

# Digital Engineering: Accelerate your Digital Journey

Digital Engineering services that accelerate your Digital transformation journey to shape a holistic digitally matured organization

Best-in-class Digital Technologies across Cloud, IoT, and related ecosystems & accelerators that empower you to deliver world-class customer experiences

Industry-proven best practices & key use cases across industrial sectors, powered by In-house Accelerators, Reference Architectures & Partnerships

## Digital Engineering for Growth

Organizations across the globe are looking at transforming their product offerings. For this, organizations need to transform their internal engineering processes and bring participants in the ecosystem together. HCL's Digital Engineering offering addresses the challenges and end-to-end needs of such organizations by leveraging the power of Cloud, Connectivity, and next-generation architectures to create differentiated user experience for their employees, customers, and ecosystem participants.

While customers revamp their business strategy to add additional digital revenue streams and explore new as-a-service business models, HCL's Digital Engineering solutions help organizations to fast-track their digital transformation journey from traditional, on-premise, customized hardware platforms or legacy software technologies to cloud-native software-controlled solutions to support next-generation services.

## Solutions to Achieve Digital Transformation

Helping customers create world-class digital products and platforms

### CLOUD-READY

Cloud Assessment & Migration  
Containerization

### INTELLIGENT

Cloud-agnostic platform development  
Micro-Services development

### PERSONALIZED

Platform Security & Performance

### ECOSYSTEM-ENABLED

DevOps Advisory & transformation  
DevOps for Hybrid cloud

### COLLABORATIVE

ALM tools customization  
Cloud/Platform Operations

### AUTOMATION

Incident Management & remediation

**Digital  
Products/

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on March 31, 2020, HCL has a consolidated revenue of US\$ 9.9 billion and its 150,423 ideapreneurs operate out of 49 countries.
