

Envision a cyber-resilient enterprise with **HCLTech VaultNXT**

The cyber threat landscape has become more sophisticated than ever. Ransomware attacks, the most common form of cyber threats, are threatening even the biggest organizations.

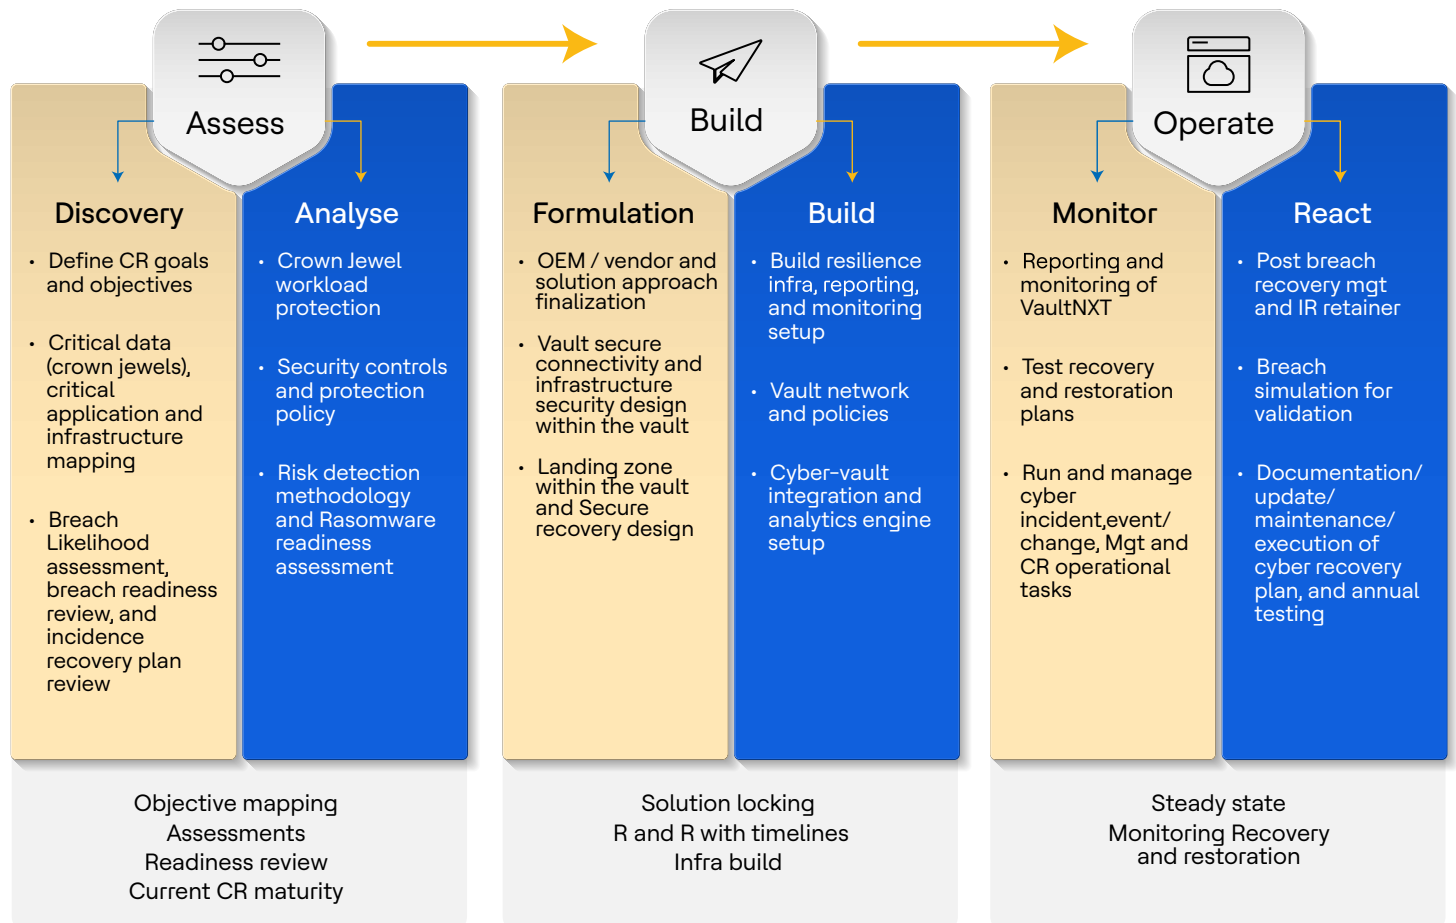

Updated trend: Worldwide cybercrime costs are estimated to hit **\$10.5 trillion** annually by 2025, emphasizing the need for enhanced cyber recovery measures

VaultNXT: Eliminate the threat of ransomware attacks

HCLTech VaultNXT enables organizations to make the leap from threat prevention to a holistic cyber security strategy that ensures end-to-end protection. The solution counters ransomware attacks by using a multi-layered approach, mitigating damage while protecting critical data and enabling recovery with assured data integrity.

Offering overview

Key features

-  Vendor neutral approach for identifying the best fit tool
-  Crown jewel data identification
-  Airgap isolation
-  CR incidence response strategy
-  Scalable security controls
-  AI/ML-based risk detection
-  Proactive golden copy validation
-  Hybrid deployment model
-  GenAI assistant
-  Real time threat detection
-  End-to-end managed service delivery and flexible pricing model

Key benefits

-  Proactive identification, actionable recommendations and threat detection using AI/ML
-  Stringent recovery process even in situations where cyber ransomware compromises backup data
-  Secured and validated data for ensuring recoverability
-  Identifying and mitigating risk of evolving cyberattacks
-  Develop and deploy a mature cyber recovery strategy
-  Establish robust cyber recovery strategy, beyond standard disaster recovery plans, to ensure business continuity.

Success stories

Leading Insurance provider company

Implemented a secure, scalable solution enhancing data security, ransomware protection, cost efficiency and disaster recovery.

Sweden-based Telecommunication company

Implemented a modern backup solution, reducing failures, enhancing security and streamlining backups with lower TCO and improved SLAs.

Why HCLTech
