Scale digitally with **VMware Cloud** on AWS

Powered by VelocITy
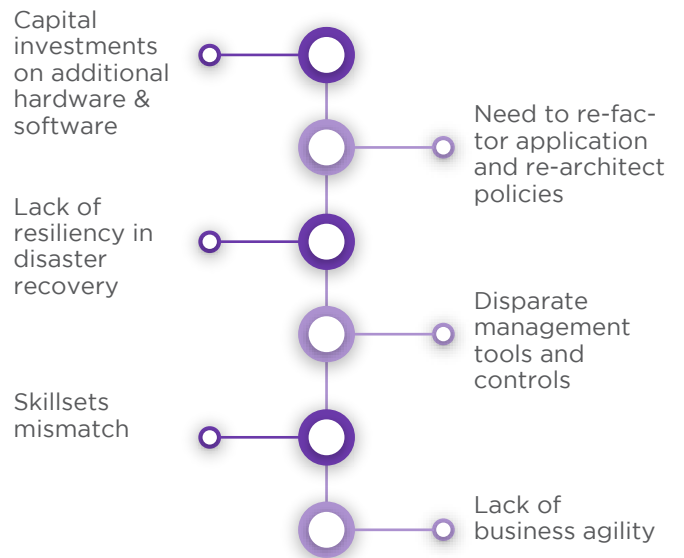

Cloud journey for next-gen enterprises

To thrive in today's complex business environment, global organizations are fast adopting hybrid Cloud model and DevOps approach. Enterprise customers are on a constant look out for agile methodologies, outcome-oriented and experience-centric services with programmatic capabilities of SDDC (Software Defined Data Center) that provisions an intelligent software layer enabling automation and faster go-to-market services.

To stay ahead of the technology curve, hybrid cloud adoption is becoming the de facto norm. HCL brings core capabilities for hybrid cloud implementation with an eco-system of partners, standardized and validated blueprints-based offerings, and solutions for cloud adoption to enable business with agility through its managed services and established processes.

VMware Cloud on AWS offer customers a unified environment to migrate, extend, and manage their on-premises vSphere-based workloads on to the public cloud rapidly and seamlessly.

Overcome the uncertainty and harness the opportunity

Leverage VMware Cloud on AWS to mitigate the following business challenges:

Capital investments on additional hardware & software

Lack of resiliency in disaster recovery

Skillsets mismatch

Need to re-factor application and re-architect policies

Disparate management tools and controls

Lack of business agility

HCL VelocITy framework

HCL VelocITy powered by VMware delivers an innovative hybrid cloud solution addressing customer's requirements of faster time to market, agility, and predictability to drive their digital initiatives. It is a holistic framework which talks about end to end service delivery of hybrid cloud solutions right from assessment to best practices taking into consideration people, process, and infrastructure to define Hybrid Cloud adoption roadmap.

