

SmartPaaS

Reap greater business value with the right approach to PaaS adoption

Your business needs to stay competitive and innovate quickly amidst the worldwide rapid digitalization. Therefore, you need a shift towards cloud computing models such as PaaS. Among the various factors driving PaaS adoption, the relentless pursuit of agility is one of the most essential.

The growth in PaaS adoption can also be attributed to the growing business need for enhanced productivity and sustainability. And an urgency to replace legacy systems with modern alternatives.

IDC predicts the global PaaS market to achieve a

CAGR of 28.7%
over the five-year,
2022-2026 period.

Key challenges in PaaS adoption

- Lack of skilled resources
- Complexity in application migration due to high cost and the requirement of additional efforts
- Need for standardization to prevent siloed adoption and costly misconfigurations

Driving business value and agility with SmartPaaS

SmartPaaS is HCLTech's one-stop hybrid and multi-cloud transformation offering that helps simplify and standardize the adoption and consumption of PaaS platforms. It covers cloud native PaaS services, middleware and data analytics platforms. The offering facilitates workload modernization across these platforms to empower enterprises to embrace latest technologies at scale and speed.

Our offering includes:

Advisory services

- Platform adoption roadmap
- Selection of the right platform and ecosystem components
- Optimization and modernization roadmap

Migration and modernization services

- Platform design and setup
- Platform consolidation and standardization
- Workload modernization with migration to next-gen platforms

Assessment services

- Platform maturity assessment services
- Operational and architectural audits

Design and build services

- PaaS/CaaS platforms
- Databases and data analytics platforms
- Middleware platforms

Benefits of SmartPaaS

80%

improvement in project timelines and efficiency

Reduced technology debt with modernization with the adoption of **next-gen** platforms

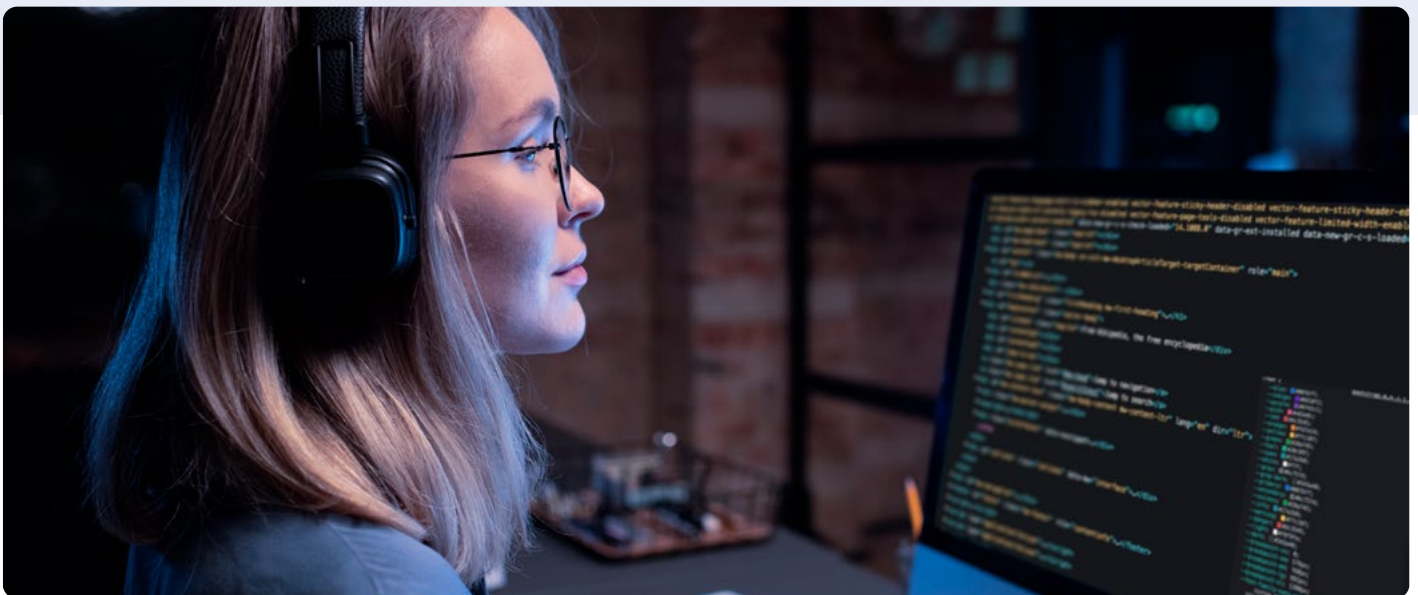

Assured

compliance and **security**

Flexible and **transparent** commercial models

Why HCLTech

- A leader in all analyst reports for cloud (IDC, Everest Group, ISG, Avasant and Gartner)
- HCLTech Cloud Native Labs across multiple locations to accelerate the modernization journey of organizations
- Platinum membership with Cloud Native Computing Foundation (CNCF)
- Kubernetes Certified Service Provider (KCSP) with deep expertise in Kubernetes consulting, professional services and training
