

HCL ASSURES

AMERICA'S LEADING DIAGNOSTIC COMPANY

FOR A DEFECT-FREE AND TIMELY DELIVERY OF PROJECTS THROUGH IT TESTING SERVICES

CLIENT DESCRIPTION

A leading American diagnostics company, offering a broad range of routine and esoteric testing services used by the medical professionals in the diagnosis, monitoring, and treatment of diseases and other medical conditions.

BUSINESS OBJECTIVES

- To enhance the efficiency and capacity of the existing enterprise applications that support day-to-day activities
- To have centralized platforms for client and patient data
- To reduce manual interventions by enhancing the existing automation framework through code optimization

HCL SOLUTION

HCL carried out the following tasks:

- Contributed to test case creation, execution and UAT
- Conducted cross functional training sessions to explore different applications and identify new areas
- Involved both the offshore and onshore teams in knowledge sharing and identification of areas with scope for testing
- Created the Proof Of Concept (POC) for CMDM project to automate the regression suite with the help of the automation team.
- Created the POC for the new application (Rosetta) for the client
- Optimized code to enhance the existing automation framework and reduce manual interventions and script execution time

KEY ENGAGEMENT HIGHLIGHTS

- The client appreciated HCL's effort in fine-tuning the Automation Suite, which had drastically reduced execution time of automation testing.
- The POC for MDM to automate the regression suite and reduce execution time was well received by the client.

BUSINESS BENEFITS:

- Reduced execution time and effort
- Utilization of key resources across various projects that helped in resolving automation and application issues.
- Defect-free and timely delivery of project deliverables
- Knowledge transfer sessions for onsite resources
- Cross functional trainings that helped resources gain a complete understanding of the client's product portfolio.
