

Transform Experience Transform Business

Aerospace & Defense
Model Based Enterprise 2.0

HCL Aerospace & Defense Story

20+ years experience in delivering business transformation programs for A&D industry leaders

Delivered 75+ SAP implementations to A&D clients worldwide

- 8 of 12 business jet and helicopter manufacturers that run SAP
- 15 of the top 20 Aerospace and Defense companies

Strong proven experience for strategy and implementation with Connected Machines, Industry 4.0 and Model Based Enterprise 2.0

Deep understanding of business functions that intersect and support core functions of engineering, and manufacturing operations within Aerospace and Defense enterprises which include - Production Control Logistics (PCL), supply chain and solution approaches that are needed in SAP (ERP) and reporting/analysis tools

Led development of iMRO, SAP's industry solution for aerospace MRO

SAP Pinnacle Award for Co-Innovation (2018)

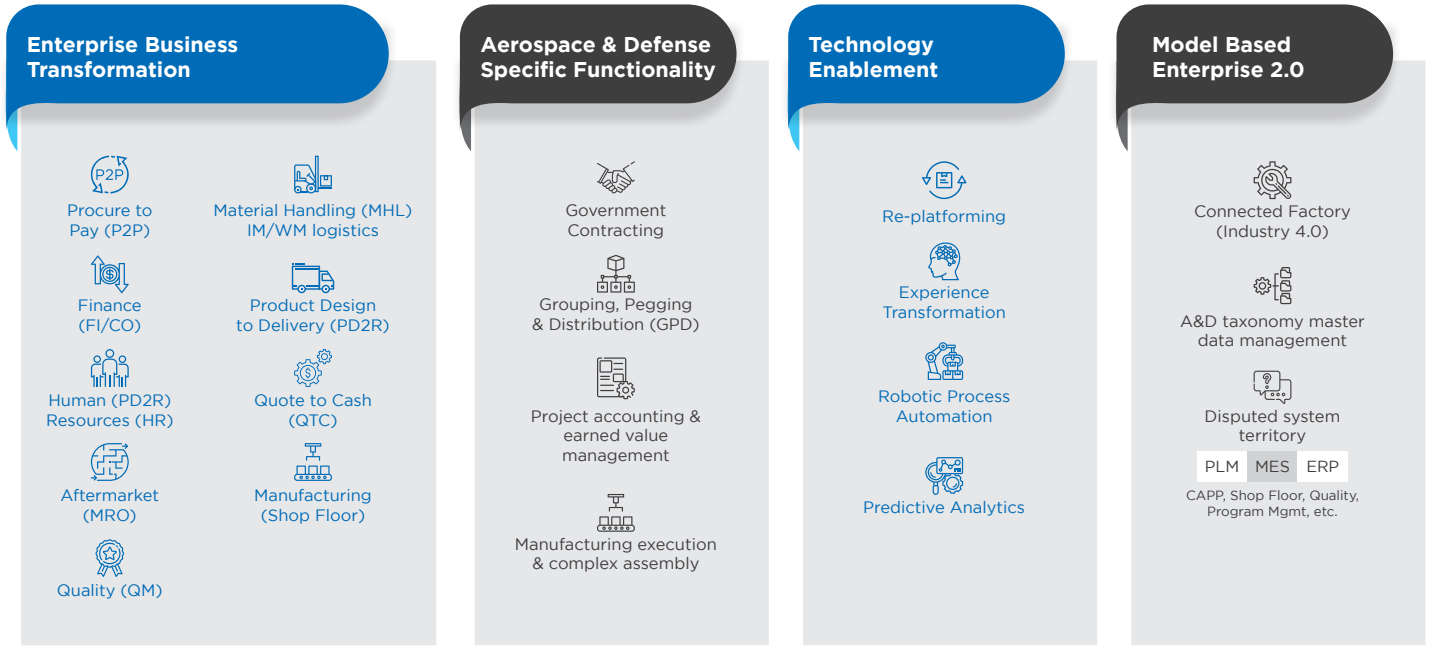

HCL is changing the way users are performing their everyday jobs by

- Creating new frictionless and intelligent processes
- Implementing responsive and fluid UIs, RPA, chat bots, voice interaction, and augmented reality
- Implementation of braided design methodology

