

HCL Technologies to Provide Engineering Services for Bergstrom's HVAC Products

Multi-Service, multi-year, multi-location contract to include engineering change management, value engineering, product design and analysis

Sunnyvale, CA – July 10, 2008: HCL Technologies Ltd. ("HCL"), India's leading global IT services company, today announced it has been awarded a new multi-year, multi-location, multi-service contract with Bergstrom Inc., a global leader in the design and supply of climate systems to the commercial vehicle industry. Under the terms of this three-year contract, HCL will provide engineering change management, value engineering, next generation product design and computer aided engineering (CAE) analysis for Bergstrom's Heating, Ventilation and Air Conditioning (HVAC) products.

"Our partnership with Bergstrom demonstrates our deep engineering expertise specific to HVAC and mechanical systems," explained Sandeep Kishore, senior vice president and head of hi-tech and manufacturing at HCL Technologies. "Bergstrom was looking to expand into new markets, including India and our understanding of products required for the emerging markets like India and capabilities in designing cost-effective products was very helpful to them."

HCL will leverage its next-generation HVAC R&D Lab and Workshop in Bangalore, India, to provide Bergstrom with new features development for the company's existing product portfolio. The engagement will later expand to support next generation product design as well. Similar services will be provided to Bergstrom's UK operations.

"HCL's HVAC R&D Lab is a testament to the company's expertise and investment in this space," said Paul Von Driska, vice president of strategic planning at Bergstrom. "By partnering with HCL, we now have a global team of dedicated and experienced engineering professionals allowing us to improve our time-to-market and ultimately furthering our competitive advantage," said John Bracey, Vice President Engineering and New Product Development at Bergstrom.
