## HCL'S O&G PRACTICE

EXPLORATION/ PRODUCTION	OFS/ EPC	MIDSTREAM & DOWNSTREAM/ PETROCHEMICALS
• Cloud Assessment and migration of Upstream Exploration and Production Applications for a Supermajor	• End to End Asset visibility via HCL's iMRO and enabled AIN for one of the largest OFS providers	• Reduced shutdown turnaround time and integrated LAM solution for one of the largest refiners in the US
• Low Power Sensors for monitoring Shale production for the Production company of a Supermajor	• Intelligent, intuitive interactions between enterprise platforms using composable IT for an OFS provider	• S4/ Hana Cloud Implementation for a leading regulated Chemical company
• HPC support for one of the largest Integrated Oil companies in Europe	• Strategic Co-Managed Services model to support global IT & F&A services at lower cost for an EPC major	• Cognitive Bot as the first line of support for all end users for the Chemical division of a Super major
• AR/ VR technology for user support in platforms for a Supermajor	• Enhanced Safety via Smart helmets that meet the regulatory compliance for a global mining company	
• RPA to enhance workforce productivity in spend management for a State owned Oil company in APAC		

2200 PEOPLE	2 OF 6 SUPERMAJORS 2 OF TOP 4 OFS LARGEST US REFINER	DIGITAL PARTNER OF CHOICE
