplete testing and handover

Delayed & compromised monitoring and patching post migration

Insufficient security measures in given timelines

What's in it for customers?

100 in 100 is a factory-based offering that commits to deliver enterprise scale end-to-end native forklift migration of 100 Apps in 100 Days.

This offering delivers end-to-end cloud migration service from foundation design to handover, bringing completeness to the migration delivery and ensuring minimal disruption to the business.

It leverages HCL's One-click which provides zero-touch automation leveraging cloud native tools, thereby reducing foundation-phase time from weeks to minutes. This also accelerates the migration process by bringing standardization through a factory-based approach, as shown below.

Foundation design & build

Migration execution

Hyper-care

Pre & post migration checks

Post migration infra testing

Handover

How is '100 in 100' different?

Enterprise-scale delivery

End-to-end reliable migration process by addressing the unexamined challenges of monitoring, patching, security and testing

Predictable pricing

Predefined and fixed catalogue-based standardized pricing for proactive migration cost planning

Accelerated migration

Guaranteed migration* in 100 days without compromising on deliverables

Features

Aligned to CAF patterns and best practices

Use of pre-defined templates and cloud native tools with no additional licensing costs

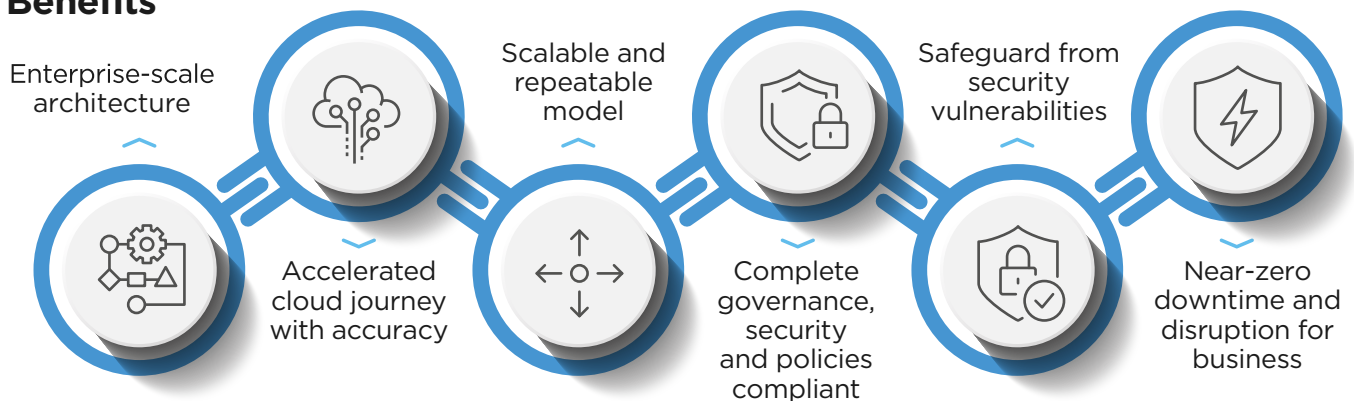

Built on DevOps framework leveraging cloud native repos and pipelines

Aligned to zero-trust security model

Benefits

HCL is positioned as a leader by **Gartner® Magic Quadrant™ for Public Cloud IT Transformation Services and Data Center Outsourcing & Hybrid Infrastructure Managed Services**, Global 2021. Other leading industry analyst firms like **Forrester, IDC, Everest, Avasant** and many more have rated HCL as a leader in a range of specialized capability areas across various cloud service lines and industries