Execute
Migration planning, deployment plan, operation model
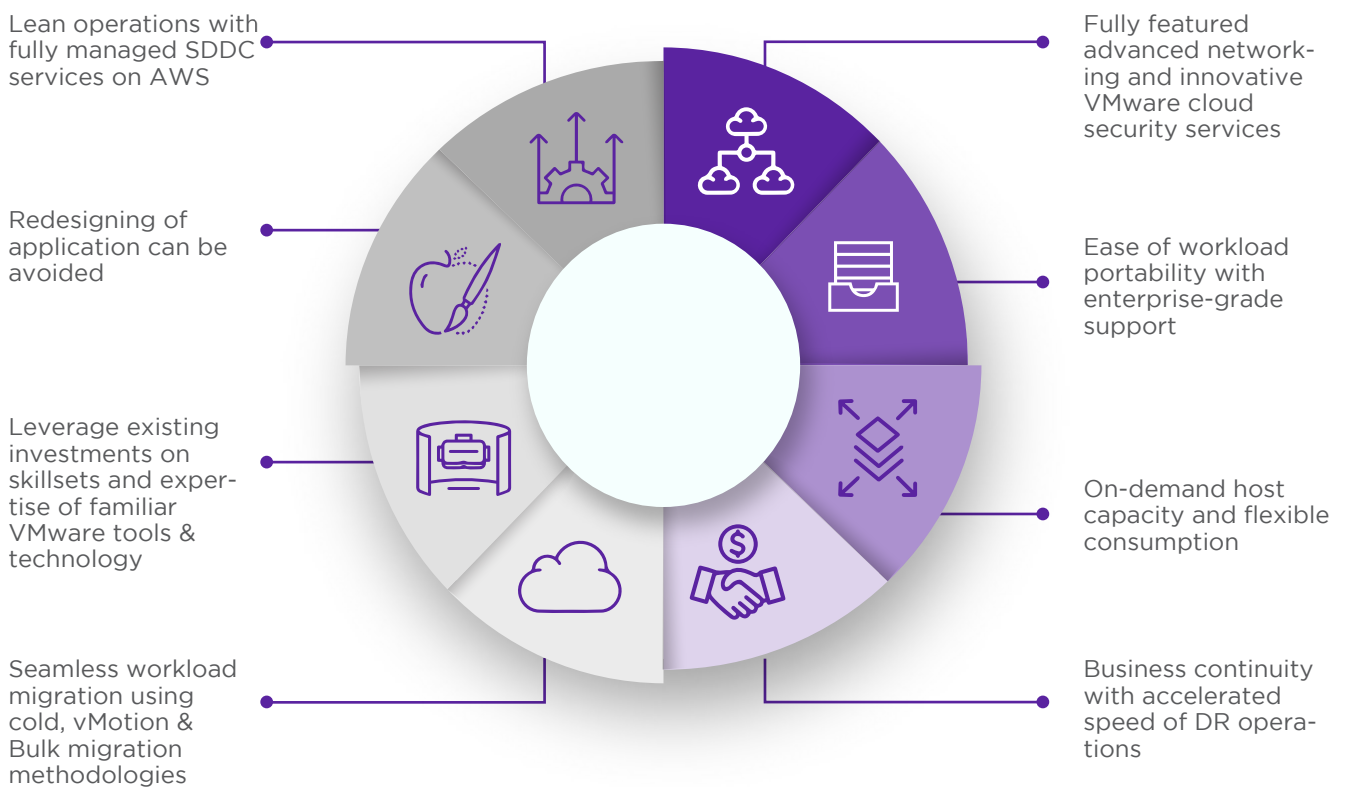

Plan
PoD design, reference architecture

Assess
Skillset mapping, process analysis, TCO/ROI analysis

| **People**	**Process**	**Infrastructure**
Objective: Silo to blended	Objective: Manual to automated	Objective: Legacy to modern

Blueprinting Hybrid Cloud (VMC on AWS) journey with VelocITy

HCL VelocITy is an integrated Hybrid Cloud offering that helps enterprises to extend their on-premise environment to public cloud. It delivers extensively tested software-driven data center level blueprints for successful hybrid cloud deployments leveraging AWS catering operational consistency and efficiency. It also provides flexibility which allows businesses to seamlessly run and scale their application workloads across hybrid cloud environments with advanced security.

Key benefits of VelocITy with VMC

Lean operations with fully managed SDDC services on AWS

Redesigning of application can be avoided

Leverage existing investments on skillsets and exper-tise of familiar VMware tools & technology

Seamless workload migration using cold, vMotion & Bulk migration methodologies

Fully featured advanced network-ing and innovative VMware cloud security services

Ease of workload portability with enterprise-grade support

On-demand host capacity and flexible consumption

Business continuity with accelerated speed of DR opera-tions

Hybrid Cloud deployment scenarios

DC Exit – migrate and modernize

DRaaS

Consolidate smaller DCs to cloud

Hybrid applications

Migrate without application/IP changes

Modernize applications using native AWS services

Burst capacity

Why HCL?

- ◆ Premier consulting partnership with AWS and 360 degree partnership engagement with VMware

- ◆ Certified and trained professionals on AWS and VMware technologies

- ◆ HCL is VVD 4.x certified with VCDX certified resources

- ◆ USD 15Mn+ investment in SDI lab to demonstrate extensively tested & validated use cases

- ◆ Dedicated Centre of Excellence team helps customers to carry out PoC and adopt VMC on AWS with confidence

- ◆ Recognized as leader in Gartner Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services 2020 for North America & Europe.

HCL

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on June 30, 2020, HCL has a consolidated revenue of US$ 9.9 billion and its 150,000 ideapreneurs operate out of 49 countries. For more information, visit www.hcltech.com
