

HCLTech Accelerate for Finance

Implementation accelerator
for Microsoft Dynamics 365
Finance

HCLTech has a strong and sustained reputation for delivering powerful tools that streamline and accelerate Dynamics 365 implementations.

The HCLTech Accelerate for Finance solution is designed specifically for Dynamics 365 Finance, cutting your implementation time in half. You'll be fully up and running in less than 4 months instead of the typical 6-8-month implementation timeframe with other Microsoft partners.

How does it work?

- HCLTech Accelerate for Finance is a prebuilt solution with supporting business processes and documentation for rapid deployment of the Core Financial Management system within Dynamics 365 Finance.
- Its standardized best-practice configuration aligns tightly to the needs of the modern Finance department, regardless of industry or organization size.
- Implemented as a standalone finance solution or as the foundation for expanded functionality across all areas of the business, this fully configurable solution reduces the time and resource requirements for deployment.

Why Dynamics 365 Finance?

Have a strategic impact
on your business while reducing costs

Enhance
your financial decision making and limit risk exposure

Unify and automate
your business processes

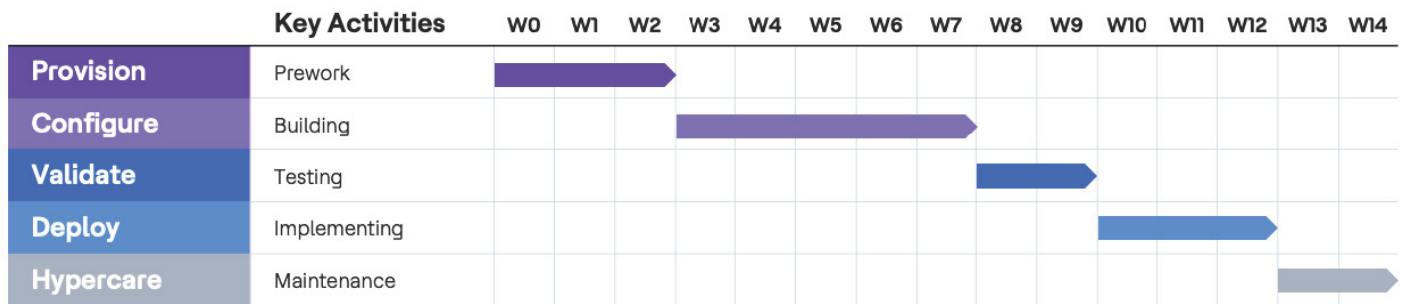

HCLTech Accelerate for Finance shrinks the timeline for full deployment of Dynamics 365 Finance from 6-8 months to less than 4 months.

It's why we like to say:
in short order, *you'll go from **ZERO** to **HERO** in your organization!*

Can my business truly get from 'Go ahead' to 'Go live' in just 14 weeks?

Absolutely. But you don't have to take our word for it – here's a visual timeline of a typical deployment done with HCLTech Accelerate for Finance:

Project Governance (Compliance)

Together, HCLTech's proven process for Dynamics 365 implementations and our lightning-fast Accelerate for Finance solution enable a seamlessly speedy deployment.

Accelerate for Finance's in-scope **finance functions**

- | | |
|-----------------------------|------------------------|
| Budgeting | Credit and collections |
| Procurement and sourcing | Consolidations |
| General ledger | Purchase ledger |
| Sales ledger | Financial reporter |
| Power BI embedded reporting | Treasury management |
| Fixed Assets | Tax |

Accelerate for Finance can be implemented as a standalone finance solution with all the in-scope functions listed. Alternatively, if your organization's objective is to establish a fully functional foundation for an expanded solution that will eventually span your entire business, Accelerate for Finance's in-scope components are precisely what you need to build that strong base.

Is your business considering a digital transformation with Microsoft Dynamics 365 Finance?

Our Microsoft Dynamics 365 Finance experts are ready to help. HCLTech has a proven track record for developing powerful accelerator tools for Dynamics 365 implementations – and Accelerate for Finance is arguably our most robust and far-reaching tool yet, so our team is excited to demonstrate it for you.
