

eFleet Management System (eFMS) Virtualize the Fleet

What is eFMS?

eFMS is a web-based Fleet Management System with state-of-the-art functionalities:

- Geo-Fencing
- OTA security
- Vehicle Telematics
- Real-time job dispatch

The goal is to enable organizations to optimally manage their fleet and operations and maximize vehicle utilization and customer satisfaction. Read on to explore the power of 'Virtualization'.

WHY DO YOU NEED IT?

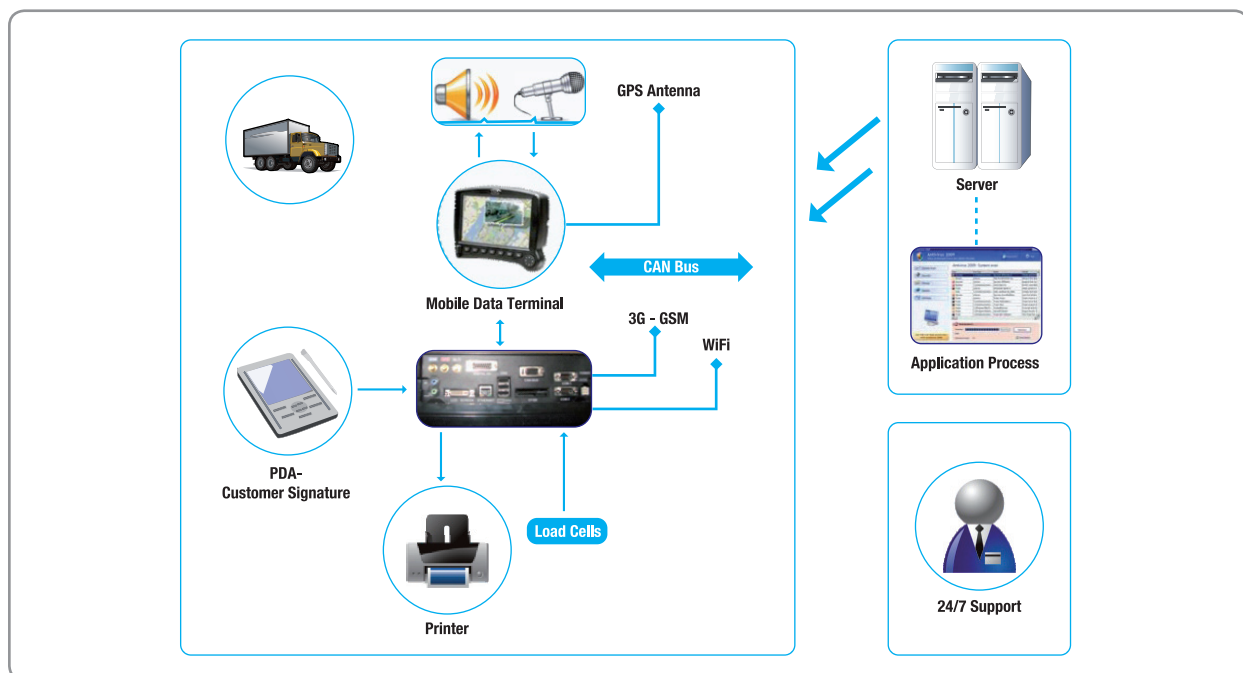

- Can you pin-point the exact location of a vehicle on a map/ route?
- Are you able to maximize vehicle utilization and minimize empty runs of your fleet?
- Can you predict and track real-time job execution status and provide the same visibility to your customers?
- Are you able to execute jobs for your customers as quickly as they demand it to be done?
- Are you able to control/ impose restrictions on driver behavior?
- Are you able to manage health, maintenance and safety of your mobile assets in a predictive manner?

If you are still reading this, then you need HCL's eFMS.

This is about a system that optimizes fleet utilization, reduces fleet running costs, maximizes security and safety of mobile assets, tracks health and safety of mobile assets, enables controlling driver behavior and enables quick response to customer requests and orders.

WHAT ARE THE BENEFITS?

- Visually track the exact location and retrieve all details about the vehicle and the job under execution with the click of a button
- Optimize fleet operations and reduce fleet running costs
- Meet customer demands on stringent delivery dates and provide improved service to your customers
- Enhance security for valuable cargo and mobile assets
- Reduce TCO and optimize lifetime of mobile assets and components through predictive repair/maintenance

Hello, I'm from HCL! We work behind the scenes, helping our customers to shift paradigms and start revolutions. We use digital engineering to build superhuman capabilities. We make sure that the rate of progress far exceeds the price. And right now, 85,000 of us bright sparks are busy developing solutions for 500 customers in 31 countries across the world. **How can I help you?**
