Our recent experiences

A leading **media and entertainment company**

Business challenges

- Growth acceleration was hampered by In-house software applications that were inefficient, laborious, manual data entry prone & disparate applications without an integrated view of business
- Lack of integration between systems lead to data inaccuracies and inconsistent processes.
- Significant report generation delays resulted in a lack of real-time business insight and analysis.

Solution highlights

- Oracle NetSuite was selected over leading cloud solutions to provide the customer with a complete cloud-based business management solution.
- Oracle NetSuite was implemented to power customer's financial management, accounts receivables, accounts payables, subscriptions, revenue recognition, planning and budgeting.
- Oracle NetSuite's cloud-based solution reduced audit preparation time by 30% and IT cost by 35%.

A leading **global food and beverage company**

Business challenges

- Customer billing, invoice integration with third party application and manual app processing
- Timely period closures.
- Lack of visibility to transactional data and insights – not able to provide granularity for strategic decision making.
- Expand COA to track the digital enterprise business needs.

Solution highlights

- Deploying Oracle NetSuite has been a game-changer. The unified system automated manual tasks and improved order processing by 75% and accelerated financial closure by 25%.
- End to End Visibility & Integrated Financials.
- Enabled Tracking, Managing & Reporting on Fixed Assets.
