Powering Possibilities in Education

HCL has more than **15 years** of footprint in the Education and Publishing space powered by **2500+** experienced practitioners. We have extensive experience across Publishing & Education landscape (K-12, Higher-Ed, Universities & Assessment Boards and Professional Learning). HCL has architected and delivered solutions for Content, Sales & CRM, Cloud-first Digital Learning Management system, Editorial systems, Classroom management solutions etc. Our forté lies in Digital Learning, Interactive Learning, Personalized Content, Student Analytics and Smart Campus.

In the Education domain, HCL's Applied AI, OTT, Analytics, IoT, and cloud native solutions power institutions to accelerate and develop new experience-centric and outcome-oriented integrated offerings, in exciting new areas of teaching. Our unique suite of products and services provides a competitive edge to the institutions. HCL adopts differentiating next-gen technologies by investing in cutting-edge solutions such as Smart Campus Solutions, Remote Proctoring, Predictive & Prescriptive Analytics for dropout prevention, and many more.

Smart Attendance

Transforms the traditional attendance record process by AI enabled engine:

- Facial recognition for attendance
- Dashboard and report generation to give attendance overview
- Powerful insights for co-relation between student's attendance and performance

Remote Proctoring

AI enabled remote proctoring to capture unfair incident:

- Captures sound, background activity and movement detection
- Raises alert in case of unfair means
- Stores data safely in a highly secured environment

Social Enterprise

Integrated LMS for determining potential student drop-out:

- Indicates potential dropout/failure case based on current and historical data of students' cognitive skills, customizable list of non-cognitive skills, and socio-economic background
- Recommends remediation of a high-risk student
- Tracks progress
