# SAFE Sense

powered by HCL Fluid Workplace

Precision focused contactless workplace solutions to bring your essential workforce Back to Office

# THERMO Sense

## Contactless, Precise Elevated Body Temperature (EBT) Solution

### Key Important Features

Detects body temperature which could be indicative of fever (Early indication)

Most accurate technology: temperature detection at tear ducts

Precise, contactless streaming process for large population

Can measure accurate temperature from 2-10 ft. distance

Time for screening temperature: 1-3 seconds

Secondary check with 'Average Rolling Daily Temperature'

Visual/audible alarming system

Personalized Pass/Fail messages

Store videos/thermal images with post-analysis

Standard Excel report generation

Single charging source to power complete setup

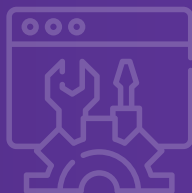

Provides exceptional image quality with up to 640 x 480 with superior measurement accuracy as per FDA requirement

2-year camera warranty

### Out-of-the box components

- Thermal imager
- PC/Monitor
- Alerting & monitoring software
- Reference Emitter
- Structural Kiosk

# DIST Sense

## Smart ID Card Holder powered social distancing and contact tracing solution

### Ensure safe social distancing for returning employees

- Visual Warning if proximity limit breached
- Critical Incidents identified and logged
- Sync data by coming within range Beacon Gateways
- Cloud or On-prem hosted monitoring dashboard
- Targeted notifications using the optional mobile app
- Works with your existing ID Badge
- No dependency on mobile application installation or Wi-Fi connectivity for functioning

Equip your workforce with **Smart ID Badge holders** to make enterprise **social distancing** visibly successful

