

# Compounding digital with Alteryx-based Centre of Excellence

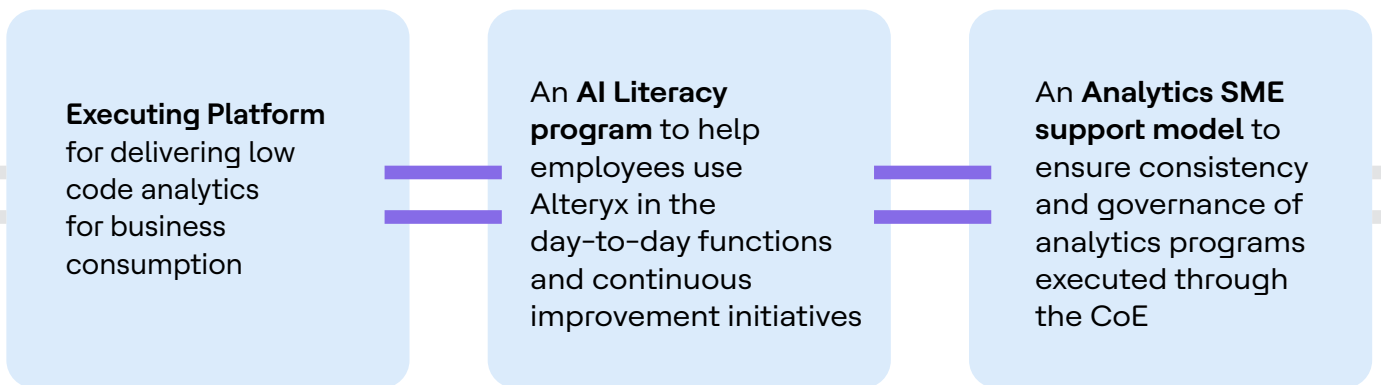

# Introduction

HCLTech has developed an Alteryx-based Centre of Excellence (CoE) framework to help clients deliver self-service analytics to their employee and analyst base.

