**FOCUS
CONNECT**

Comprehensive JDA solution offerings to meet your present and future supply chain needs

HCL's Supply Chain Excellence Practice leverages JDA's pioneering solutions to optimally fulfill the supply chain planning and execution needs of customers across various industry verticals. As one of JDA's strategic partners (since 2005), HCL brings its strong industry and domain expertise coupled with a robust global delivery model to ensure maximum ROI realization from adopting new age technology solutions for our customers.

Our success stories

World's largest logistics services provider

realizes **15%** year on year savings by stream-lining their warehouse business processes and improving product availability by:

- Consolidation of disparate warehouse management systems across the globe
- Standardization of business processes to help warehouses operate better
- Rapid template based implementation and rollout of JDA WMS across 250+ sites (Europe, APAC)

Leading accessories and clothing retailer

partners with HCL to transform its warehousing operations across 15+ sites to reduce costs, provide greater inventory visibility and improve space utilization. HCL uses its unique

template based **Factory Model** for expediting the implementation and roll out of JDA WMS across multiple Data Centres

Leading pharmacy chain in Norway

achieves **~8%** reduction in inventory management costs and realizes greater supply chain visibility by better leveraging demand and synchronizing the supply chain to fulfill it

World's largest furniture retailer

realizes **15%** improvement in forecast accuracy and over **10%** reduction in global inventory costs by transforming their supply chain planning process.

HCL creates unique **KPI dashboard** to minimize waste and improve annual profitability by over **7%**

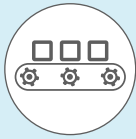

A leading logistics services provider

stimulates top-line growth by implementing WMS solutions and achieves **7%** cost savings through higher availability of WMS systems by leveraging a robust support services model

Leading Dutch-British transnational consumer goods company

realizes over **5%** additional savings by deploying JDA WMS solutions in the AWS Cloud. HCL helps the customer achieve greater ROI in less time with lower risk through our **Integrated Support Services Model**

RPA Solutions

- Order processing and payments
- Procurement and inventory management processes

Customers have spoken...

“ ...Delighted to confirm that depot Go-Live happened with no outstanding issues. All store orders have been received and successfully allocated.

Program Manager,
Leading accessories and clothing retailer ”

“ We have been working together with HCL in an Automatic Replenishment Project; since August 2016. During define, design and configuration phases; we have worked together and have experienced that the team members from HCL are really professional implementation partners. They have displayed high levels of understanding, competence and skills on both the technical and functional side; and have transformed the project to a successful project. Together we have achieved and realized the pre-defined KPIs of the project”

Supply Chain Manager,
Norway's leading chain of pharmacies ”

“ We are associated with HCL from 2007 and they are our vendor for all JDA SCPO Applications that are used within our company. In the last 10 years, HCL has been involved in 4 JDA migrations (from 6.x version till 16.1 version) and successfully implemented all of them. HCL also been involved in multiple enhancement projects and delivered all of them with good Quality and within given Time Frame. HCL is also responsible for Application Management Services for all JDA SCPO Applications. HCL has been very professional in their approach and sincere to the work and has a good Onsite/Offsite mix.

Solution team leader at world's leading home furnishing retailer ”

What analysts think

The analyst community also recognizes excellence in our ability to execute on JDA solutions.

Featured in Gartner Market Guide for Supply Chain Planning System Integrators, October 2017

Positioned as Leaders in overall Digital Services in Retail and Supply Chain Management

Featured in Leadership Zone in Zinnov Zones 2016 Global IoT Technology Services

HCL's services enable retailers to compete more effectively by helping them digitize their existing retail technology, perform omni-channel enablement, optimize operations, and enable customer-centric retailing. HCL helps retailers not only manage IT as a cost centre and bring in operational efficiency but also utilize next-generation technology as a competitive advantage.

HCL rated a Leader in Worldwide IoT Consulting & System Integration Services 2016
