

# HCL **ADVISOR**

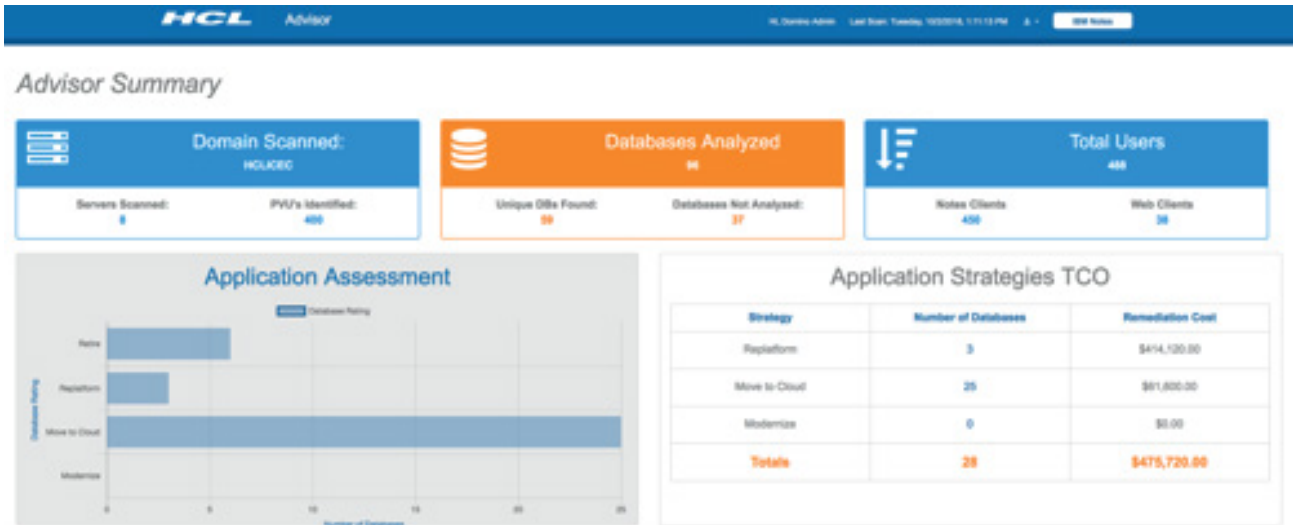

Outcome Focused Analytics and Decisions to put our Domino Customers' in the Driver's Seat

- Are you're a customer burdened with deciding what to do with your Domino application environment?
- Have you previously run inventory assessment tools on your Domino environment only to be buried in data with no plan forward?
- Does your Domino applications environment need to be rationalized and optimized either on premise or in the cloud?
- Does your business want to optimize it's Domino licensing model?
- Do you need to understand the cost of various options for your Domino applications including re-platforming, migrating to the cloud and modernizing?
- If you answered yes to any of these questions, HCL Advisor can help

# HCL ADVISOR

HCL Advisor is a tool for analyzing your environment. It provides detailed inventory analysis, usage, design and configuration harvesting of your current on-premise or cloud provider environment.

**FREE ANALYTICS AND DISCOVERY TOOLING**

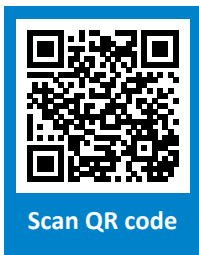

Available to Customers moving to HCL Cloud Apps SaaS Service.

**ADVISES ON DOMINO APPLICATION DECISIONS**

Provides clear recommendations on what to do with Domino applications and associated effort.

**LIVES IN THE CLOUD**

The data you collect on-premise continues to be collected in HCL Cloud Apps via the Cloud Apps Dashboard for all HCL customers