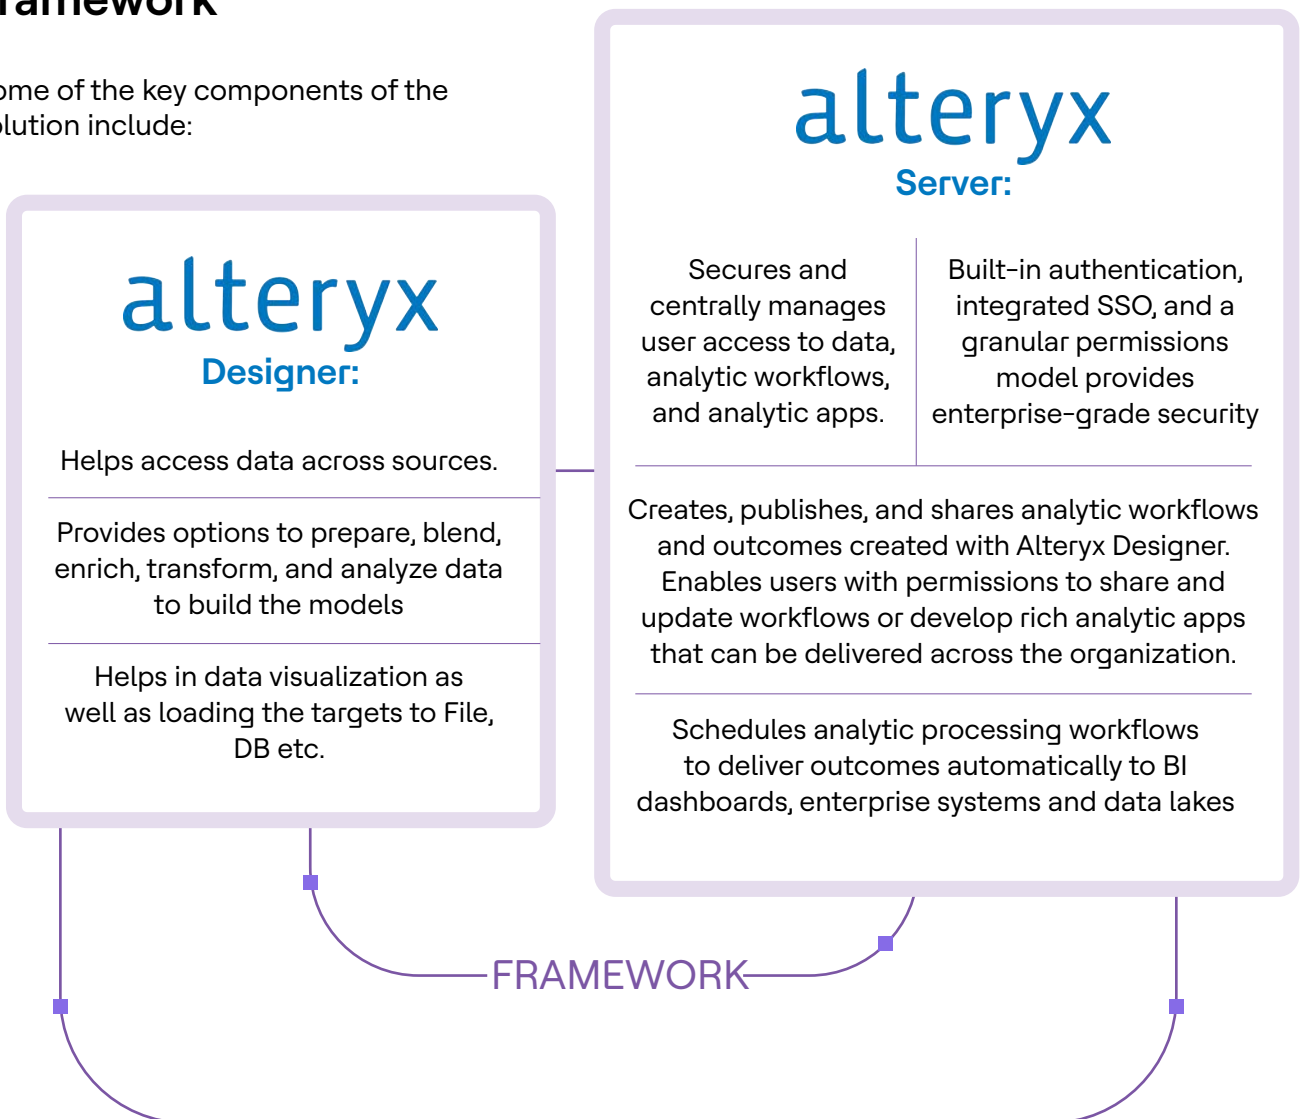

## About the solution

HCL Tech self service CoE delivers all-round capabilities that help the organizations improve the performances:

