Maximize the value of your SAP environment with HCL & Red Hat

Intelligent Enterprises depend upon SAP environment for essential processes and data. HCL is here to help you migrate your SAP workloads to Red Hat Enterprise Linux (RHEL), to enhance your SAP environment and operations while preparing you for the future. Through trusted technologies, investment security, and flexible innovation, HCL helps you modernize your SAP systems on RHEL and build a foundation for digital transformation.

Key Features

- Lower the risk from outages of essential services with built-in business continuity including the advanced high availability solution, automated data recovery and improved security.
- Foster innovation for new service delivery by reducing the complexity of infrastructure management with automation features that frees the system administrators from routine maintenance.
- Minimize the time and effort to transition to SAP S/4HANA and deploy SAP landscapes with a unified platform that includes application installation and superior support.
- Leverage public cloud features, advantages and PaaS services to deploy your SAP workloads on public cloud instances.

Benefits

Reliability Deliver 99.999% up-time to your enterprise users	**Scalability** Handle the most demanding workloads and scale to handle petabytes of data	**Innovation** Customize your environment and innovate more easily with complementary products from SAP, Red Hat	**Performance and Security** Protect your business with advanced, built-in security

Why RHEL for SAP?

Intelligent enterprises are built on the foundation of innovation and a rich portfolio of flexible solutions that enable digital transformation. Here's why Red Hat Enterprise Linux platform should be your choice for optimizing your SAP environment and becoming an intelligent enterprise.

Keep your SAP environment running with world-class support

More than 25 years of experience in full-stack operations

Reduce risk with a standard, community-accepted product

Red Hat Enterprise Linux® for SAP solutions is based on the general Red Hat Enterprise Linux release and inherits its reliability, quality assurance, and certifications

Build a foundation for future transformation

Some SAP apps such as Data Hub and Hybris are already certified on Red Hat OpenShift and more SAP solution components are in the roadmap for containerization and certification on Red Hat OpenShift.

Validated, certified, and jointly engineered foundation

Red Hat Enterprise Linux for SAP solutions is tested and certified for SAP S/4HANA® and includes SAP-specific features and content

THE HCL EDGE – HCL's SAP Advantage

HCL has been a global strategic partner to SAP for over 20 years. HCL is a services and license resell partner, co-innovating with SAP in the areas of SAP Leonardo, Blockchain, and S4/HANA.