Awareness

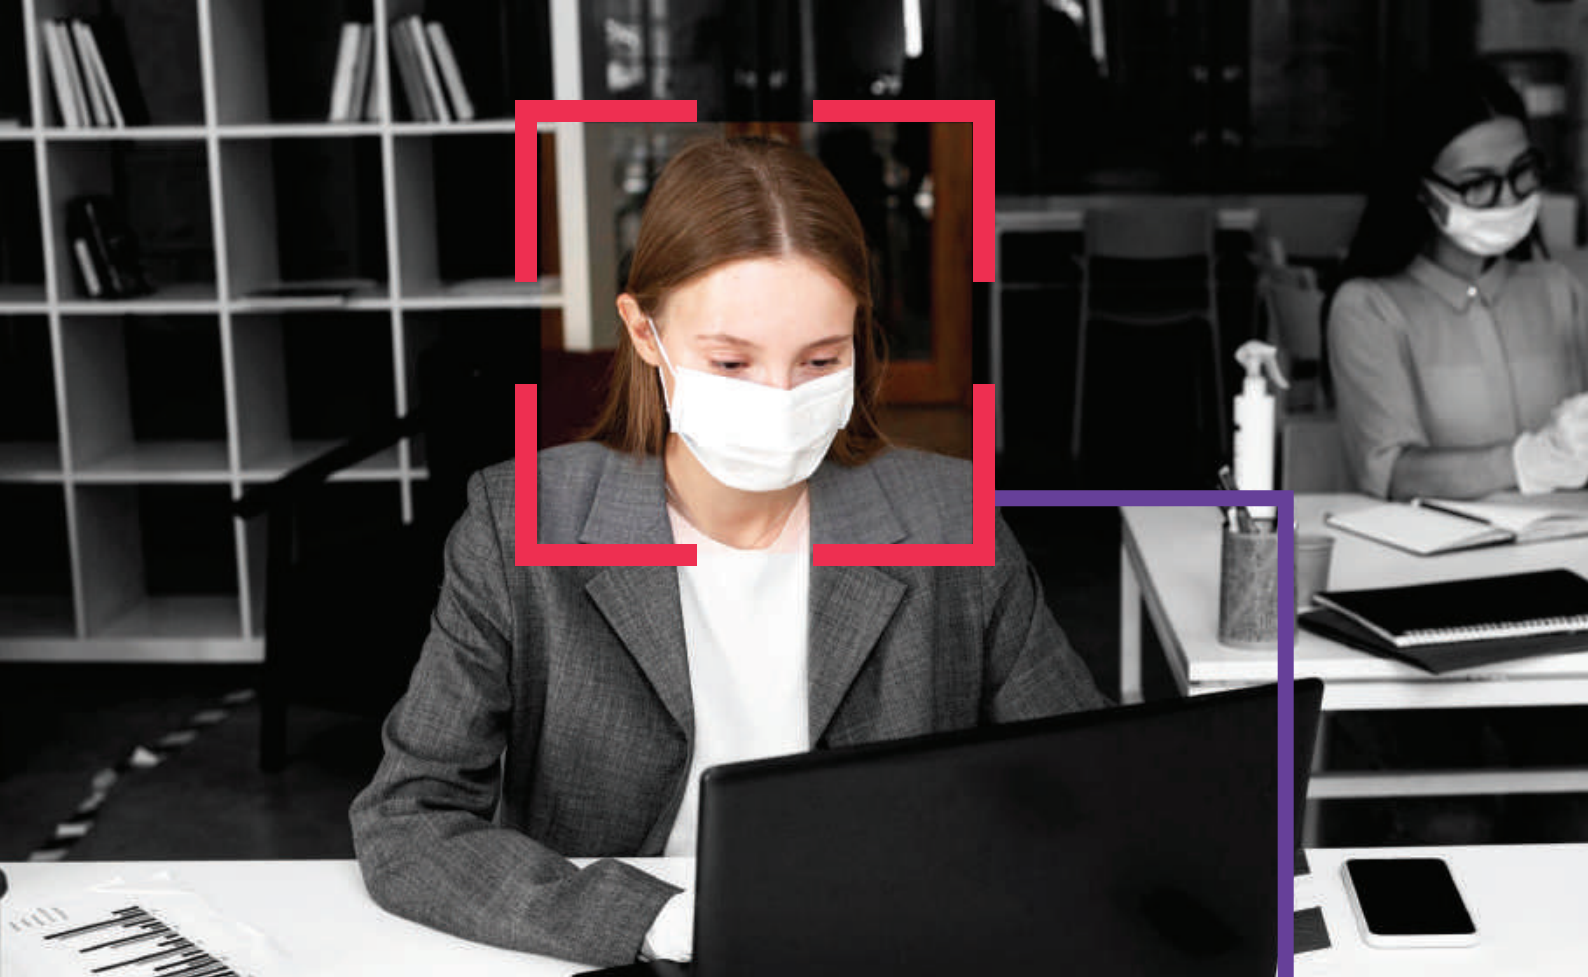

Monitoring

Tracing

# VISION Sense

## Computer vision powered Face Mask detection

Leverage the power of computer vision to detect faces of employees/customers without face masks and take corrective measures

Works with any type of camera

Realtime alerts and notifications

Calculate the effectiveness of awareness campaigns

Identifiable and Non-identifiable notifications

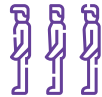

Can integrate with other solutions leveraging cameras

# QUEUE Sense

## Enterprise Digital Queuing solution to avoid crowd accumulation at bottlenecks

Ensure unobstructed workforce-flow without physical queues

### Queue Manager

A progressive web app. It can be used on both iOS and Android phones and tablet or desktop computers, allowing for instant roll-out to multiple locations.

### Analytics dashboard

Access real time business intelligence reports and dashboards to understand how the queuing process is functioning and how the ticket booking systems are being used by people

### Instant deployment

Cloud-based solution which enables efficient and productive management of queues digitally without contact

### Future proof

QueueSense can integrate with MS Teams, digital signage, touchscreens, loyalty mobile applications and even run in offline-mode in the premises

# OCCU Sense

## Flexible Workspaces And Occupancy Management Solution

Track and monitor occupancy levels

Use space more efficiently & save

Ensure sanitization status & then allow booking

Close unsafe spaces to ensure safety

Set work status - WFH or Office

Limit employees by applying business rules

Enable employees with "Flexible Workspaces"

### WHY?

1

HCL's OccuSense is an Automated Workspace Booking & Occupancy Control Solution that enables employees to book desks, meeting rooms, parking space & find colleagues and enterprises to manage occupancy limits

Enterprises around the world must comply with government guidelines and restrictions on the number of people that can gather in an area at a given time

2

# WORK Sense

Contact free IT services to eliminate risks while upholding experience

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy, through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses to transform into next-gen enterprises.

HCL offers its services and products through three lines of business - IT and Business Services (ITBS), Engineering and R&D Services (ERS), and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations, and next generation digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P. HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities, and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences, and Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability, and education initiatives. As of 12 months ending on June 30, 2020, HCL has a consolidated revenue of US\$ 9.9 billion and its 150,000 ideapreneurs operate out of 49 countries.