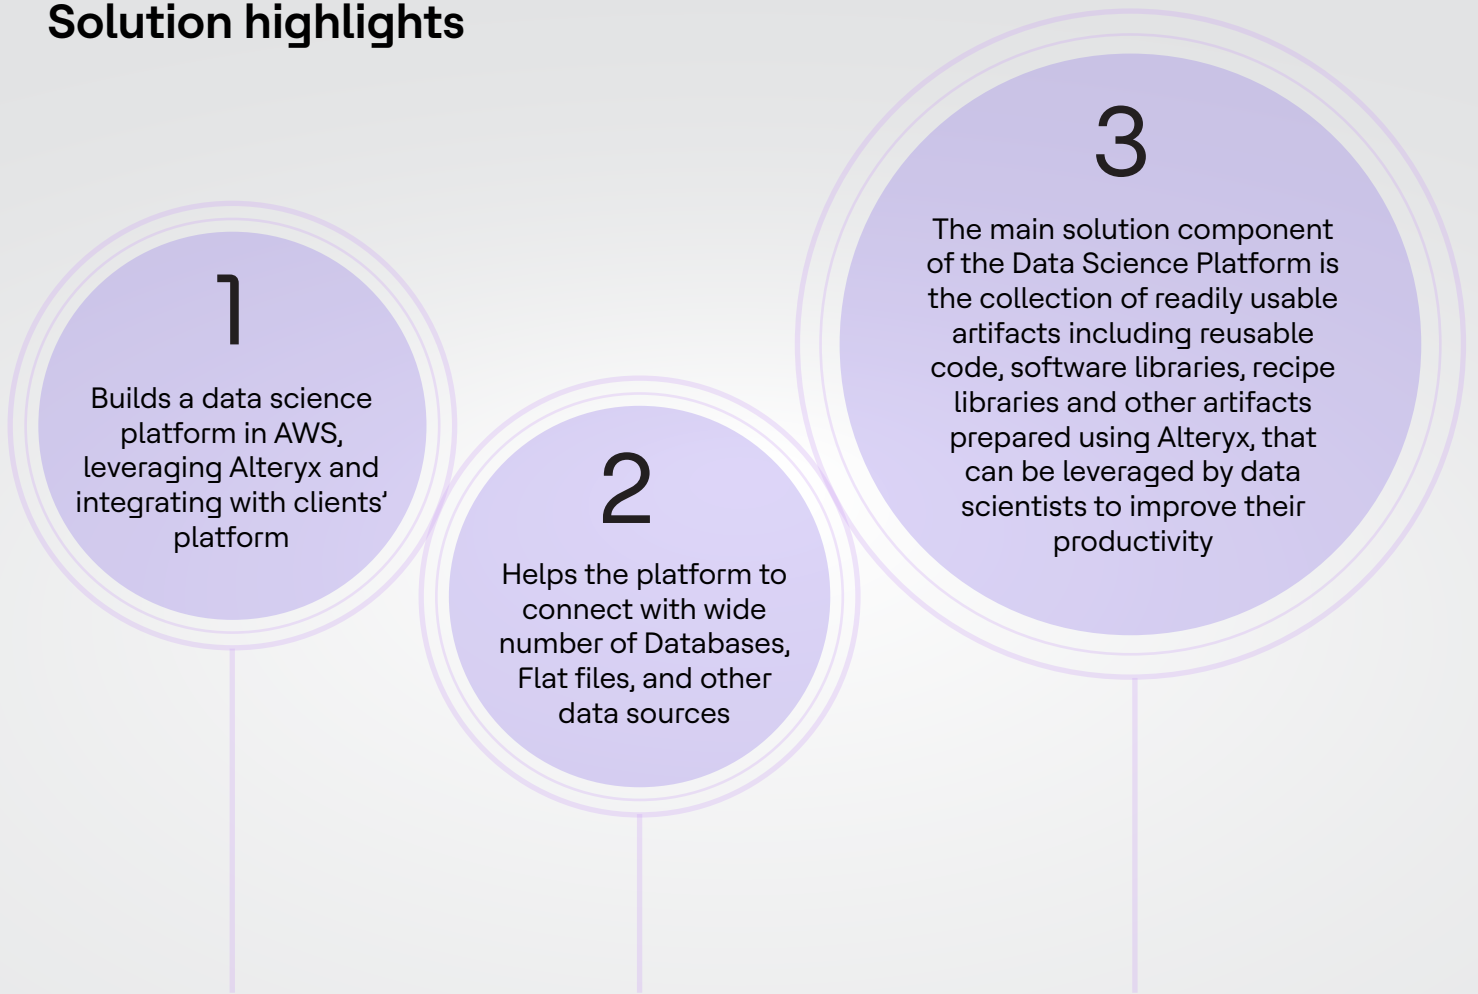

## Framework

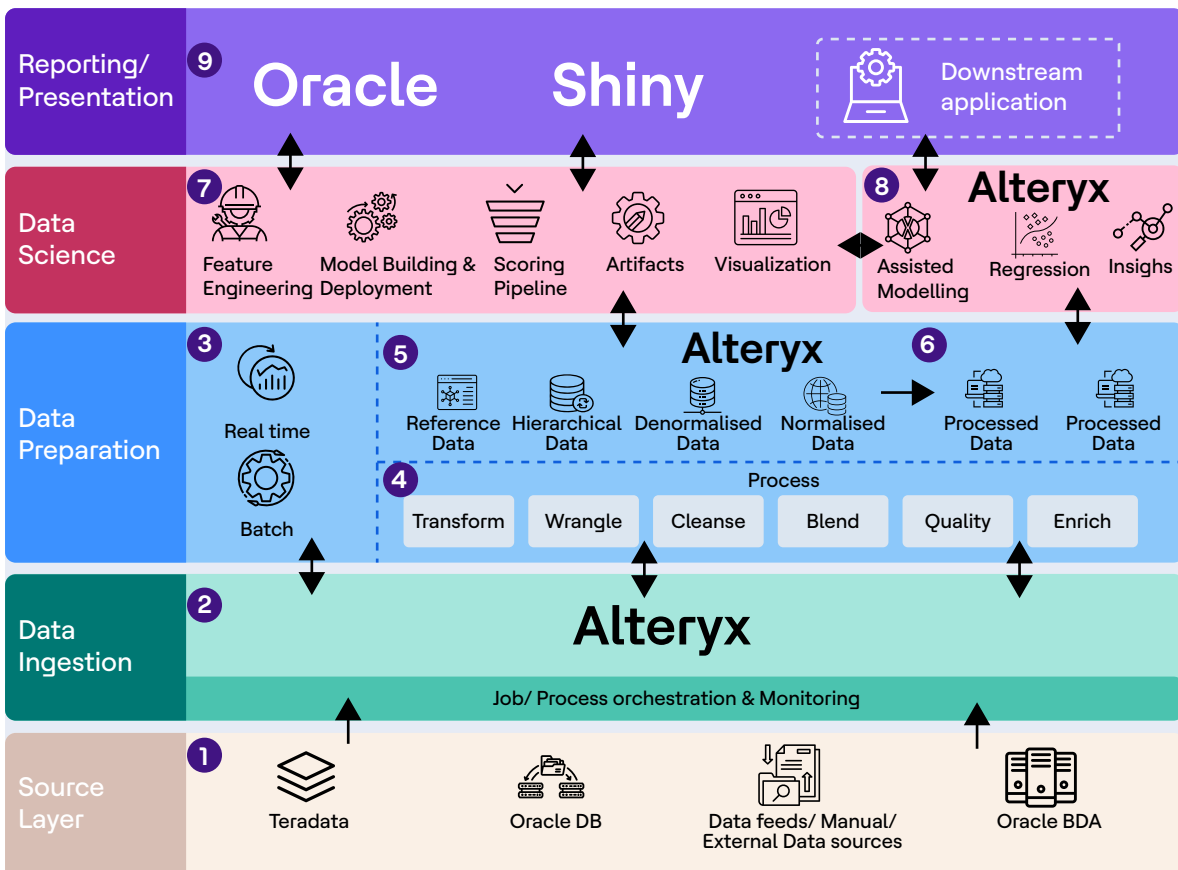

Some of the key components of the solution include:

# Solution highlights

# Solution design

## Business highlights

HCLTech has implemented an innovative hiring and training process to guarantee the availability of the industry-best talent for our Kinaxis integration vertical. To ensure that our resources are adequately trained to work on the Kinaxis RapidResponse platform, we have set up an innovative academy in collaboration with Kinaxis. The HCLTech Kinaxis Academy aims to certify employees as Kinaxis experts through internal programs and initiatives, and has the following salient features:

Leverage the platform built with Alteryx to reduce time and effort involved in developing and testing machine learning models

Provided customer-centric dataset templates, which are being utilized for the model training and re-training

Platform helps to scale out the workers by creating multiple worker nodes, which will increase the total number of concurrent workflows, that can be processed within a given time

Load balancing in the Alteryx Server handles increased load in the gallery

# HCLTech | Supercharging Progress™

HCLTech is a global technology company, home to 219,000+ people across 54 countries, delivering industry-leading capabilities centered around digital, engineering and cloud, powered by a broad portfolio of technology services and products. We work with clients across all major verticals, providing industry solutions for Financial Services, Manufacturing, Life Sciences and Healthcare, Technology and Services, Telecom and Media, Retail and CPG, and Public Services.
