## HCL releases BigFix 10: Bringing new innovations to the industry's most comprehensive endpoint management platform

**New York, NY, and Noida, India, March 23, 2020** – HCL Technologies (HCL), a leading global technology company, today announced of BigFix 10, a major new release of the industry's leading endpoint management platform, to be generally available in April 2020. BigFix 10 is the only endpoint management platform that enables IT/Security Operations to fully automate discovery, management and remediation, whether it's on-prem or cloud, regardless of location or connectivity. Unlike complex tools that cover a limited portion of your endpoints and take days or weeks to remediate, BigFix can find and fix all endpoints faster than any other solution.

BigFix 10 innovations include:

- **BigFix Insights™:** Enables organizations to quickly visualize risk as well as costs, while easily finding the endpoint issues that matter most, to drive action throughout the organization. The results are quick responses, streamlined processes and improved security posture.
- **Modern Client Management:** Enables the consolidation of multiple vendors, cost reduction and complexity while managing Windows 10 and MacOS endpoints with simple enrollment and policy management.
- **Multicloud Management:** Enables administrators to have full 360-degree visibility, control and compliance enforcement of both cloud and on-premise endpoints from a single solution.

“BigFix enters a new era of unified endpoint management with the inclusion of Insights, Modern Client Management, and Multicloud Support. This enables companies to more effectively manage and report on all endpoint devices from a single solution at scale,” said Darren Oberst, CVP and Head of HCL Software, a division of HCL Technologies. “By simplifying endpoint management and compliance, which improves operational efficiency and reduces costs, BigFix 10 also demonstrates HCL’s commitment to providing tangible business value.”

“This first major release of BigFix, under HCL ownership, demonstrates that HCL is ready to invest and that it understands what’s needed to ensure BigFix can continue to discover, analyze, manage, and secure the modern, rapidly changing, endpoint landscape,” said Dave Gruber, Senior ESG Analyst.

### About HCL Technologies

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three business units - IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations and next generational digital transformation solutions. ERS offers engineering services and

solutions in all aspects of product development and platform engineering. Under P&P, HCL provides modernized software products to global clients for their technology and industry-specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences & Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability and education initiatives. As of 12 months ended December 31, 2019, HCL has a consolidated revenue of US\$ 9.7 billion and its 149,000 ideapreneurs operate out of 45 countries.
