HCLTech received the highest customer rating (4.7 out of 5) and the highest number of reviews (45) among all service providers recognized in the report. Over the 18 months ending January 31, 2025, 92% of the customers expressed their willingness to recommend HCLTech in their reviews.

"A resilient network is the digital backbone of every successful enterprise," said Jagadeshwar Gattu, President of Digital Foundation Services at HCLTech. We feel this recognition underscores our efforts to deliver business-aligned solutions with agility and confidence."

As stated by Gartner, "The 'Voice of the Customer' is a document that synthesizes Gartner® Peer Insights™ reviews into insights for buyers of technology and services. This aggregated peer perspective, along with the individual detailed reviews, is complementary to Gartner® expert research and can play a key role in the buying process. Peers are verified reviewers of a technology product or service, who not only rate the offering, but also provide valuable feedback to consider before making a purchase decision."