Business Transformation Expertise

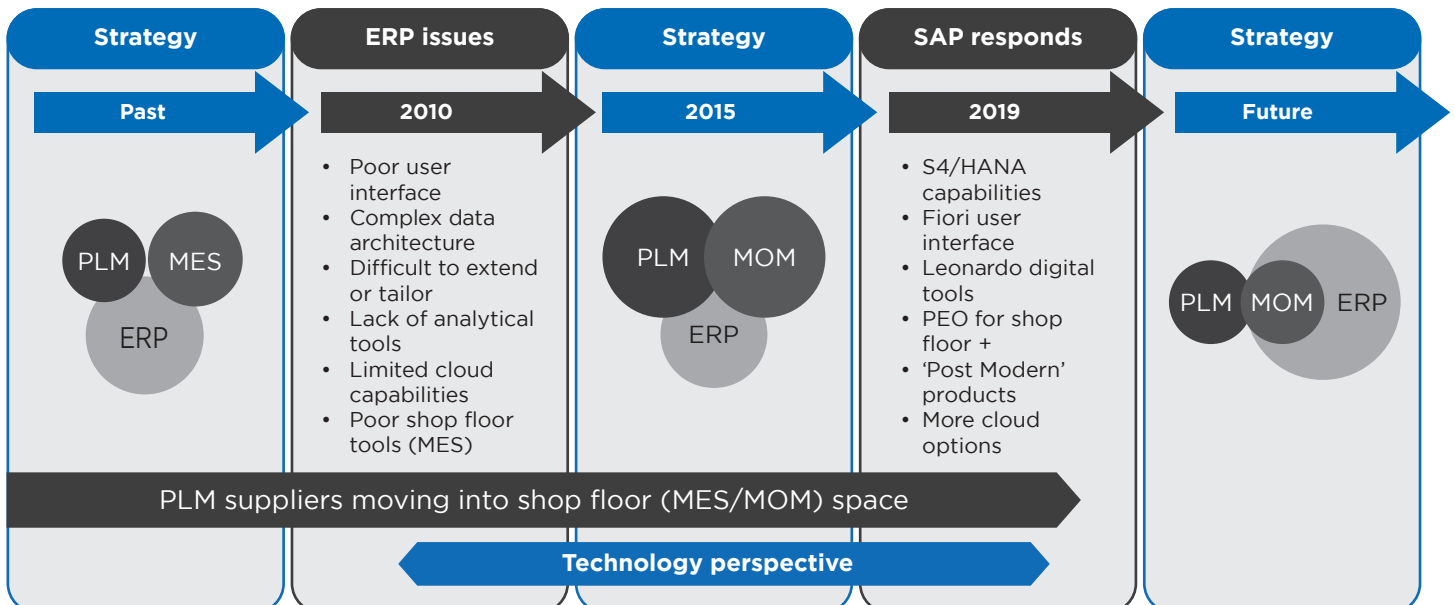

Aerospace and Defense Manufacturing Perspectives

Aerospace and Defense (A&D) industry contributes \$900 billion to the world economy. The Aerospace and Defense manufacturing market segment is utilizing advanced technologies to improve production and cost in areas of:

-  Increased functionality into cell or Flexible Manufacturing Systems (FMS)
-  Non-contact point sensor {fiber-optic-laser source} to enable next-gen measurement solutions
-  Embed Artificial intelligence (AI)/ Machine Learning (ML) with capacity management, ERP-PLM integration, location analysis, maintenance, process optimization and supply-chain
-  All A&D manufacturing enterprises are singing the praises of composites and reviewing the benefits over metal and are focused to address how additive manufacturing certification process can be achieved
-  Innovative design concepts which involves 3D data as master
-  Companies are sharing how putting knowledge workers at the center of the manufacturing enterprise empowers them
-  Enterprises that have embarked on their engineering and manufacturing digital transformation journeys (everything is model based) have already realized that communication and change management processes are just as important as the technological components

Innovation is all around and with a promising outlook, the themes for reference architectures involving digital transformation, digital thread/model based systems (engineering, manufacturing, sustainment), Connected Machines, Connected Factory/Factory of the Future/Industry 4.0 to enable the digital twin has retriggered the holy grail battle on PLM-MOM-ERP

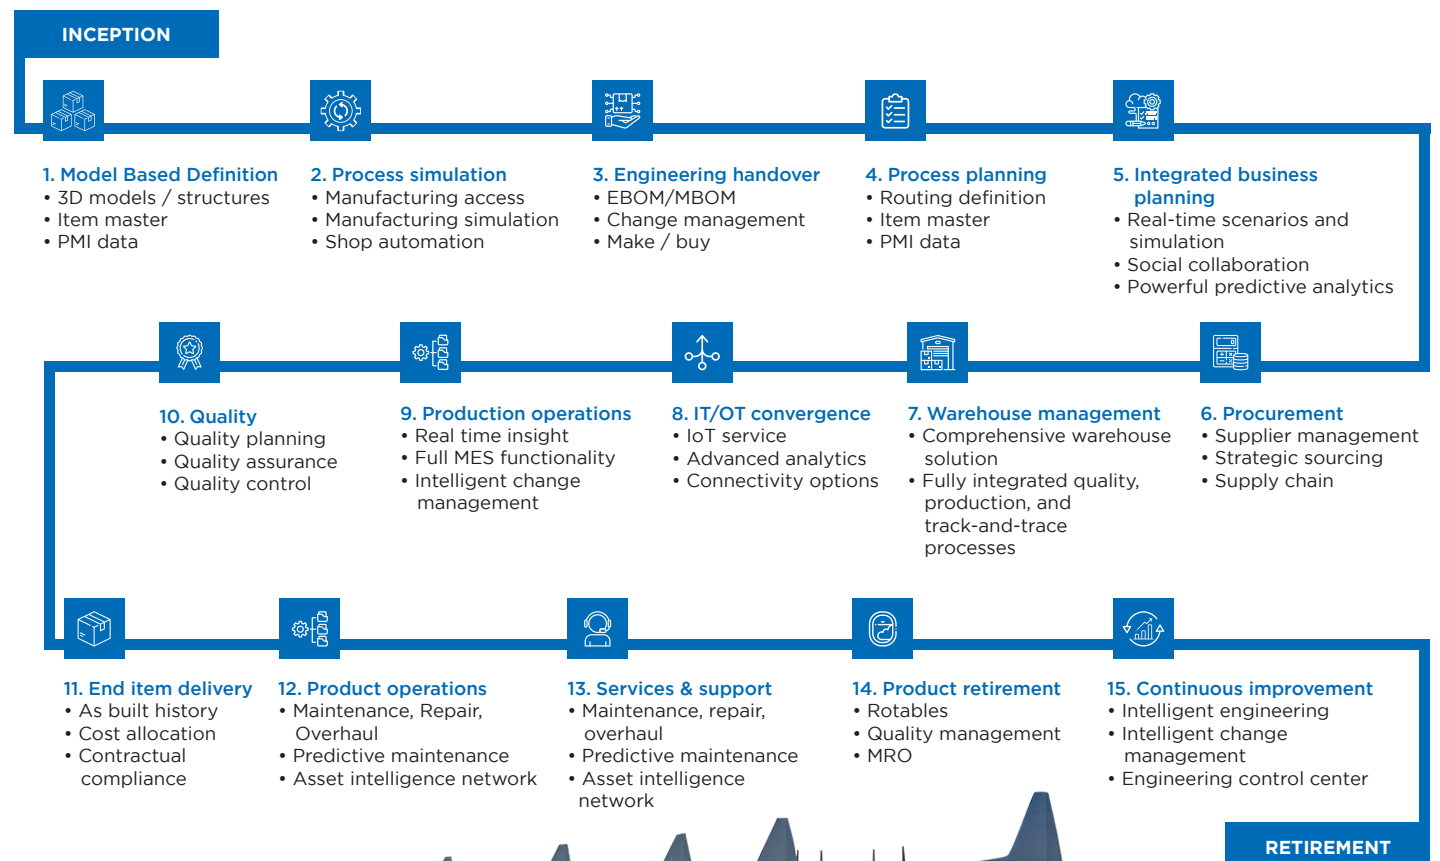

HCL Client Offerings for A&D Manufacturing

Activity 	SAP Solution Focus 	Offering 	Business Impact 
Assessment & Strategy Consulting	Decision making framework for manufacturing digital transformation	Comprehensive assessment and report out strategy for digital continuity (PLM-MOM-ERP)	Enabling Model Based Enterprise 2.0 (MBE 2.0)
Sourcing & Procurement	Ariba	Strategic sourcing and procurement assessment with system show and tell	<ul style="list-style-type: none"> Value-driven Source-to-Contract transformation Procure to Pay
Digital Manufacturing	SAP PCO, SAP MII, DMC	Machine connectivity and capability assessment for OEE (availability, performance, and quality), Conference Room Pilot's (CRP) for use cases	Enable better decisions to meet dynamic demands
	SAP S/4HANA with Production Engineering & Operations (PEO)	Digital Thread and Industry 4.0 capability assessment for A&D business use cases and architecture, CRPs for use cases	<ul style="list-style-type: none"> MoM strategy definition Return on Investment (ROI) for manufacturing Digital transformation based on Model Based Enterprise 2.0 (MBE 2.0)
	SAP Manufacturing Execution (ME)		
	SAP S/4HANA with QM, Quality Issue Management (QIM), EWM, Material Req. Planning & Production Scheduling, Global Track & Trace, EH&S, PM, and AIN	Assessment of MOM capability already in ERP & review benefits of value drivers and process optimizer's use cases, and CRPs for use cases	
Enterprise User Experience	Fiori/UI5 Apps	Fiori (HTML5, CSS) assessment/roadmap, CRPs for use cases	
Digital Enablement	SAP Cloud Migration	Cloud readiness assessment and roadmap	<ul style="list-style-type: none"> Business driver's alignment Develops IT transformation KPIs (investment metrics)
Connected Shop floor	Leonardo IoT, SAP Edge Gateway (Dynamic Edge Processing)	Design Thinking & IoT Medallion Accelerators, CRPs for use case	Enable better decisions to meet dynamic demands

Building an Intelligent Enterprise

Accelerating optimized performance

SAP/HCL approach covers A&D processes from Inception to Retirement including source decisions, production definition, process elaboration, order execution, IoT automation, asset definition, quality conformance, financial reporting, analytics and total performance management.

The HCL Difference

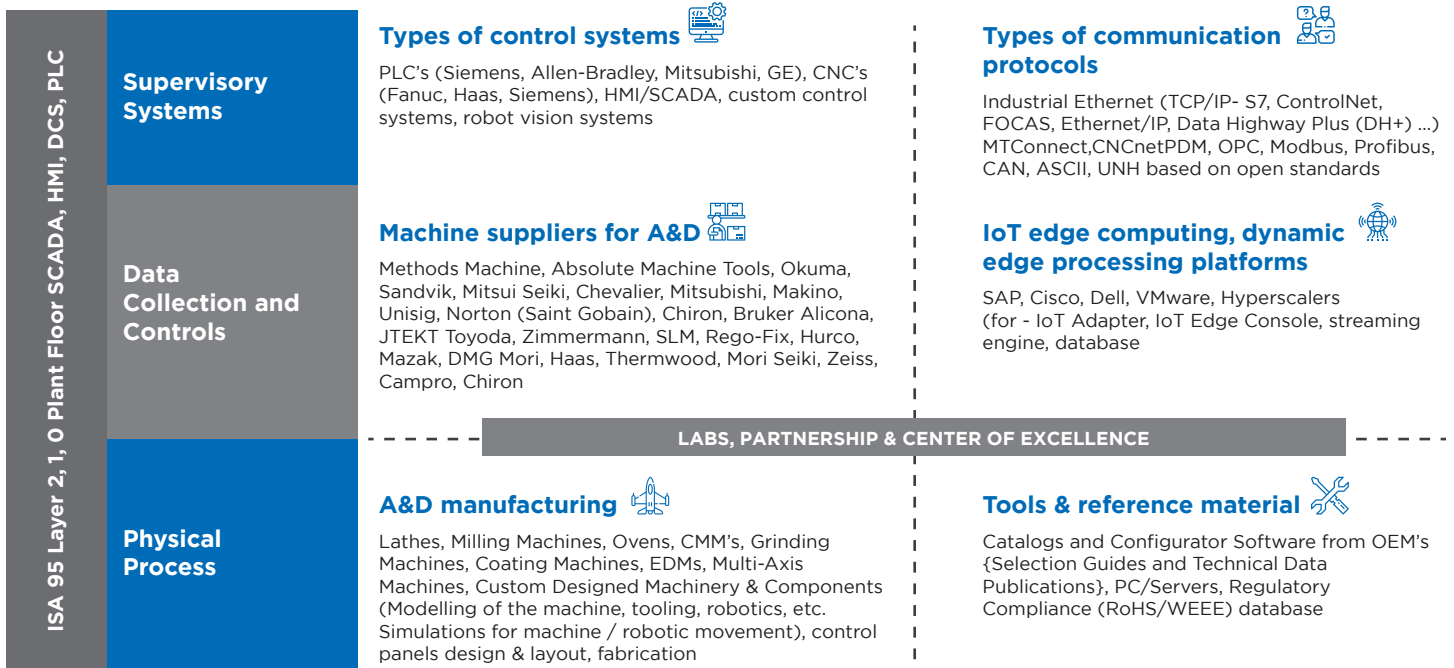

Why we make a good partner for Digital Thread and Industry 4.0/Factory of the Future/
Model Based Enterprise 2.0

 4200 A&D related employees	 >\$500 Mn A&D related revenue	 5 ITAR compliant delivery location	 7 secure global defense locations
--	---	--	---

 HCL creates SAP products <ul style="list-style-type: none"> SOLEX-SAP enterprise asset management, add-on for MRO by HCL for SAP S/4HANA HCL provides product development service to SAP Labs 	 HCL tailors SAP products <ul style="list-style-type: none"> BASE90: Only SAP certified extension for Aerospace and Defense Co-innovation: Aerospace & Defense related SAP Cloud platform solutions 	 HCL partners with SAP <ul style="list-style-type: none"> HCL Group is one of the largest OEM Partner of SAP Cloud platform (strategic MoU with SAP) Member of SAP SUGAIR Advisory Council
 HCL's Model Based Enterprise 2.0 experience enabled with SAP products <ul style="list-style-type: none"> HCL deep manufacturing experience within A&D and other discrete manufacturing companies Innovation and IOT enablement across manufacturing 	 HCL's strong engineering background <ul style="list-style-type: none"> HCL provides engineering support to many of the top A&D customers that interface to SAP Ability to make the connection along the digital thread from engineering through manufacturing 	 HCL implements SAP <ul style="list-style-type: none"> Global strategic service system integrator Among top 3 global SI Partner for Aerospace and Defense

HCL's Experience with Manufacturing, Automation & Communication Systems

Create a 'connected shop floor' environment across factories

HCL Technologies (HCL) empowers global enterprises with technology for the next decade today. HCL's Mode 1-2-3 strategy through its deep-domain industry expertise, customer-centricity and entrepreneurial culture of ideapreneurship™ enables businesses transform into next-gen enterprises.

HCL offers its services and products through three business units - IT and Business Services (ITBS), Engineering and R&D Services (ERS) and Products & Platforms (P&P). ITBS enables global enterprises to transform their businesses through offerings in areas of Applications, Infrastructure, Digital Process Operations and next generational digital transformation solutions. ERS offers engineering services and solutions in all aspects of product development and platform engineering while under P&P, HCL provides modernized software products to global clients for their technology and industry specific requirements. Through its cutting-edge co-innovation labs, global delivery capabilities and broad global network, HCL delivers holistic services in various industry verticals, categorized under Financial Services, Manufacturing, Technology & Services, Telecom & Media, Retail & CPG, Life Sciences & Healthcare and Public Services.

As a leading global technology company, HCL takes pride in its diversity, social responsibility, sustainability and education initiatives. As of 12 months ended June 30, 2020, HCL has a consolidated revenue of US \$ 9.93 billion and its 150,287 ideapreneurs operate out of 49 countries.
